

MEADOW RUN AT FOX GROVE SUBDIVISION, F.K.A., FOX GROVE REVISED FINAL SITE PLAN F084-007

Board of County Commissioners

Public Meeting

October 7, 2025

Owner: Meadow Run Property Owners Association Inc., (Jeff Cabel)

Applicant: Meadow Run Property Owners Association Inc.

Requested by: MacKenzie Engineering and Planning Inc., (Shaun MacKenzie, Chris Menninger)

Project Coordinator: Brian Elam, PMP, Principal Planner

Subject Site

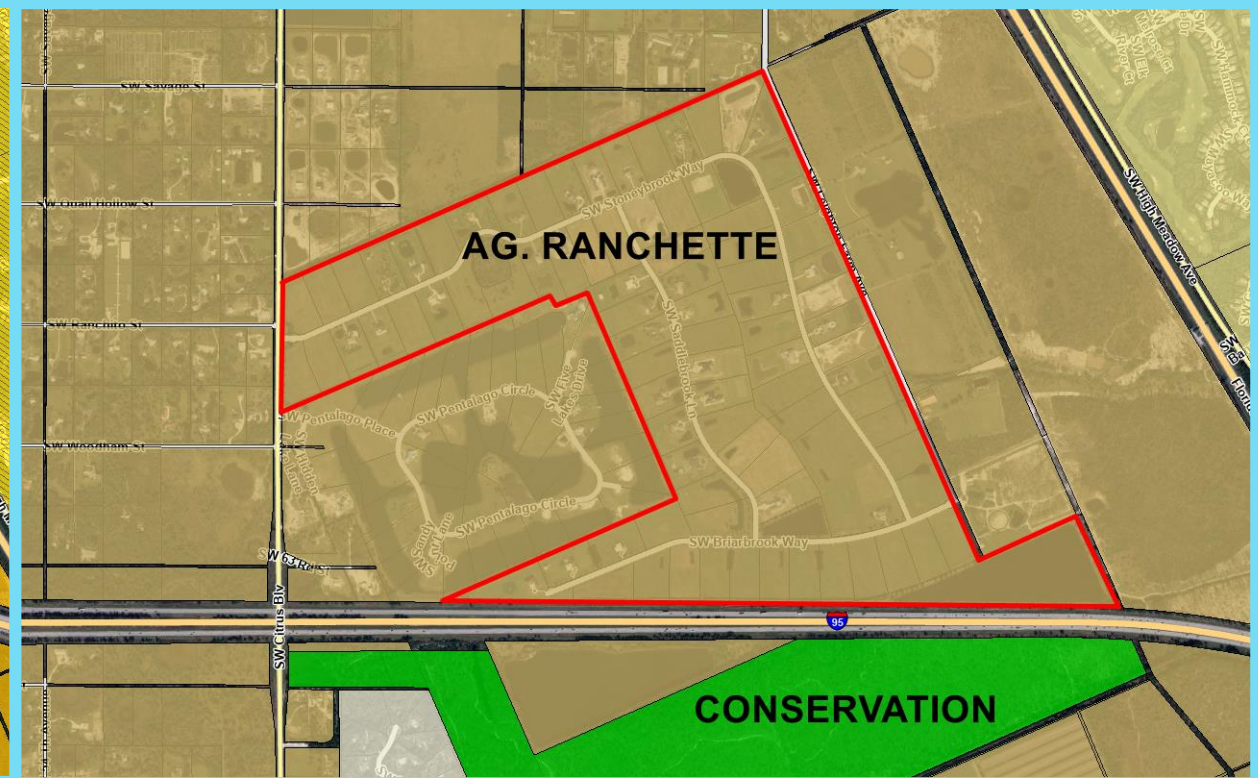

FUTURE LAND USE AND ZONING

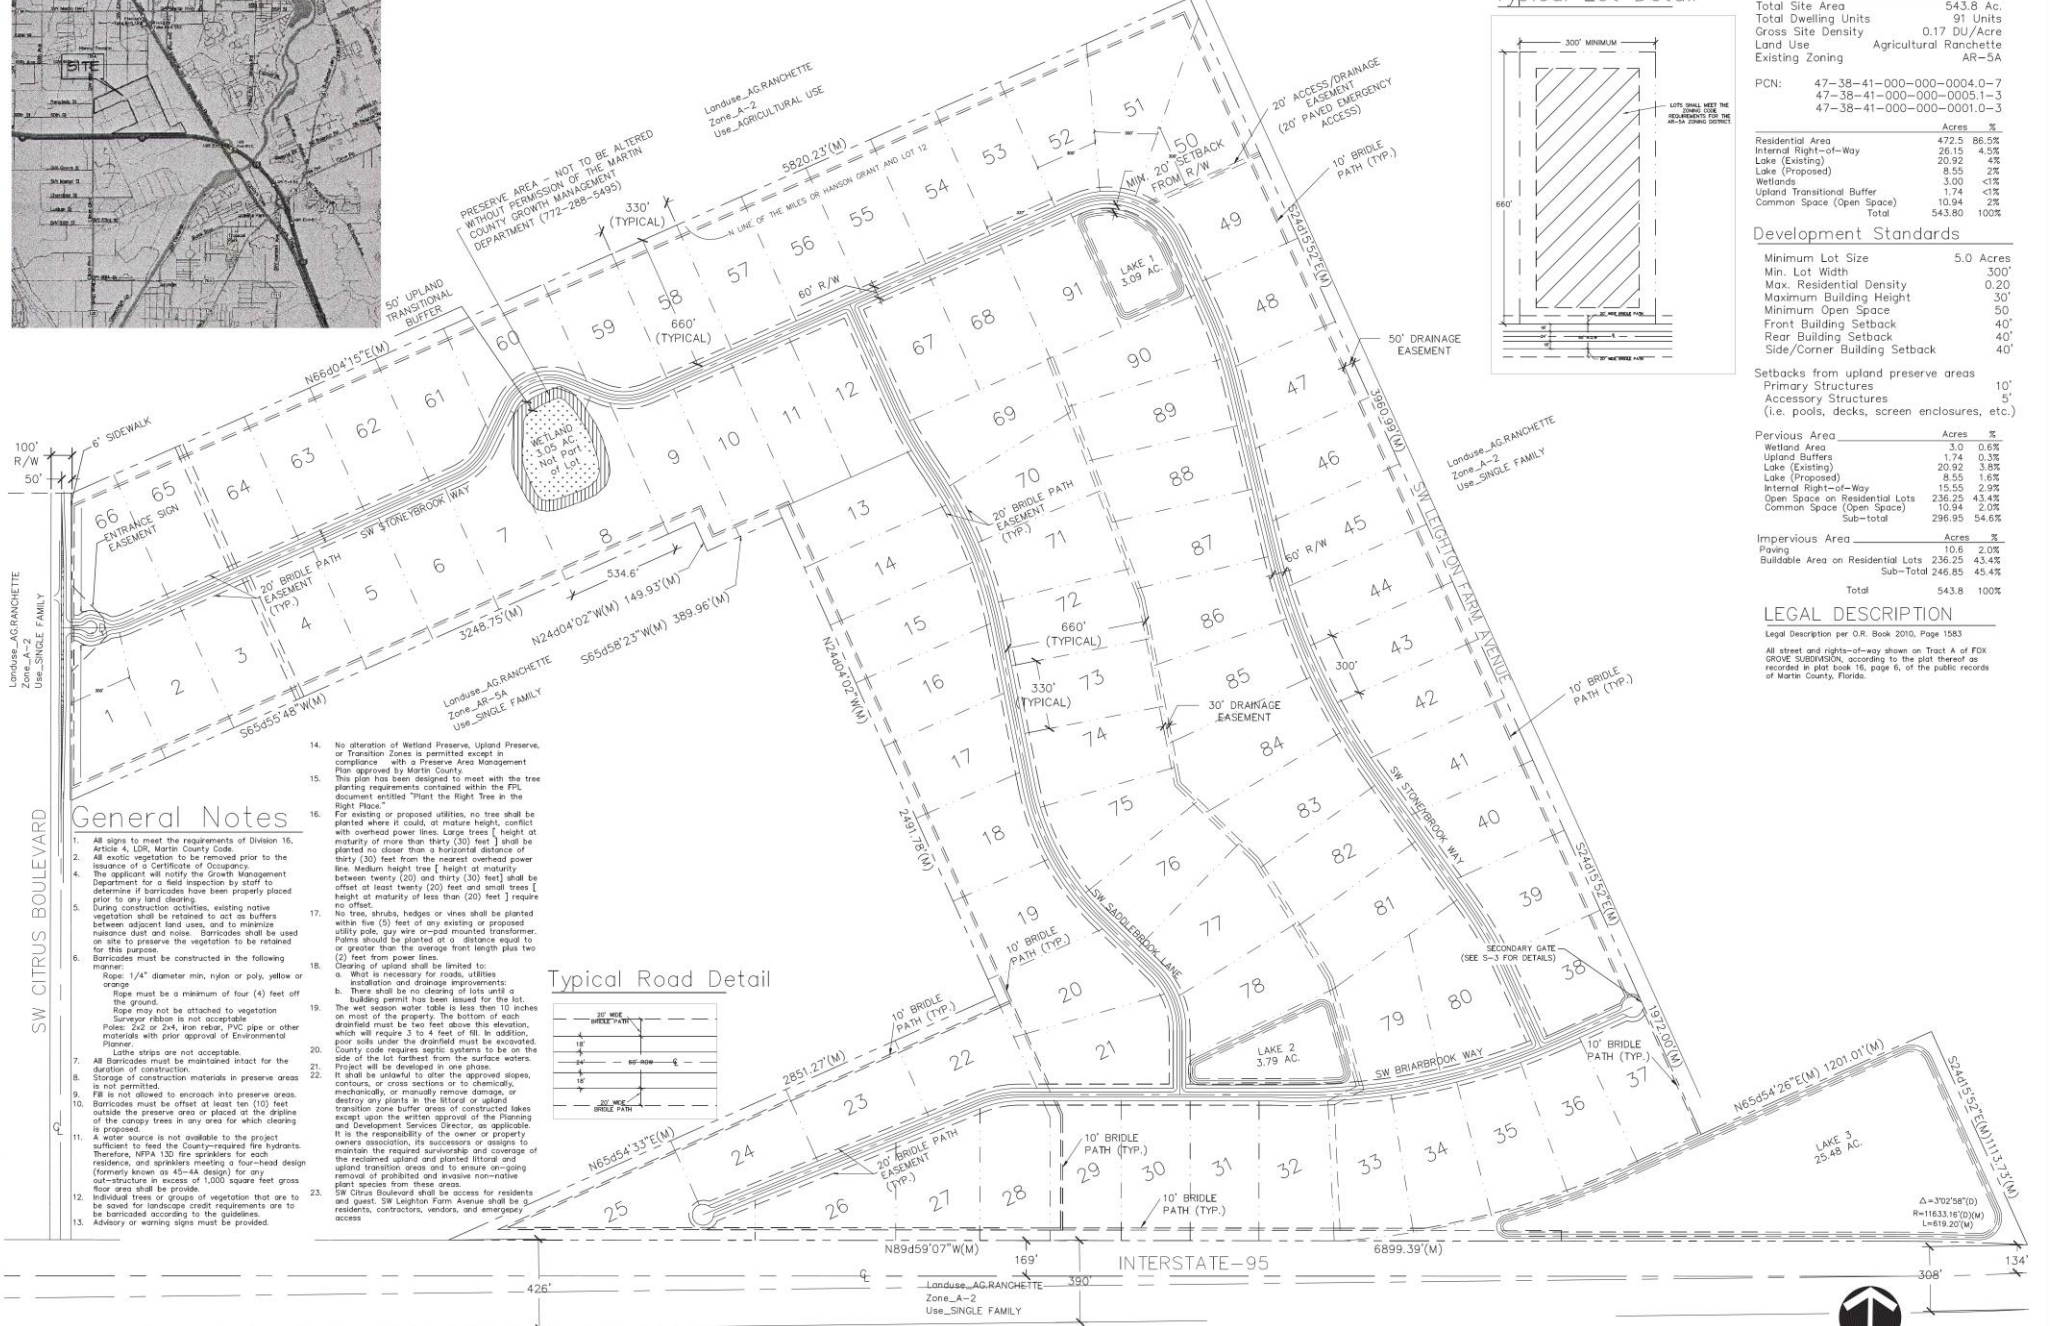

AR-5A; AGRICULTURAL RANCHETTE DISTRICT

FUTURE LAND USE; AGRICULTURAL RANCHETTE

REVISED FINAL SITE PLAN

- ### General Notes
- All signs to meet the requirements of Division 16, Article 4, LOR, Martin County Code.
 - All existing vegetation to be removed prior to the issuance of a Certificate of Occupancy.
 - The applicant will notify the Growth Management Department for a field inspection by staff to determine if barricades have been properly placed prior to any land clearing.
 - During construction activities, existing native vegetation shall be retained to act as buffers between adjacent land uses, and to minimize nuisance dust and noise. Barricades shall be used as site to preserve the vegetation to be retained for this purpose.
 - Barricades must be constructed in the following manner:
 - Rope: 1/4" diameter min, nylon or poly, yellow or orange.
 - Rope must be a minimum of four (4) feet off the ground.
 - Survey ribbon is not acceptable.
 - Poles: 2x4 or 2x6, iron rebar, PVC pipe or other materials with prior approval of Environmental Planner.
 - Loche strips are not acceptable.
 - All barricades must be maintained intact for the duration of construction.
 - Storage of construction materials in preserve areas is not permitted.
 - Fill is not allowed to encroach into preserve areas.
 - Barricades must be offset at least ten (10) feet outside the preserve area or placed at the decline of the canopy trees in any area for which clearing is proposed.
 - A water source is not available to the project sufficient to feed the County-required fire hydrants. Therefore, NFPA 130 fire sprinklers for each residence, and sprinklers meeting a four-head design (formerly known as 45-44 design) for any out-structure in excess of 1,000 square feet gross floor area shall be provided.
 - Individual trees or groups of vegetation that are to be saved for landscape credit requirements are to be barricaded according to the guidelines.
 - Advisory or warning signs must be provided.
 - No alteration of Wetland Preserve, Upland Preserve, or Transition Zones is permitted except in compliance with a Preserve Area Management Plan approved by Martin County.
 - This plan has been designed to meet with the tree planting requirements contained within the FPL document entitled "Plant the Right Tree in the Right Place."
 - For existing or proposed utilities, no tree shall be planted where it could, at mature height, conflict with overhead power lines. Large trees (height at maturity of more than thirty (30) feet) shall be planted no closer than a horizontal distance of thirty (30) feet from the nearest overhead power line. Medium height trees (height at maturity between twenty (20) and thirty (30) feet) shall be offset at least twenty (20) feet and small trees (height at maturity of less than (20) feet) require no offset.
 - No tree, shrubs, hedges or vines shall be planted within five (5) feet of any existing or proposed utility pole, guy wire or pad mounted transformer. Plants should be planted at a distance equal to or greater than the average front length plus two (2) feet from power lines.
 - Clearing of upland shall be limited to:
 - a. Work is necessary for roads, utilities installation and drainage improvements.
 - b. There shall be no clearing of lots until a building permit has been issued for the lot.
 - The wet season water table is less than 10 inches on most of the property. The bottom of each drainfield must be two feet above this elevation, which will require 3 to 4 feet of fill. In addition, poor soils under the drainfield must be excavated. Property code requires septic systems to be on the side of the lot farthest from the surface waters. Project will be developed in one phase.
 - It shall be unlawful to alter the approved slopes, contours, or cross sections or to mechanically, mechanically, or manually remove damage, or destroy any plants in the buffer area of upland transition zone buffer areas of constructed lakes removed from the writer's project.
 - Planning and Development Services Director, as applicable.
 - It is the responsibility of the owner or property owners association, its successors or assigns to maintain the required ownership and coverage of the reclaimed upland and planted littoral and upland transition areas and to ensure on-going removal of prohibited and invasive non-native plant species from these areas.
 - SW Citrus Boulevard shall be access for residents and guest. SW Leighton Farm Avenue shall be a residents, contractors, vendors, and emergency access.

Development review staff have found the Meadow Run Property Owners Association, Inc., application to comply with all applicable regulations and the Comprehensive Growth Management Plan as detailed in the staff report.

LOCAL PLANNING AGENCY

Pursuant to Section 10.5.F.9., Land Development Regulations (LDR), Martin County Code, a review of this application is not required by the Local Planning Agency (LPA).

STAFF RECOMMENDATION

Staff recommends approval of the Meadow Run Property Owners Association, Inc., application.

1. Move that the Board receive and file the agenda item and its attachments including the staff report as Exhibit 1.
2. Move that the Board adopt the resolution approving the Revised Final Site Plan and for the Meadow Run at Fox Grove Subdivision project.

THAT CONCLUDES THE PRESENTATION
