**Amendment of the
Land Development Regulations
and the Zoning Atlas
for the Hobe Sound CRA**

Project	Update of the Land Development Regulations for the CRAs
Staff	Irene A. Szedlmayer, AICP
Date of this Report	April 7, 2020

This document may be reproduced upon request in an alternative format by contacting the County ADA Coordinator (772) 320-3131, the County Administration Office (772) 288-5400, Florida Relay 711, or by completing our accessibility feedback form at www.martin.fl.us/accessibility-feedback

I. Background

The Land Development Regulations (LDRs) governing the Community Redevelopment Areas (CRA) were initially adopted between 2001 and 2006. Different consulting firms and different staff worked on different CRAs. The ordinances were codified as Article 3 of the LDRs, Zoning Districts, Division 6, Redevelopment Overlay Districts. There were significant deficiencies in those regulations regarding which standards were mandatory versus which were merely encouraged, and which provisions applied only in the zoning overlays and which applied throughout the CRA. These ambiguities in the text led to varying staff interpretations over time. Furthermore, while codified in Article 3, Zoning Districts, the regulations included provisions regarding streets, landscaping, and stormwater. Questions about how provisions for landscaping and street design in the zoning code related to landscaping and street standards in Article 4, Site Development Standards, required difficult interpretations in the face of unclear text. Additionally, the regulations included inadequate attention to the existing neighborhoods in which they were to be implemented. The need to amend Article 3, Division 6 was recognized years ago, but in the face of constraints on staff time during boom times in land development and construction, and the magnitude of a task that was beyond staff's capacity, time to pass with no resolution.

In 2017 and 2018, staff was able to recommend "glitch bills" to the Board of County Commissioners. However, the glitch bills were limited in scope. The focus was to reduce ambiguity and inconsistency in the codes and clarify rules without significant substantive change. The need for more substantial amendments was acknowledged.

In June 2018, the Board of County Commissioners approved a contract between the Community Redevelopment Agency and the Treasure Coast Regional Planning Council to develop new

Land Development Regulations for the CRAs. The Treasure Coast Regional Planning Council brings substantial knowledge and expertise in the areas of urban design, town planning and redevelopment and a long history of providing such assistance to counties, towns and cities in the region, to this Martin County CRA project.

Dana Little, Urban Design Director, TCRPC, and Jessica Cortor Seymour, RA, LEED AP, Regional Planner, TCRPC, worked with the Office of Community Development, the Growth Management Department, the Public Works Department, William M. Spikowski, FAICP, Spikowski Planning Associates, and received further input from the Hobe Sound Neighborhood Advisory Committee and members of the public who participated.

Treasure Coast Regional Planning Council staff will present the proposed Article 12, Division 5 at the April 2, 2020 public hearing.

II. Article 12, Division 5, Hobe Sound Community Redevelopment Code

A copy of the proposed Article 12, Redevelopment Code, Division 5, Hobe Sound Community Redevelopment Code, is included in this agenda item. (Exhibit A) Article 12, Redevelopment Code, Division 1, General, was adopted on September 24, 2019 and became effective on November 8, 2019. Art. 12, Div. 1 will be applicable in all six Martin County Redevelopment Zoning Districts. Because Division 5, Hobe Sound Community Redevelopment Code, the subject of this agenda item, cannot be fully understood without reference to Division 1, Division 1 is also included in the agenda packet (Exhibit B)

- A. Because the goal for a vibrant, compact, walkable, small town Hobe Sound CRA has not substantially changed, the proposed LDR are intended to facilitate a built environment that is consistent with the vision established in the Hobe Sound Community Redevelopment Plan, adopted in 2000 and revised in 2009.
- B. The majority of the Hobe Sound CRA will be assigned to the Hobe Sound Redevelopment Zoning District. The exceptions are those parcels with institutional future land use designations which will retain institutional zoning districts, the Shellbridge Subdivision, which retains its Estate Density residential zoning district, and 8.5 acres which is governed by a PUD zoning district. See Exhibit C.
- C. Art. 12, Div. 5 establishes the Regulating Plan for Hobe Sound. The Regulating Plan assigns land areas to seven zoning subdistricts: Core, Corridor, General, Railroad Corridor, Multifamily, and Detached zoning subdistricts (Div. 5, pages 2 & 3). The Regulating Plan is attached as Exhibit D of this staff report.

Certain general goals guided the assignment of zoning subdistricts to the land:

- (a) avoid diminishing existing development rights;
- (b) avoid creating non-conformities;
- (c) avoid creating substantial new development rights;
- (d) adjacent lots recognized by the Property Tax Assessor Appraiser as a single parcel should be assigned the same subdistrict;
- (e) adjacent parcels under single ownership should be assigned the same subdistrict.

Sometimes consideration of the particular facts concerning a particular property results in modest deviations from these general guidelines. The next paragraphs discuss the assignment of zoning subdistricts in Hobe Sound.

1. The Core subdistrict is depicted by the brick red color on the Regulating Plan. It is intended to be the most compact, walkable center of Hobe Sound. The Core subdistrict is generally assigned to the land area within the Mixed-Use Future Land Use Overlay. Regarding Hobe Sound, staff recommends that the Core subdistrict be extended to include all of the Winn-Dixie Shopping Center in recognition of the infill development and redevelopment opportunity this land area represents as well as additional land between Dixie Highway and Federal Highway with commercial future land use designations.
2. Land between the FEC railroad and Shell Avenue is currently within the Mixed-Use Future Land Use Overlay, but rather than the Core subdistrict, creation and assignment of a new zoning subdistrict is recommended—Railroad Corridor.

This 15-acre area currently has the Commercial Office/Residential and General Commercial future land use designations, between Bridge Road and Gleason Street, and Residential Estate Density future land use between Gleason and Woillard Avenue. According to the Martin County Property Appraiser and local knowledge, the existing uses include a repair service shop, warehouse and distribution terminal, construction industry trades, light equipment manufacturing, a sawmill, a communications tower, and vacant commercial land. Given the physical separation from Bridge Road and A-1-A/Dixie Hwy created by the railroad, and the goal of preserving the ability for commercial activities like those that currently exist to continue, this land area warrants different treatment.

The permitted use groups in the Railroad Corridor subdistrict are more inclusive than the Core subdistrict but more restricted than the Corridor subdistrict. The maximum building coverage (60%) and minimum open space (20%) for the General, Corridor and Railroad Corridor zoning subdistricts is the same.

3. Within the Core zoning subdistrict, for the three blocks along A-1-A/Dixie Highway, from Bridge Road to Adonis, the Regulating Plan requires commercial frontage on the ground floor of buildings. While retail frontage may be highly desirable on this street frontage, a retail is not required due to concern about trying to force a market if one does not exist. The requirement simply disallows residential uses on the first floor.
4. The land area along Federal Highway primarily is assigned to two subdistricts—Corridor and General. The Corridor subdistrict is the most permissive regarding uses. Assignment of the Corridor zoning subdistrict is limited to properties that currently have the General Commercial future land use designation and GC zoning and are outside of the A-1-A/Dixie Highway or Bridge Road Zoning Overlays. Outside of the CRAs, convenience restaurants with drive-through service and vehicle service and maintenance are permitted only on land with the General Commercial future land use designation and GC zoning. As a result, convenience restaurants with drive-through services, convenience stores with fuel, vehicle service and maintenance, and extensive impact retail and services are permitted in the Corridor subdistrict.

Two new building types have been developed to accommodate the permitted uses in the Corridor subdistrict. Building types are proposed for fueling stations and drive-through

services which staff believe better protect the public realm and the walkability of the Hobe Sound CRA. (Div. 5, page 10)

- D. Division 5 also includes a Street Regulating Plan for Hobe Sound. The Street Regulating Plan designates primary streets, secondary streets, and civic places. For purposes of Article 12, Primary Streets are not the streets that carry the most traffic but are the streets where the quality of the public realm is most important. In Hobe Sound the Primary Streets are A-1-A/Dixie Highway and Bridge Road. Secondary Streets are Hercules and Lares Avenues.

Federal Highway is identified as a high priority to become a “Complete Street” and “Safe Route to School.” The Florida Department of Transportation’s Complete Streets Policy describes them like this: “While maintaining safety and mobility, Complete Streets shall serve the transportation needs of transportation system users of all ages and abilities, including but not limited to Cyclists, Freight handlers, Motorists, and Pedestrians.” FDOT describes Safe Routes to School as a concept intended to increase the number of children who walk or bicycle to school and can do so safely.

- E. Permitted use groups and development standards vary by zoning subdistrict.
- F. The permitted use groups for the Core, Corridor, General, Railroad Corridor, Multifamily, and Detached subdistricts remain consistent, though not identical, with the permitted uses in effect in Hobe Sound now (Div. 5, page 7).
- G. The development standards for the Core, Corridor, General, Railroad Corridor, Multifamily, and Detached zoning subdistricts are set forth in Table HS-5. (Div. 5, page 9). The development standards remain consistent, though not identical, with the development standards in effect now. Adjustments to the development standards include these:
 - a. Maximum building coverage and minimum open space. Currently, mixed-use projects within the Mixed-Use Future Land Use Overlay are permitted up to 80% building coverage and must maintain 20% open space. Currently, maximum building coverage and minimum open space for single-use projects are governed by the future land use designation. The current and proposed standards are summarized in the table below.

		Maximum Building Coverage	Minimum Open Space
Future Land Use Designations	Mixed-Use project in Mixed-Use Overlay	80%	20%
	General Commercial	60%	20%
	Limited Commercial	50%	30%
	Commercial Office/ Residential	40%	40%
	Residential	--	50%
Zoning Subdistricts	Core zoning subdistrict	80%	20%
	Corridor, Railroad Corridor, and General zoning subdistricts	60%	20%

- b. Maximum Building Height. Currently, the Hobe Sound CRA has a two-story maximum building height throughout the CRA, except for three discrete locations within the Mixed-Use Future Land Use Overlay where 3-story/35 feet building height is permitted. Art. 12,

Div. 5 retains the 2-story height limit, except in the Core subdistrict where 3-story buildings up to 40-feet in height are permitted and the Mobile Home subdistrict where only one-story buildings are permitted.

- c. Current regulations limit the maximum building size per floor to 7,500 sq. ft. in the Bridge Road zoning overlay and 5,000 sq. ft. in the A-1-A/Dixie Hwy. zoning overlay. Alternative compliance regarding building size has been twice recently approved. The proposed Art. 12, Div. 5 does not regulate maximum building size, except as Art. 12, Div. establishes a maximum building length of 200 feet.
- d. Residential Density and Minimum Lot Area.

(1) Art. 12, Div. 5 establishes three residential densities, according to zoning subdistrict:

Zoning Subdistricts	Maximum Dwelling units per Acre
Core, Corridor, General, and Railroad Corridor subdistricts	10
Multifamily and Mobile Home subdistricts	8
Detached subdistrict	5

These densities are lower than the maximum permitted by the Comprehensive Growth Management Plan for the CRA Center future land use designation (15 dwelling units per acre) and CRA Neighborhood future land use designation (10 dwelling units per acre).

- (2) Currently, Section 3.263.F. requires a minimum lot width of 35 feet for a detached single-family dwelling and a minimum and maximum lot width of 16 feet to 35 feet for a townhouse (attached single-family dwelling). There is no minimum lot area.

In the proposed Detached zoning subdistrict, minimum lot width is 25 feet and the minimum lot area is 2,500 sq. ft. These standards acknowledge that currently applicable regulation characterize townhouses as single-family dwellings and they are permitted to be constructed on 25-foot wide platted lots of record. In the Multifamily subdistrict, the proposed minimum lot width is 20-feet.

D. Amendment of the Zoning Atlas

1. Application Information

Applicant: Martin County Board of County Commissioners

Represented By: Susan Kores, Manager, Office of Community Development

Property Owners: Multiple
 Planner in charge: Irene A. Szedlmayer, AICP

Growth Management Director: Nicki van Vonno, AICP
 Project Number: CPA 19-23
 Application Received: 03/26/2019
 LPA Meeting Date: 04/02/2020
 BCC Meeting Date: 05/05/2020
 BCC Meeting Date: 06/16/2020

2. Project description and analysis

a) Introduction

This application involves the Hobe Sound Community Redevelopment Area (CRA). See Figure 1. Currently, 30 different zoning districts are assigned to the Hobe Sound CRA's 1,024 acres. (See Figure 2)

- | | |
|---------------------------------------|---|
| 1. R-1(Single-family Residential) | 17. PUD (Planned Unit Development) |
| 2. R-1A (Single-family Residential) | 18. HB-1 (Limited Business District) |
| 3. R-2 (Single-family Residential) | 19. B-1 (Business) |
| 4. R-2A (Two-family Residential) | 20. B-2 (Business -Wholesale Business) |
| 5. R-2B (Single-family Residential) | 21. COR-1 (Commercial Office/
Residential-1) |
| 6. R-3 (Multiple-family) | 22. COR-2 (Commercial Office/
Residential-2) |
| 7. R-3A (Liberal Multiple-family) | 23. LC (Limited Commercial) |
| 8. R-5 (Multi-family Residential) | 24. CC (Community Commercial) |
| 9. RS-5 (Low Density Residential) | 25. GC (General Commercial) |
| 10. RS-6 (Medium Density Residential) | 26. PS (Public Servicing) |
| 11. RS-8 (Medium Density Residential) | 27. PS-2 (Public Service) |
| 12. RM-5 (Low Density Residential) | 28. PR (Public Recreation) |
| 13. RM-6 (Medium Density Residential) | 29. PC (Public Conservation) |
| 14. RM-8 (Medium Density Residential) | 30. A-3 (Conservation) |
| 15. TP (Mobile Home Park) | |
| 16. RT (Mobile Home Subdivision) | |

Additionally, Hobe Sound CRA has two zoning overlay districts: A-1-A/Dixie Highway and Bridge Road. See Figure 3.

[Remainder of page is blank.]

Figure 1. Location Map

[Remainder of page is blank.]

Figure 2. Existing Zoning Atlas

Figure 3. Bridge Road and A-1-A/Dixie Highway Zoning Overlay Districts

The proposal amends the Martin County Zoning Atlas by:

- (1) replacing 25 of the 30 zoning districts with the Hobe Sound Redevelopment Zoning District and 7 zoning subdistricts;
- (2) repealing the two zoning overlay districts; and
- (3) assigning an institutional zoning district to several properties for consistency with the Future Land Use Map.

A PUD zoning district will remain in place as will the R-1A district for the Shellbridge Subdivision. See Figure 4.

The permitted uses and development standards for the Hobe Sound Redevelopment Zoning District are set-forth in Article 12, Redevelopment Code, Division 1, General, and Division 5, Hobe Sound Community Redevelopment Code, LDR. As explained in the first part of this report, permitted uses and development standards vary depending on the zoning subdistrict. Seven zoning subdistricts are proposed for the Hobe Sound CRA: Core, Corridor, Railroad Corridor, General, Multifamily, Mobile Home and Detached. The Regulating Plan assigns the subdistricts for the Hobe Sound Redevelopment Zoning District to the land, which is part of Article 12, Division 5.

The Regulating Plan also illustrates proposed future streets, locations where commercial frontage is required, and important civic sites.

Figure 4. Proposed Zoning Atlas

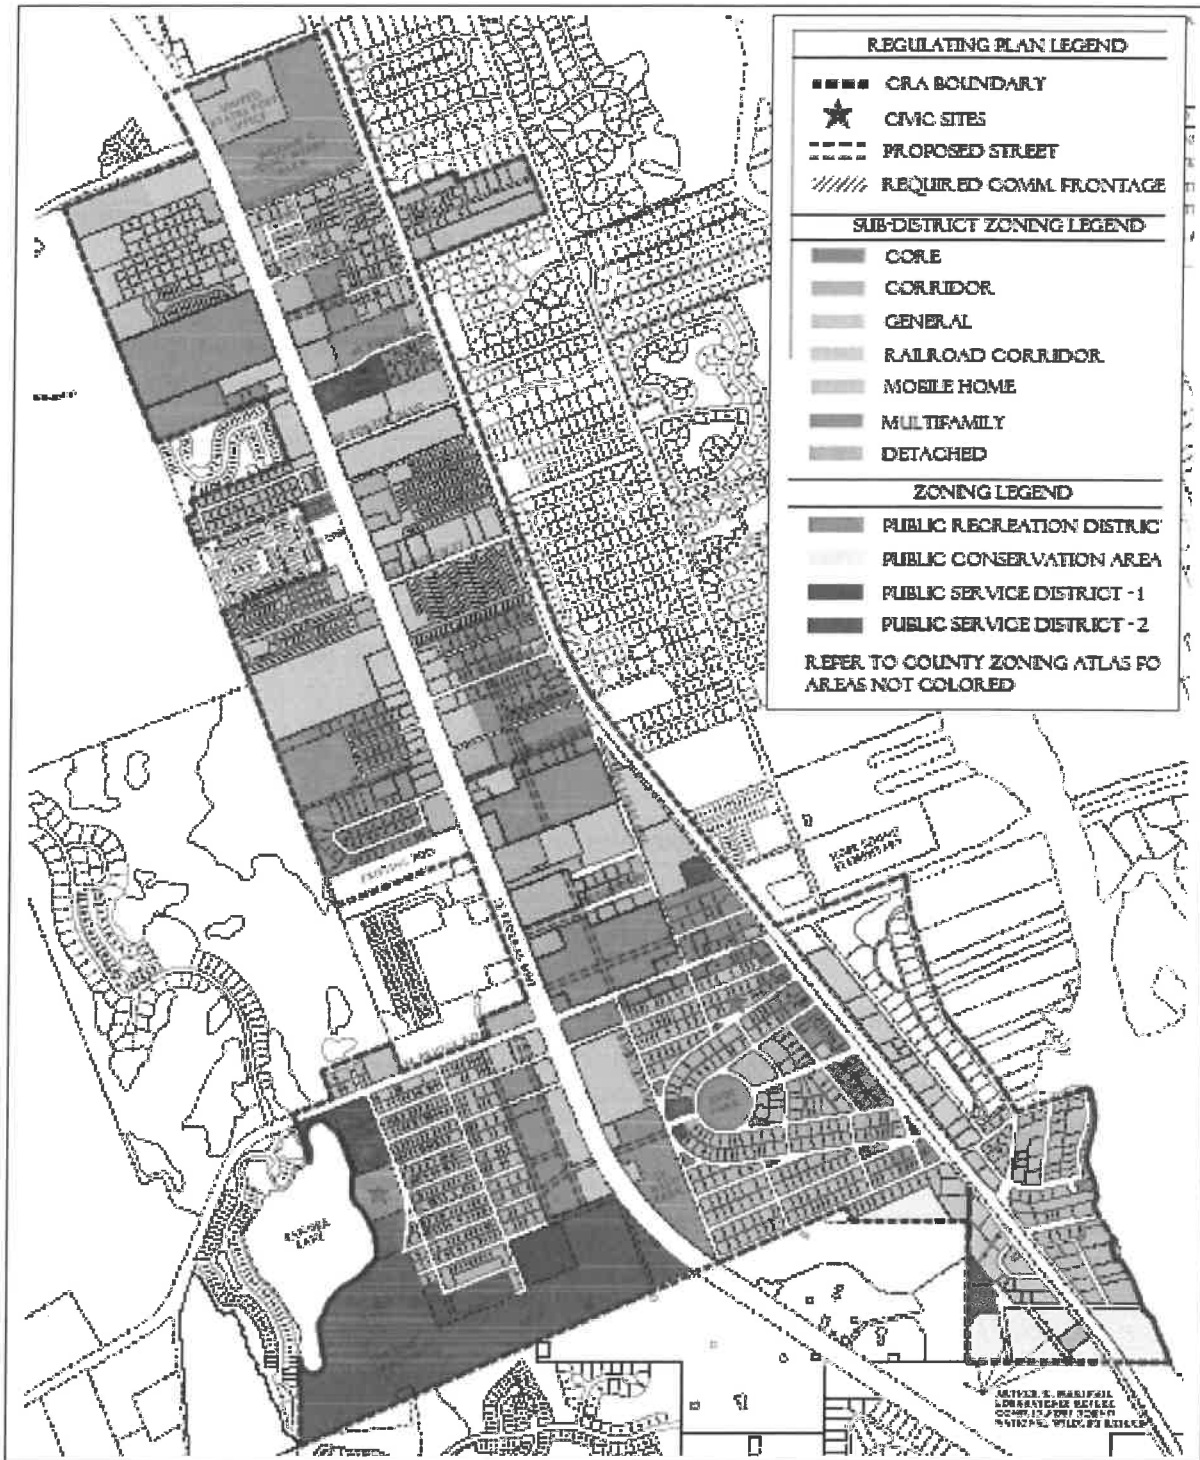

Figure 5. Proposed Hobe Sound Regulating Plan (3/26/2020)

b) Description of the Hobe Sound Subdistricts

The Hobe Sound Redevelopment Zoning District will have seven subdistricts. The subdistricts are described in Article 12, Division 1 as follows:

CORE: The Core subdistrict is a pedestrian-oriented center for surrounding neighborhoods and the entire CRA. These are centers of dining, shopping, housing, and entertainment, with shaded sidewalks, large windows, intimate pedestrian spaces, outdoor dining, and richly detailed building facades. A broad mix of uses is encouraged in the Core subdistrict.

CORRIDOR: The Corridor subdistrict is intended to extend the pedestrian-oriented building types, frontages and streetscapes along a major roadway.

RAILROAD CORRIDOR: The Railroad Corridor subdistrict is not defined in Article 12, Division 1. It was created in response to existing circumstances in the Hobe Sound CRA. The intent is to protect existing commercial uses in the subdistrict while also protecting the nearby neighborhood from adverse effect.

GENERAL: The General subdistrict offers a wide variety of housing, civic spaces, and pedestrian-oriented businesses. The General subdistrict also fosters a mix of uses but is more residential in scale and character.

MULTIFAMILY: The Multifamily subdistrict allows for denser and more varied residential buildings.

DETACHED: The Detached subdistrict is predominately single family homes with front yards and walkable sidewalks.

c. Adjacent Zoning Districts (See Figure 2 on page 8)

A mixture of different zoning districts—primarily residential or institutional-- border the proposed Hobe Sound Redevelopment Zoning District. To the north, are the R-3A, RM-5 and RM-8 zoning districts. To the west, substantial lands are in PC or A-3, both conservation zoning districts. Additional zoning to the west includes RM-5 and PUD-R and PUD-C. To the south, are the PUD-R, PS-2, PC, A-3, R-3 and R-1 zoning districts.

The permitted uses and development standards for the zoning subdistricts proposed for the Hobe Sound Redevelopment Zoning District are consistent with, though not identical to, the permitted uses and development standards currently applicable. Therefore, the proposed Hobe Sound Redevelopment Zoning District and subdistricts are compatible with the zoning districts adjacent to the Hobe Sound CRA. The proposed Hobe Sound Redevelopment Zoning District and subdistricts should have no negative impact on nearby zoning districts. Nor should these nearby zoning districts negatively impact the proposed Hobe Sound Redevelopment Zoning District.

3. Standards for Amendments to the Zoning Atlas

The Martin County Land Development Regulations (LDR), Article 3, Section 3.2.E.1. provides the following “Standards for amendments to the Zoning Atlas.”

“The Future Land Use Map of the CGMP [Comprehensive Growth Management Plan] establishes the optimum overall distribution of land uses. The CGMP also establishes a series of land use categories, which provide, among other things, overall density and intensity limits. The Future Land Use Map shall not be construed to mean that every parcel is guaranteed the maximum density and intensity possible pursuant to the CGMP and these Land Development Regulations. All goals, objectives, and policies of the CGMP shall be considered when a proposed rezoning is considered. The County shall have the discretion to decide that the development allowed on any given parcel of land shall be more limited than the maximum allowable under the assigned Future Land Use Category; provided, however, that the County shall approve some development that is consistent with the CGMP, and the decision is fairly debatable or is supported by substantial, competent evidence depending on the fundamental nature of the proceeding. If upon reviewing a proposed rezoning request the County determines that the Future Land Use designation of the CGMP is inappropriate, the County may deny such rezoning request and initiate an appropriate amendment to the CGMP.”

Pursuant to Section 3.2.E.2., LDR, the following factors must be considered:

- a. *Whether the proposed zoning amendment is consistent with all applicable provisions of the Comprehensive Plan.*

The Hobe Sound Redevelopment Zoning District and the Core, Corridor, Railroad Corridor, General, Multifamily, Mobile Home, and Detached zoning subdistricts are consistent with all applicable provisions of the Comprehensive Plan, as are the institutional zoning districts proposed to be assigned to several properties.

- b. Whether the proposed zoning amendment is consistent with all applicable provisions of the LDR.

Any development proposal for land located within the Hobe Sound Redevelopment Zoning District, will be required to comply with all applicable LDRs including uses, density, set-backs, height, open-space, wetlands, uplands, landscaping, stormwater, etc. The Hobe Sound Redevelopment Zoning District and Core, Corridor, Railroad Corridor, General, Multifamily, Mobile Home, and Detached zoning subdistricts are consistent with all applicable provisions of the Land Development Regulations.

- c. *Whether the proposed district amendment is compatible with the character of the existing land uses in the adjacent and surrounding area and the peculiar suitability of the property for the proposed zoning use.*

The Hobe Sound Redevelopment Zoning Code was developed expressly for the land to which it will apply—the Hobe Sound CRA. It is compatible with the existing land

uses within the Hobe Sound CRA as well as those in adjacent and surrounding areas. The PS-1 (Public Service District-1) implements CGMP policies for lands designated Institutional-General on the Future Land Use Map. PS-1 is designed to minimize the potential for negative impacts on surrounding properties. Several sites which are now located in the PS (a 1967 Category C zoning district) will be assigned the PS-1 District.

d. Whether and to what extent there are documented changed conditions in the area.

The analysis required for this section is similar to the analysis required pursuant to CGMP Section 1.11.C.(1) when considering the proposed amendment of the Future Land Use Map. The proposed amendment of the Zoning Atlas will not substantially change the land uses or intensity of development permitted. Rather, the intent is to modify the regulatory framework in order to simplify interpretation and implementation for property owners, developers and County staff, provide greater flexibility regarding permitted uses, and incrementally increase the development intensity permitted. The intent is to realize more efficiently and effectively the longstanding vision for the CRAs as represented in the Hobe Sound Redevelopment Plan adopted in 2000 and amended in 2009. Therefore, whether or not there are documented changed conditions in the area does may not be a pertinent factor in this case. Because the Hobe Sound CRA is identified as an area in need of redevelopment, the lack of substantial change offers support for the proposed new zoning.

e. Whether and to what extent the proposed amendment would result in demands on public facilities.

The land subject to the re-zoning is located within the Primary Urban Service District. Therefore, pursuant to CGMP Objective 4.7A., the full range of public facilities and services at the adopted Level of Service are to be provided or programmed to be provided. The maximum residential density allowed within the proposed Core and Corridor subdistricts is the same as that permitted pursuant to the current Hobe Sound Mixed-Use Future Land Use Overlay and the land area included within these subdistricts is mostly the same as is located within the Mixed-Use Future Land Use Overlay. It is expected that the more compact development pattern will enable public facilities and services to be provided more efficiently. Therefore, the amendment of the Zoning Atlas should not create demand on public facilities that is not anticipated by the current zoning. When a proposed site plan is reviewed, Comprehensive Plan policies and the LDR ensure that present or planned public facilities and services are capable of meeting and maintaining the adopted LOS. Additionally, the County Impact Fee program is designed to mitigate such impacts and ensure development pays for itself.

f. Whether and to what extent the proposed amendment would result in a logical, timely and orderly development pattern which conserves the value of existing development and is an appropriate use of the County's resources.

The Hobe Sound CRA was identified by Martin County 30 years ago as an area appropriate for infill development and redevelopment. The proposed Hobe Sound Redevelopment zoning district is designed to encourage infill development and

redevelopment and such infill development and redevelopment would be logical, timely and orderly, would conserve or improve the value of existing development, and is an appropriate use of County resources. Additionally, by providing for residential development within the CRA, it may be possible to help extend the life of the boundary of the Primary Urban Service District.

g. Consideration of the facts presented at the public hearings.

Whatever facts are presented at the public hearing on this proposed amendment of the Zoning Atlas should be taken into account in the decision-making. The hearing provides the public an opportunity to participate in the review and decision-making process.

4. Staff Review

The amendment of the Zoning Atlas does not include review of a site plan. Therefore, departments responsible for site plan review are not included in this staff report. The current review is as follows:

Division or Department	Reviewer	Assessment
Comprehensive Plan	Irene Szedlmayer	Comply
County Attorney	Krista Storey	Review Ongoing
Adequate Public Facilities	Irene Szedlmayer	Exempt

5. Review Board Action

The choice of the most appropriate zoning district for the subject property is a policy decision the Local Planning Agency (LPA) and the Board of County Commissioners (BOCC) are asked to consider based on the “standards for amendments to the zoning atlas” provided in Section 3.2 E.2., Land Development Regulations, Martin County Code.

The review and recommendation of the LPA are required on this application. Final action is by the BOCC. Both the LPA and the BOCC meetings are advertised public hearings.

6. Location and Site Information

Location: The request to amend the Zoning Atlas applies to the 1,024 acres that are within the Hobe Sound CRA. This area can be described generally as 1,300 feet east and west of S.E. Federal Highway for 2.3 miles south from SE Dharlys Street. The eastern boundary is the eastern edge of the FEC Railroad right-of-way from SE Dharlys to SE Bridge Road, with the exceptions that the Hobe Sound CRA extends east to Gomez Avenue to include approximately 18 acres, north and south of Pettway Street, and south of Bridge Road, the CRA extends further west to include all of the Banner Lake neighborhood and the land owned by the Pine School, and extends further east to Laurel Lane and the Indian Rover Lagoon.

Parcel numbers: Approximately 2,771 parcels.

Existing zoning: 30 different zoning districts and 2 zoning overlays. See pages 6 through 13 of this report.

Future Land Use: This amendment of the Zoning Atlas is proposed concurrently with the amendment of the Future Land Use Map. The Low Density Residential, Medium Density Residential, Mobile Home Density, Residential Estate Density, Commercial Office/Residential, Limited Commercial, General Commercial and General Institutional future land use designations are proposed to be changed to the CRA Center, CRA Neighborhood. Public Conservation, Recreational or General Institutional future land use designations. Additionally, the repeal of the Hobe Sound Mixed-Use Future Land Use Overlay is proposed.

Commission District: 3
Community Redevelopment Area: Hobe Sound CRA
Municipal Service Taxing Unit: District 3 MSTU
Planning Area: South County

7. Determination of compliance with the Comprehensive Growth Management Plan

Findings of Compliance:

The staff of the Growth Management Department Comprehensive Planning Division has reviewed the application and finds it in compliance with applicable Goals, Objectives and Policies. There are no unresolved Comprehensive Growth Management Plan issues associated with this application.

8. Determination of compliance with land use, site design standards, zoning, and procedural requirements

Findings of Compliance:

The staff of the Growth Management Department Comprehensive Planning Division has reviewed the application and finds it in compliance with applicable regulations. There are no unresolved issues associated with this application. Changes to the zoning atlas authorize no development activity. Any specific site future land use, design, zoning or procedural issues will be addressed at such time as development of a particular site is proposed.

9. Recommendation

Staff recommends adoption of the proposed ordinance to:

- (1) establish Division 5, Hobe Sound Community Redevelopment Code, Article 12, LDR, Martin County Code;
- (2) repeal Section 3.263, Article 3, Hobe Sound Community Redevelopment Area, Martin County LDR, and
- (3) amend the Zoning Atlas to assign the Hobe Sound Redevelopment Zoning District and other zoning districts for consistency with the Future Land Use Map.

Section 12.5.01. Purpose.

1. Hobe Sound is an intimate, historic community in Martin County which boasts a rich and diverse cultural, physical, economic, and geographic history. Originally a pineapple plantation, Hobe Sound has matured over time into a desirable destination for tourists, a strong community for residents, and a unique location for business activities. In an effort to maintain and strengthen the historical and cultural attributes of Hobe Sound, this LDR Division is intended to:
 - a. Promote and accomplish the goals, policies, and objectives of the Martin County Growth Management Plan as they pertain to Hobe Sound;
 - b. Preserve the character, quality, and scale of historic Hobe Sound and ensure the compatibility of future investment;
 - c. Provide clarity and predictability in future planning and development in Hobe Sound;
 - d. Maintain the high-quality standards of residential and non-residential growth;
 - e. Ensure a desirable and controlled natural and built environment for future generations.
2. **Hobe Sound Redevelopment Zoning District.** This Article 12, Division 5 of the Martin County Land Development Regulations establishes the Hobe Sound Redevelopment Zoning District and the permitted uses and development standards applicable therein.
3. **Organization.** How this Division is organized:

Section 12.5.01	Purpose
Section 12.5.02	Regulating Plan
Section 12.5.03	Permitted Uses
Section 12.5.04	Development Standards
Section 12.5.05	Building Type & Frontage Type Standards
Section 12.5.06	Street Standards
Section 12.5.07	Parking Standards
Section 12.5.08	Stormwater Standards
Section 12.5.09	Landscape Standards
Section 12.5.10	Wall & Fence Standards
Section 12.5.11	Sign Standards
Section 12.5.12	Architectural Standards

Permitted Uses

12.5.03

Section 12.5.03. Permitted Uses. Table **HS-4** identifies permitted uses in the HS (Hobe Sound) Redevelopment Zoning District.

1. The Use Groups listed in the first column of Table **HS-4** are described in Section 12.1.03.
2. The remaining columns identify the Subdistricts shown on the Regulating Plan.
 - a. “P” in a row below a column means that any use in that use group is permitted within that Subdistrict, provided the use can be developed in accordance with all applicable requirements of the LDR.
 - b. If “P” is not shown in a row, the use group is not permitted in that Subdistrict.
3. For uses that are functionally similar but not clearly permitted in a Subdistrict see Section 12.1.03.3.

Development Standards

12.5.04

Section 12.5.04. Development Standards.

1. All new development, substantial improvements of a building, and substantial renovations of a building exterior shall comply with the Development Standards in Table **HS-5**.
2. **Existing Buildings.** Whenever substantial improvement of a building or substantial renovation of a building exterior triggers the obligation to comply with this Division, the Growth Management Director may authorize incremental compliance with its requirements proportional to the nature and scope of the existing and proposed improvements if full compliance would be unreasonable. An application for alternative compliance shall not be required, but the Growth Management Director may require that the proposal be presented to the Neighborhood Advisory Committee for review and comment. See Section 4.871.B, Div. 20, Article 4.
3. **Accessory Dwelling Units.** Standards for accessory dwelling units are provided in Development Standards Section 12.1.04.8.
4. **Building Types.** Each new building, and any substantial improvement, must meet the standards for one of the Building Types permitted in the Subdistrict where it is located, see Table **HS-5**. Building Type diagrams do not prescribe use or architectural style and are illustrative. Dimensions provided in tables are regulatory requirements.
5. **Façade Transparency.** Shopfront, Mixed-use, Office, Apartment and Courtyard Building façades facing streets or civic open spaces at the ground level must have transparent windows which cover between 40 percent and 70 percent of the wall area. Building façades above ground level must have transparent windows which cover between 20 percent and 50 percent of the wall area of each story as measured between finished floors. Transparent means non-solar, non-mirrored glass with a light transmission reduction of no more than forty percent.
6. **Convenience store with fuel.** In addition to the standards in Section 3.106. - Vehicular service and maintenance, development shall meet the following criteria:
 - a. A ground level shop must be located along a street, with the gas pumps located to the rear or side of the lot as illustrated in Figure HS-12-9.04. No more than eight fuel positions and four fueling islands are permitted, refer to HS-12-9.05.
 - b. The shop shall have the primary entrance facing and directly accessible from the street; an additional entrance shall face the parking lot.
 - c. Gasoline Stations may be one story in height.
7. **Drive through.** In addition to the standards in Section 3.95. - Restaurant, convenience, development shall meet the following criteria:
 - a. The stacking area is accommodated along the side and/or in the rear of the lot.
 - b. The drive-through window shall be located either in the rear or to the side of the building, close to the frontage street. Figures HS-12-9.06 through HS-12.9.08 illustrate methods of incorporating drive through uses.

Corridor	General	Railroad Corridor

Description

A Boat Barn is an indoor storage facility. A liner with habitable uses is required to avoid large blank facades visible to the public. A liner shall face all primary streets. Liners may be additional commercial space with permitted uses.

Notes

A commercial liner shall be a minimum depth of 20' feet.

¹ Section 12.1.04.15 Building Transitions applies when the rear or side of a property directly abuts a residential subdistrict or an existing single family dwelling.

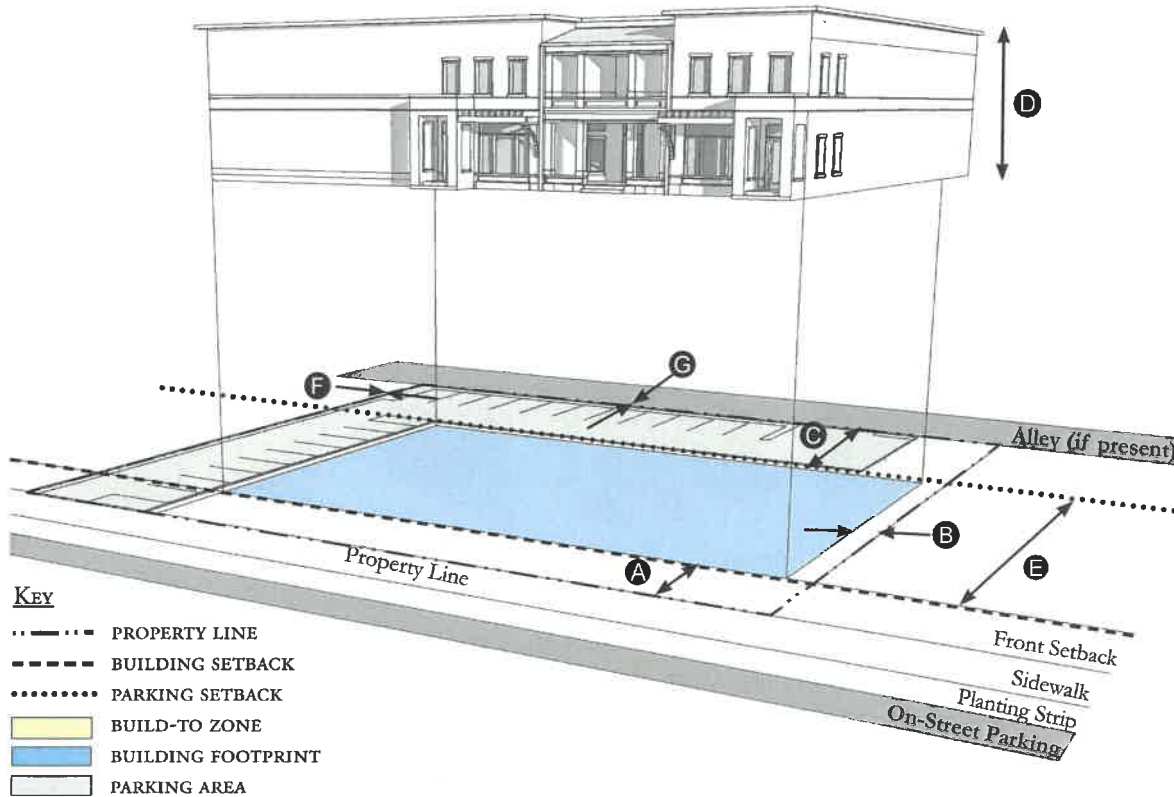

For permitted *Lot Size, Density, Building Coverage, and Open Space*, see Table **HS-5**.

Draft 04-13-2020

- PARKING AREA

Building Placement, see 12.1.04.6

Frontage	Not Required	
Front Setback †	20' min.	A
Side at Street Setback	5' min.	
Side at Property Line Setback ¹	5' min.	B
Rear Yard Setback	10' min./5' min. with alley	C

Height, see 12.1.04.2

Ceiling at Ground Level	Not applicable	
Building Height	Refer to Table HS-5	D

Parking Placement, see 12.1.04.6

Front Setback	30' min.	E
Side at Street Setback	5' min.	
Side at Property Line	5' min.	F
Rear Setback	5' min./0' min. with alley	G

Parking shall not be located between the building and the street.

Permitted Subdistricts, see 12.4.02

Railroad Corridor

Description

An Industrial Building will vary in scale depending on its intended use. Some commercial uses may be permitted, but its primary focus is industrial. Parking and loading shall be accommodated in Alleys or Secondary Streets whenever possible.

Notes

^{1 2} Section 12.1.04.15 Building Transitions applies when the rear or side of a property directly abuts a residential subdistrict or an existing single family dwelling.

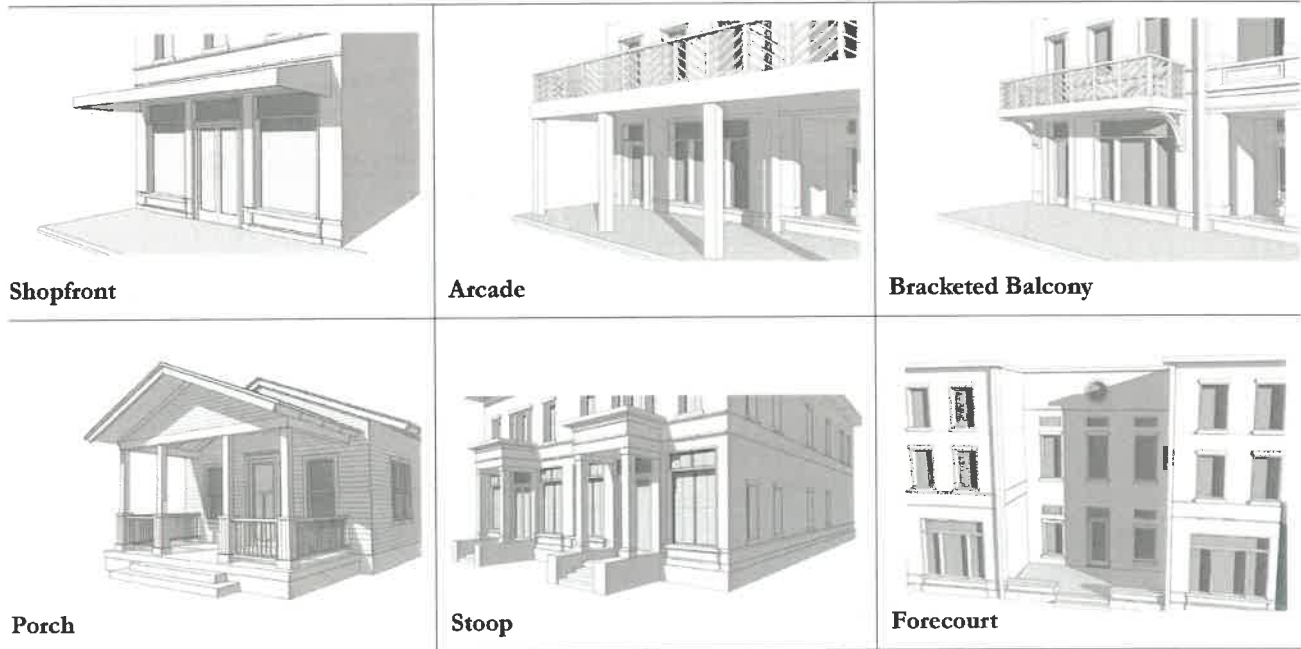

For permitted *Lot Size, Density, Building Coverage, and Open Space*, see Table OPC-5.

Building Type & Frontage Type Standards

12.5.05

Figures HS-5.14 - Frontage Types Matrix

- Frontage Types.** Using one or more of the permitted frontage types indicated in Table HS-5.15 is required within the Core, General and Corridor Subdistricts. Standards for Frontages are found in Section 12.1.05. Frontage Types are encouraged in the Multifamily, Mobile Home, and Detached Subdistrict, but are not required.

Table HS-5.15 - Permitted Frontage Types Matrix

Subdistrict	Shopfront	Arcade	Bracketed Balcony	Porch	Stoop	Forecourt
Core	P	P	P	P	P	P
General	P	P	P	P	P	P
Corridor	P	P	P	P	P	P
Railroad Corridor	P	P	P	P	P	P
Multifamily	-	-	-	-	-	-
Mobile Home	-	-	-	-	-	-
Detached	-	-	-	-	-	-

Primary Streets shall include the required Principal Entrance & Frontage Type.

Section 12.5.06. Street Standards.

1. **Applicability.** Street Standards that apply in all Redevelopment Zoning Districts are provided in Section 12.1.06. The additional street standards which apply in the Hobe Sound Redevelopment Zoning District are specified in this section.
2. **Street Regulating Plan.** A Street Regulating Plan is provided in Figure **HS-3**, Section 12.5.02. That Regulating Plan identifies the following features:
 - a. **Primary Streets** allow movement through as well as within the Hobe Sound Redevelopment Zoning District.
 - b. **Secondary Streets** are local streets that supplement the primary streets to provide an interconnected street network that serves users of all ages and abilities and that fully integrates residential neighborhoods with shopping, employment, and civic features. The secondary street network is priority for street improvements within the neighborhood which should include sidewalks and landscape improvements.
 - c. **Recommended Future Streets** would become additional streets to complete a highly interconnected street network.
 - d. **Recommended Future Alleys** are not required but are strongly encouraged within the blocks created by the construction of proposed streets. Alleys may be designed and constructed as the alley type in Section 12.1.06.
3. **Future Streets.**
 - a. **Street Location.** The schematic location of proposed streets is shown on the Street Regulating Plan. The exact location may be adjusted during the development review process provided the new location meets these requirements:
 - i. The adjusted location does not reduce the level of connectivity with surrounding streets, both existing and proposed.
 - ii. The adjusted location does not reduce the level of street connectivity within the site or substantially increase the average block size.
 - iii. The adjusted location does not diminish or eliminate any proposed civic space, or civic building shown on the Regulating Plan.
 - iv. The adjusted location maintains or enhances pedestrian convenience and safety and does not create any traffic hazards.
 - b. **Street Types.** Proposed streets may be designed and constructed as any one of the following street types below defined Section 12.1.06.
 - i. Local Street 1
 - ii. Local Street 2
 - iii. Local Street 3
 - iv. Local Street with Shared Use Path
 - v. Neighborhood Street 1
 - vi. Neighborhood Street 2
 - vii. Yield Street

Street Standards

12.5.06

4. **Improvements To Existing Streets.** The planting of new shade trees shall be required for project approval and shall be coordinated with existing or future CRA and County streetscape improvements. As provided in Section 12.1.06, the County Engineer may allow deviations from these minimum standards when necessary due to the location of existing buildings, constrained right-of-way, or to meet other goals for the particular street section.
 - a. **A-1-A/Dixie Highway.** Dixie Highway in Hobe Sound is a candidate road for a Complete Street intervention. A-1-A/Dixie Highway shall include the planting of trees with a minimum height of 12 feet, a four-foot clear trunk, and three-inch diameter at breast height (dbh) at the time of planting, planted at a maximum of 30-foot intervals. If palms are used, each palm must have a minimum 12-foot clear trunk planted at a maximum of 15-foot intervals. Every 200 feet shall be complemented with a bench and a garbage container set on a solid surface and accessible to the sidewalk. The landscape islands shall be sized appropriately to the maximum mature size of the tree.
 - b. **Bridge Road.** Bridge Road is a candidate road for a Complete Street intervention. Bridge Road shall include the planting of trees with a minimum height of 12 feet, a four-foot clear trunk, and three-inch diameter at breast height (dbh) at the time of planting, planted at a maximum of 30-foot intervals. If palms are used, each palm must have a minimum 12-foot clear trunk planted at a maximum of 15-foot intervals. Every 200 feet shall be complemented with a bench and a garbage container set on a solid surface and accessible to the sidewalk. The landscape islands shall be sized appropriately to the maximum mature size of the tree.
 - c. **US1/SE Federal Highway.** This corridor has been given a high priority to become a Complete Street and a Safe Route to School with landscaping that requires close coordination, planning, and investment among Martin County Public Works, the Community Redevelopment Agency, the Martin Metropolitan Planning Organization, and the Florida Department of Transportation.

**Section 12.5.07. Parking Standards.**

1. **Applicability.** Parking Standards found in Sections 4.621 through 4.628, Div. 14, Article 4, are modified for all Redevelopment Zoning Districts in Parking Standards Section 12.1.07. Those modified Parking Standards apply in the Hobe Sound Redevelopment Zoning District except as specified otherwise in this section.
2. **Parking Rates.** Refer to Section 12.1.07 for parking rates applicable to Redevelopment Zoning Districts.
3. **Special Parking Alternatives for Redevelopment Centers (SPARC) program.** The SPARC program described in Section 12.1.07 is authorized within the Hobe Sound CRA.
4. **Screening of Parking from Residential Uses.** There shall be an alley between parking areas and adjacent residential uses. Where an alley is not possible, there shall be a visual barrier between parking areas and residential uses. Refer to Landscaping Standards Section 12.3.09 Vehicular Use Areas.
5. **Parking Structures.** Whenever a parking structure or surface parking provided beneath a building is located on a Primary Street, as identified on the Street Regulating Plan, Section 12.3.02, ground level commercial space shall be provided for a depth of no less than 20 feet measured from the front of the building.
6. **Distributing Parking.** Where more than 200 parking spaces are provided on-site, such parking shall be distributed such that no more than 50 percent of the spaces are grouped in a single area of the parcel. Methods of distributing parking include locating parking adjacent to the rear or sides of a building or by physically separating parking areas with other buildings or landscaped areas.
7. **Shared Parking Lot.**
 - a. Shared parking lots must be located within 500 feet of each use. These lots may be separated from the use(s) by a street, easement, or other right-of-way.
 - b. In order to meet the parking requirements, parking shared by different uses must be supported by evidence that peak parking demands of each use occur at different times of the day or days of the week. Section 4.626.B.2, Div. 14, Article 4, Shared Parking provides the methodology to support shared parking. Mixed-use developments do not have to meet this standard.
8. **Approved parking surfaces.**
 - a. Residential-only development shall provide parking on a paved surface.
 - b. Nonresidential development shall provide the required number of parking spaces on paved surfaces; however, any overflow parking may be provided on a stabilized grassed surface. Accessible spaces and access aisles shall meet the requirements set forth in the Americans with Disabilities Act.
 - c. Existing parking surfaces shall comply with the requirements of this sub-section, no later than five years from the effective date of this Division.
9. For residential garages in the Hobe Sound Redevelopment Zoning District, Section 12.1.07.8 and Figure 12-9.01-Single Family Dwelling-Front Loaded are modified as follows. The minimum Setback from the Front Façade for garages shall be 5' for garage doors measuring up to 16' in width and shall be 10' for garage doors exceeding 16' in width.

Parking Standards

12.5.07

10. **Off-street loading.** A minimum of one loading space shall be provided for all buildings that receive or ship goods via semi-trailer or trucks larger than 20 feet in length. The space shall not obstruct or otherwise hinder the movement of vehicles and pedestrians. Access for off-street loading is preferred along alleys when present. Small Sites located within the Core subdistrict are exempted from providing off-street loading spaces.

Section 12.5.08. Stormwater Standards.

1. Stormwater management standards are provided in Sections 4.381 through 4.390, Div. 9, Article 4 and apply in Redevelopment Zoning Districts except as modified in Section 12.1.08.

Landscape Standards

12.5.09

Section 12.5.09. Landscape Standards.

1. Table **HS-9** identifies which of the landscaping, buffering, and tree protection standards in Div. 15, Article 4 apply in the Hobe Sound Redevelopment Zoning District and which standards are modified, replaced, or do not apply in this Redevelopment Zoning District.

Table HS-9 - Landscaping, Buffering, and Tree Protection Standards

Div. 15, Article 4		In Hobe Sound CRA
General Requirements		
4.661.A	Purpose and intent	Applies as written
4.661.B	Applicability	Does not apply
4.661.C	Glossary	Applies as written
Application Requirement		
4.662.A	Landscape Plan	Modified by 12.5.09.2
4.662.B	Irrigation Plans	Applies as written
Landscape Design Standards		
4.663.A	General requirements	
A.1	Required landscape area	Replaced by 12.5.09.3
A.2	Landscape area credits	Applies as written
A.3	Required tree planting	Modified by 12.5.09.4
A.4-5	Vehicular use areas	Modified by 12.5.09.6
A.6	Service areas	Modified by 12.5.09.7
A.7	Commercial buildings	Does not apply
4.663.B	Buffer-yard requirements	Does not apply
4.663.B.5	Buffer-yard requirements Adjoining Conservation Land	Applies as written
4.663.C	Add't req. for landscaping	Does not apply
4.663.D	Water efficient landscaping	Applies as written
4.663.E	Preserve area interface	Applies as written
Landscape Material Standards		
4.664	(All Subsections)	Applies as written
Maintenance of Required Landscaping		
4.665	(All Subsections)	Applies as written
Tree Protection		
4.666	(All Subsections)	Applies as written
Alternative Compliance		
4.667	(All Subsections)	Replaced by 12.1.13.3
Certificate of Compliance		
4.668	(All Subsections)	Applies as written

2. **Single family dwellings or duplexes.** Single Family Dwellings and duplexes are not required to submit a Landscape Plan or comply with Vehicular Use Areas. Required tree planting and landscape area do apply to single family dwellings and duplexes.
3. **Required landscape area.**
 - a. Table **HS-10** indicates the minimum percentage of the total developed area that must be landscaped.
 - b. Landscaping shall be permitted in easements only with the written permission of the easement holder. A written agreement shall specify the party responsible for restoring disturbed landscape areas, shall be submitted to the county in a form acceptable to the County Attorney, and shall be recorded in the public records.
 - c. Exposed dirt yards are prohibited.
4. **Required tree planting.**
 - a. Table **HS-10** indicates the minimum number of trees that must be planted.
 - b. Tree species and size.
 - i. Palm trees shall have a minimum height of 12 feet at the time of planting.
 - ii. Fruit trees shall have a minimum height of five feet at the time of planting.
 - iii. Other required trees shall have a minimum height of 12 feet, with a four-foot clear trunk, and two-inch diameter at breast height (dbh), at the time of planting.
 - c. Trees planted in adjacent right-of-way in accordance with Section 12.5.06 or in other nearby public space shall be credited towards meeting the number of trees required by Table **HS-11**. Any private use of the public right-of-way requires the approval of the County Engineer, a right-of-way use permit, a construction agreement, and an indemnification agreement.
 - d. Trees planted in Vehicular Use Areas shall be credited towards meeting the number of trees required by Table **HS-10**.
 - e. FPL's *Right Tree/Right Place Guidelines* shall be considered when trees are planted near utilities.

Table HS-10 - Required Landscape Area & Tree Planting

Subdistrict	Minimum Percentage	One Tree for this Amount of Total Site Area
Core	0%	1,500 sf
General	10%	1,500 sf
Corridor	10%	1,500 sf
Railroad Corridor	10%	1,500 sf
Mobile Home	Not required	3,000 sf
Multifamily	Not required	3,000 sf
Detached	Not required	3,000 sf

Landscape Standards

12.5.09

Table HS-11 - Landscape Plan Application Requirements

Div. 15, Article 4		In Hobe Sound CRA	
		A	B
1	Property boundaries	Yes	Yes
2	Land use features	Yes	Yes ¹
3	Structures & paving	Yes	Yes ¹
4	Utilities	Yes	Yes
5	Vehicular use areas	Yes	Yes
6	Water bodies	Yes	Yes
7	Tree survey	Yes	Yes
8	Installation methods	Yes	Yes
9	Development areas	Yes	-
10	Ditches & swales	Yes	Yes
11	Tabular data	Yes	-

¹ On-site features only

5. **Landscape Plan.** Development applications shall include a landscape plan prepared by a qualified professional that provides the location and type of existing and proposed features that are identified in Table **HS-11**, which are summarized from the detailed requirements in Section 4.662.A, Div. 15, Article 4.
 - a. **Column A** requirements apply to an application for a final site plan.
 - b. **Column B** requirements apply to an application for a building permit for a Small Site which is defined as the construction or expansion of a principal building or accessory structure on a lawfully established lot or adjacent lots, provided the parcel being developed is less than one-half acre.
 - c. **Column B** requirements also apply to an application for a substantial improvement or substantial renovation of a building exterior on any lot regulated by Article 12 as those terms are defined in Section 4.871.B, Div. 20, Article 4.

6. **Vehicular Use Areas.**
 - a. **Perimeter landscaping.** Landscaping shall be provided along the perimeter of vehicular use areas in accordance with the following standards:
 - i. The perimeter of a vehicular use area shall be planted with trees at 30-foot intervals. The trees shall be a minimum of 12 feet in height, with a four-foot clear trunk, and a three-inch dbh at the time of planting.
 - ii. If a vehicular use area abuts a residential property (existing residential use or Mobile Home, Multifamily, and/or Detached Subdistrict) that is not a part of the subject development, a landscaped buffer, eight-feet wide shall be provided. Trees with a minimum height of 16 feet, with a four-foot clear trunk, and four-inch dbh shall be planted at a maximum of 30-foot intervals. If palms are used, each palm must have a 12-foot minimum clear trunk and be planted at a maximum of 15-foot intervals.

- iii.** A wall, fence, hedge or other durable landscape barrier shall be provided around all vehicular use areas. Between the vehicular use area and a road right-of-way, the wall, fence, or hedge shall not exceed four feet in height. For the remainder of the lot, it shall not exceed six feet in height. Walls and landscaping around vehicular use areas shall provide pedestrian access every 50 linear feet. No wall, fence, or hedge is required along the side of a parking area that abuts another parking area.
 - b. Interior landscaping.** If a vehicular use area is larger than 15,000 square feet, landscaping shall be provided within its interior in accordance with Section 4.663.A.4, Div. 15, Article 4, except that these interior landscape areas may also be used as stormwater management and conveyance facilities. If a vehicular use area is equal to or smaller than 15,000 square feet, no interior landscaping, terminal islands, interior medians, or interior islands are required.
 - 7. Service areas.** Service function areas including dumpsters, shall be screened in accordance with Section 4.663.A.6, Div. 15, Article 4, except that landscaping shall not be required around the perimeter of the screen, and an enclosure shall be a finished masonry wall. All nonconforming enclosures shall be brought into compliance no later than two years from the effective date of this Division.

Wall & Fence Standards

12.5.10

Section 12.5.10. Wall & Fence Standards.

1. Walls and fences must comply with the Wall and Fence Standards established for all Redevelopment Zoning Districts in Section 12.1.10.

Section 12.5.11. Sign Standards.

1. Signs must comply with the Sign Standards established for all Redevelopment Zoning Districts in Section 12.1.11 except where modified below.
2. **Wall signs.** Table **HS-12** supersedes the signage-area table in Section 4.700, Div. 16, Article 4.
3. **Banner signs.** Banner signs may be erected for a temporary period, not to exceed 90 days. If hung over a right-of-way, they must comply with all applicable FDOT and Martin County regulations.
4. **Freestanding signs.** One freestanding sign is permitted per building or each 200 lineal feet of property frontage. The freestanding sign shall be a pedestal sign with a maximum square footage of 16 square feet per sign face.
5. **Murals.** Are permitted and defined in Art. 4, Div. 16.
6. **Types of signs permitted.** The list of permitted signs in Section 4.703, Div. 16, Article 4 is adjusted by adding the following type of sign:
 - a. **Sandwich or sidewalk signs** as defined in Section 4.693, Div. 16, Article 4, are permitted in the Core, Corridor and General Subdistricts, provided the signs do not exceed 6 square feet per face, do not unreasonably obstruct pedestrian or vehicular movement, and are moved off sidewalks or other public property by 9:00 PM daily.
7. **Lettering and logo size.** Table **HS-12** provides the maximum height of lettering and logos. Section 4.699, Div. 16, Article 4 establishes how the height of irregularly shaped features shall be measured.

Table HS-12 - Sign Size Limitations

Subdistrict	Percent of Building Face Area Allowable for Wall Signs	Maximum Size Per Wall Sign	Maximum Height of Lettering and Logos for All Signs
Core	12%	12-sf	18 inches
General	6%	6%	10 inches
Corridor	12%	32-sf	24 inches
Railroad Corridor	6%	6%	10 inches
Multifamily	-	-	-
Mobile Home	-	-	-
Detached	-	-	-

Architectural Standards

12.5.12

Section 12.5.12. Architectural Standards. The following Architectural Standards are applicable within Hobe Sound Redevelopment Zoning District

1. **Accessory Structures.** Materials for accessory structures shall be or have the appearance of materials from the primary structure.
2. **Historic Structures.** Structures identified as historically and architecturally contributing shall be candidates for historic protection as set forth in Div.13, Article 4.
3. **Heat Island Effect.** In order to reduce urban heat islands for both roofed and non-roofed areas, the following recommendations are provided for building and site design:
 - a. Non-roofed: Provide shade on at least 30% of non roof impervious surface on the site, including parking lots, walkways, plazas, etc.; or use light-colored/high-albedo materials (reflectance of at least .3) for 30% of the site's non-roofed impervious surfaces; or, use open grid pavement system.
 - b. Roofed: Use Energy Star roof-compliant, high-reflectance and high emissivity roofing or install a "green" (vegetated) roof for at least 50% of the roof area.
 - c. Parking Garage Roofs: Provide shade on at least 30% of any exposed parking on the roof.
4. All new development in the Hobe Sound CRA shall adhere to one of the four architectural styles described in this section. Any substantial improvement of an existing structure or substantial renovation of a building exterior shall be consistent with the existing architectural style of the building, or one of the four architectural styles in this section.
 - a. General characteristics of Florida Vernacular Architectural Style.
 - i. Roofs of the primary structure are typically gabled with a slope between 6:12 and 12:12.
 - ii. Roofing materials consist of metal, standing seam or "V" crimp, asphaltic shingles or wooden shakes.
 - iii. Roof overhangs are typically deep, between two feet and four feet, and have exposed rafter tails. Fasciae on the gabled ends are deeper than those exposed along the running eave edge.
 - iv. When attic spaces are desired, they are vented at the gable ends underneath the ridge and/or where the rafters meet the wall along the running eave edge.
 - v. Generally, the massing of Florida Wood Vernacular buildings is vertically proportioned and two stories. Where possible, roof rafters should be exposed to the interior to allow for greater interior volume on the second floor.
 - vi. The exterior finishes are almost always horizontal wood lap siding. The siding should have between four inches to six inches exposed to the weather and is terminated with vertical corner boards at the building's edges. Other siding materials such as wood-plank are acceptable.
 - vii. Doors and windows are vertically proportioned with wooden surrounds and sills. Horizontally-proportioned openings are made of a grouping of vertical windows. Windows are usually double hung with no light divisions in the top

or bottom sash.

- viii. Porches are ideal and in many cases wrap around the front façade and continue at some length along the side façade. The porch roof is supported by posts which are placed to create vertical or square openings between them. Porches in this genre are typically quite deep and occupy a large percentage, if not all, of the front, around floor elevation. The porch roof may be of a different slope than that of the primary building, however detailing and overhangs shall be consistent.
- ix. The entire Florida Wood Vernacular building sits on a continuous, typically skirted, base. The base actually conceals a crawl space to allow for access and ventilation to the underside of the building.
- x. Other architectural styles which could be considered in this genre include Victorian, “Carpenter Gothic,” Cracker, and Shingle styles.

b. General characteristics of Mediterranean Revival Architectural Style.

- i. Roofs of the primary structure can be hipped, gabled or a combination of both. Roof slopes are somewhat shallow and are generally sloped between 3:12 and 6:12.
- ii. Roofing materials consist of barrel tile, Spanish “S” tile, or flat concrete tile.
- iii. Roof overhangs can vary from being deep to having no overhang at all. When deep overhangs exist, they are typically supported by sizable wooden brackets. Roofs that do not overhang are usually treated with a molded cornice.
- iv. The Mediterranean Revival House is typified as ornate, asymmetrical and eclectic. It is not uncommon to have multiple levels, multiple interior and exterior spaces, and even multiple buildings. Building massing tends to irregular with a variety of shapes and heights; however, the appearance of solidity and permanence is critical.
- v. Exterior finishes are almost exclusively stucco and colored with great richness, variety and multiple methods of application.
- vi. Brackets, balconies, porches, shutters, and other elements are usually wood or iron.
- vii. The prolific use of arched openings or windows is also a prominent characteristic.
- viii. Windows and doors are of vertical and/or square proportions with the occasional round, oval or ornamental windows.
- ix. Openings for doors and windows are deep and cast deep shadows as well as give the impression of thickness and solidity.
- x. Windows usually have divided lights and are commonly double-hung, casement, or jalousie. Window and door surrounds, when they exist, are made of stucco or stone.
- xi. The attached porch is a common element, as are balconies and courtyards.

Architectural Standards

12.5.12

Loggias (porches not attached but located within the volume of the building) are very common and may even serve as outside circulation between rooms.

- xii. Columns, posts, wooden and masonry balustrades, brackets and various ornamentation are all very common elements within this genre. Columns may be rounded, twisted, or detailed as squared masonry piers. Although all of these elements are compatible, it is the delicate composition of a few of them that creates the successful Mediterranean Revival house.
 - xiii. Variations of this style include Mission or Santa Fe.
- c. General characteristics of Anglo Caribbean Architectural Style.
- i. The Anglo-Caribbean house is a hybrid of Wood Vernacular and Spanish or Mediterranean detailing and materials.
 - ii. Roofs of the Anglo Caribbean house are made of wood or asphalt shingles, metal or slate. Roof slopes are between 4:12 and 8:12. and are typically hip roofs.
 - iii. Roof overhangs are typically quite deep with exposed rafter tails and thin eaves. Often the overhang will kick out from the beam at a shallower roof slope to give the appearance of a canted roof. This allows for a steeper roof slope and a deeper overhang without covering too much of the elevation with roof. Brackets can be used at the overhang but are not used as extensively as with the Florida Bungalow house.
 - iv. Masonry or stone is used on the ground floor while wood framing and siding are used on the second floor. The façade compositions are typically symmetrical with long covered balconies and porches. Ground level masonry columns or piers support second level wooden posts.
 - v. Exterior finishes are almost exclusively lower level stucco and upper level siding. Colors tend to be subtle with an emphasis on natural materials and earth tones. There is extensive use of balconies supported by brackets, two story porches, Louvered openings and shutters. Detailing and ornamentation is very simple in its usage.
 - vi. Windows and doors are of vertical and/or square proportions. Openings for doors and windows are deep and cast deep shadows as well as give the impression of thickness and solidity. Windows can have divided lights, single lights and may borrow light configurations from the Florida Bungalow or Craftsman languages. Windows are most commonly double hung or casement. Window and door surrounds, when they exist, are made of stucco, stone or wood.
 - vii. The front porch is a common element and typically supports a second story balcony and is thereby under the primary roof. Loggias, like in Mediterranean Revival, can be found on either the first or second story. Porches are augmented by second floor balconies.
 - viii. Columns, posts, wooden and masonry balustrades, and brackets are all very

common elements within this architecture. Columns are either smooth and round, or can be detailed as square masonry piers. The most prominent feature of the Anglo-Caribbean house is the clear distinction between the first and second floors; between the massive and the delicate, between masonry and wood.

- d. General characteristics of Florida Bungalow Architectural Style.
- i. The Florida Bungalow house, like the Mediterranean Revival, is eclectic in its origins and detailing. Generally, the house is one or one-and-a-half stories tall and maintains a low profile. It is typically moderate in size yet delivers a prominent street presence with its porches and detailing.
 - ii. Roofs of the Bungalow are predominantly gabled with shallow slopes of 3:12 to 6:12. Roofing materials are mostly asphalt shingles; although metal is appropriate.
 - iii. Deep overhangs are characteristic as well as exposed rafter tails and support joinery. Typically at a gable's end there are substantial wooden brackets.
 - iv. Exterior finishes shall be primarily wood and masonry. Although stucco is a common wall finish, variations of wood siding and shingles give the bungalow its true craftsman aesthetic. Masonry and stone are used extensively for a building's base, steps, and the pedestal for porch columns. Wooden brackets, railings, balustrades, and tapered columns are very common elements.
 - v. Windows and doors are square or vertically proportioned and are almost exclusively double-hung. In character with the Craftsman or Prairie style, windows will typically have multiple vertically divided lights. Many times the top sash alone will be divided with the bottom sash remaining whole. Window and door surrounds are wood and can be quite elaborate.
 - vi. Front porches are a very important element in the Bungalow composition. In addition to their usefulness as an important neighborhood device, the front porch provides an opportunity to articulate and ornament an otherwise straightforward box. The porch, when it is the full width of the house, can share the roof of the primary structure. When under the primary roof, typically shed or "sleepy" dormers are provided to add light into the roof space. This condition occurs when the ridge of the roof is running parallel to the street.
 - vii. The Florida bungalow house sits on a continuous stone or masonry base which becomes an integral and defining element throughout the façades. Rarely are rounded columns used. Tapered wooden posts or masonry piers are the most common vertical support members.
 - viii. Variations of this style include Prairie, Craftsman, or "Stick" style.

3/16/2020

From; Franklin J Carofano 772-546-2063 Commercial property owner of lots 31,32,33 Pettway Park Sub-division zoned Limited Commercial in the state comprehensive plan and Local zoning. I

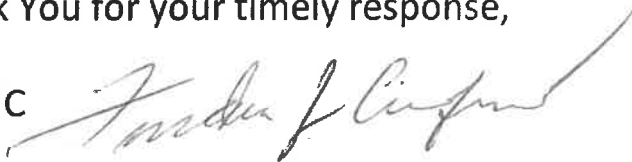

Purchased this commercial property more than thirty years ago and have paid property taxes in excess to \$ 100,000.00 to date because Of the specific permitted uses in the Limited Commercial Zone.

I attended the proposed CRA meeting in Hobe Sound on 3/11/2020 where Dana Little (Urban Design Director) stated many times that the Goal of the proposed CRA plan was not take any property owners rights away. However, after reviewing the proposed permitted uses this proposed plan actually has down zoned the Limited Commercial permitted uses for my Property today by more than Ten (LC) currently permitted uses (ie. Funeral homes, storage facilities, veterinary services, plant nurseries & landscape svc, parking lots & Garages, etc. etc.). The Plan alludes to a section that allows the Growth Management Dir. To allow more permitted uses at the GM dir. discretion. That may be true however, This plan must be very specific and list in detail all permitted uses in the current LC Today

I would like to bring to your attention that the three lots lot 31,32,33 are small lots (each lot is less than one third acre each) and have been lot of record for more fifty years. The property has 384 frontage feet on Frderal Hwy (Rt 1)a road that has heavy traffic which will only increase in the future, unlike the residential lots at the rear of this sub-division. Kindly contact me for a discussion and meeting ASAP on this very important and timely subject.

Thank You for your timely response,

F J C

Date: Wednesday, April 1, 2020 9:03:56 PM
Attachments: [Hobe Sound Village - Final Site Plan 10-31-16.pdf](#)

Hello Dana,

I hope everyone is well. I have been reviewing the draft of the Hobe Sound regulating plan that is on tomorrow night's LPA agenda and while most of it looks great we have a number of concerns related to our clients 13-15 acres on the west side of U.S.1 and just south of Bridge Road (submitted site plan attached). It is still an active application in the County, although on hold based on significant storm water issues from Banner Lake. The future streets shown on the regulating plan and defined on page 27 do not reflect the desire of the Banner Lake residents who we met with three times and does not reflect the storm water and upland preserve issues found on the site. The NAC reviewed this plan and I believe approved it prior to the storm water issue.

Meeting the standards described in the Future Streets requirements could prove very difficult and clearly don't reflect this site plan which is showing connectivity on the north and onto U.S. 1 from the Pine School. Let's discuss tomorrow if that's possible. Thanks.

Best Regards,

Michael Houston, ASLA

Good afternoon Dana,

On the attached slide from your presentation, the CRA Center subdistrict includes Core and General, while the CRA Neighborhood includes Multifamily Homes and Detached Homes. I noticed on the FLUM that Zeus Park has been designated CRA Neighborhood. This does not make sense to me because there are areas within Zeus Park that will be in the General subdistrict. This is inconsistent with your slide. Can you explain the disconnect or am I simply misreading it?

The CRA General Subdistrict (zoning) is permitted within the CRA Center and CRA Neighborhood FLU. We are trying to balance what currently is allowed within the existing zoning and FLU districts and overlays, in doing so we have some cases where the General

Subdistrict is applied in both the Center & Neighborhood FLU.

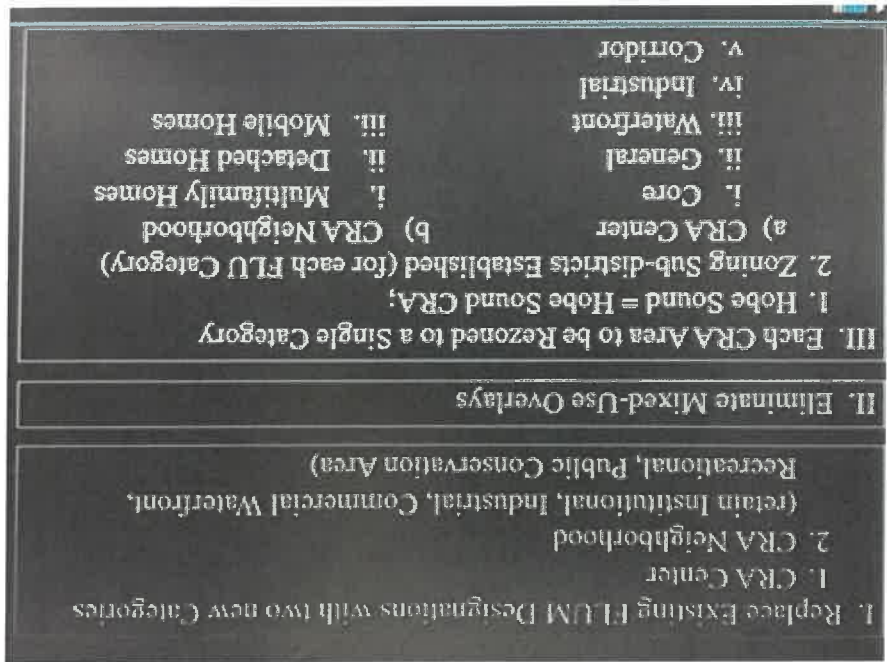

Why is urban farming limited to the Railroad Corridor subdistrict?

Urban farming is a new use group that we have recommended. Its includes two new uses of Agri-hood and Urban Agriculture. These uses and Farmer's Market are not currently permitted within Hobe Sound CRA (there was some community discussion about allowing this use within the CRA). We felt that the new Railroad Corridor Subdistrict would be the most appropriate place to allow this use (versus in the neighborhoods or Center).

Lastly, I noticed some parcels have been changed from General to Multi-family in Zeus Park. What was the rationale for this? Did the parcel owners request the change?

The General subdistrict would have expanded the permitted uses from what is currently permitted today. Many of those parcels currently have an RM-5 zoning category which allows multi-family. Again, this was a decision based upon what is currently allowed and not impeding upon anyone's rights.

All the best,

Brennan Keeler

RE: Certification of Property Owner Notification

Dear Ms. van Vonno,

I certify that letters of notification to the owners of property and the surrounding property owners, as required by the Martin County Comprehensive Growth Management Plans, and the Martin County Land Development Regulations, for the following applications were mailed on February 28, 2020.

CPA 19-25 Hobe Sound FLUM, Hobe Sound CRA rezoning.

The notification letters contained the meeting notice information for the April 2, 2020 Local Planning Agency public hearing and the May 5, 2020 Board of County Commissioners public hearing.

Sincerely,

Susan Kofes

Manager, Office of Community Development

RE: Notice of Public Hearings for CPA 19-25, the proposed amendment of the Future Land Use Map and Zoning Atlas for the Hobe Sound Community Redevelopment Area (CRA); and adoption of Article 12, Division 5, Hobe Sound Community Redevelopment Code, Land Development Regulations (LDR).

Dear Property Owner:

You are receiving this notice because you are either the owner of property within the Hobe Sound Community Redevelopment Area or the owner of property within 1000 feet of the CRA boundary.

Please be advised that most land within the Hobe Sound CRA is the subject of an application to change the future land use designations:

From: Low Density Residential, Medium Density Residential, Residential Estate Density (2 units per acre), Commercial Office/Residential, Limited Commercial, General Commercial, General Institutional, Mobile Home, or Hobe Sound Mixed-Use Overlay.

To: CRA Center, CRA Neighborhood, Public Conservation, Recreational or General Institutional future land use designations.

And to change the zoning districts:

From: R-1 Single-Family Residential, R1A Single-Family Residential, R-2 Single-Family Residential, R-2A Two-Family Residential, R-2B Single-Family Residential, R-3 Multi-Family Residential, R-3A Liberal Multiple-Family, RS-5 Low Density Residential, R-5 Multi-Family Medium, RM-6 Low Density Residential District, RS-6 Medium Density Residential, RS-8 Medium Density Residential, RM-8 Medium Density Residential, HB-1 Limited Business, B-1 Business, B-2 Business-Wholesale Business, COR-1 Commercial Office/Residential, COR-2 Commercial Office/Residential, LC Limited Commercial, CC Community Commercial, GC General Commercial, RT Mobile Home Subdivision, TP Mobile Home Park, PS Public Servicing, A3 Conservation and the Bridge Road and A-1-A Dixie Highway Zoning Overlays.

To: Hobe Sound Redevelopment, PS-1 Public Service 1, PS-2 Public Service 2, PR Public Recreation, PC Public Conservation or the most appropriate zoning districts.

And to assign zoning subdistricts pursuant to the proposed Regulating Plan, Article 12, Division 5, LDR. It is proposed that the CRA Mixed-Use Future Land Use Overlays and the CRA Zoning Overlay Districts will be eliminated. Institutional future land use designations would be retained. Planned Unit Development and Institutional zoning districts would also be retained.

No changes in the future land use or zoning designations are proposed for properties outside of the Hobe Sound CRA boundary. Owners of properties outside of the Hobe Sound CRA boundary are being notified of the proposed changes as required by the Martin County Comprehensive Growth Management Plan and the Land Development Regulations.

Please see the enclosed map and "Frequently asked Questions" for more information.

Public Hearings for adoption of CPA 19-25, the proposed amendment of the Future Land Use Map, and Zoning Atlas and amendments to the Land Development Regulations for the Hobe Sound CRA are scheduled for:

Public Hearing: Local Planning Agency

Topic: Future Land Use Map, Zoning Atlas and Land Development Regulations
Date: Thursday, April 2, 2020
Time: 7:00 PM, or as soon thereafter as the items can be heard.
Location: Martin County Administrative Center, 2401 S.E. Monterey Road, Stuart, FL

Public Hearing: Board of County Commissioners

Topic: Future Land Use Map and Land Development Regulations
Date: Tuesday, May 5, 2020
Time: 9:00 AM, or as soon thereafter as the items can be heard.
Location: Martin County Administrative Center, 2401 S.E. Monterey Road, Stuart, FL

All interested persons are invited to attend and be heard. Persons with disabilities who need an accommodation to participate in this proceeding are entitled, at no cost, to the provision of certain assistance. This does not include transportation to and from the meeting. Please contact the Office of the County Administrator at (772) 221-2360, or in writing to 2401 S.E. Monterey Road, Stuart, FL 34996, no later than three days before the hearing date. Persons using a TDD device, please call 711 Florida Relay Services.

When attending a public hearing, a member of the public may speak during the public comment portion of the public hearing. A person may also participate in quasi-judicial matters as an Intervenor. An Intervenor may ask questions of the staff, applicant and give testimony on subject of the public hearing. To be an Intervenor, a person must qualify to receive mailed notice of the subject application in accordance with Section 10.6.E., Land Development Regulations, Martin County Code. In addition, an Intervenor must file a form of intent with the County Administrator not less than 7 business days prior to the meeting. No fee will be assessed on Intervenor. If the Intervenor is representing a group/association, he/she must file a letter on official letterhead signed by an authorized representative of the group/association, stating that he/she is authorized to speak for the group. Forms are available on the Martin County website www.martin.fl.us.

If any person decides to appeal any decision made with respect to any matter considered at the meetings or hearings of any board, committee, agency, council or advisory group, that person will need a record of the proceedings and, for such purpose, may need to insure that a verbatim record of the proceedings is made, which record should include the testimony and evidence upon which the appeal is to be based.

For more information, or to view the project file, contact Irene Szedlmayer, AICP, Senior Planner, Growth Management Department, at 772-288-5931 or by email at iszedlma@martin.fl.us. All written comments should be sent to Nickl van Vonno, Growth Management Director, (e-mail: nikkiv@martin.fl.us) or 2401 SE Monterey Road, Stuart, FL 34996. Copies of the item will be available from the Growth Management Department.

Sincerely,

Susan Kores, Manager
Office of Community Development
Attachments: Map
"Frequently asked Questions"

Frequently Asked Questions

1. What is a CRA?

A Community Redevelopment Area (CRA) is a special geographic area where the community has determined that redevelopment of both public and private facilities should occur according to a redevelopment plan. Hobe Sound is one of six communities in Martin County that carry the special designation of CRA. As development occurs, a portion of the additional tax increment collected by the County, based on the increased property valuation, is reinvested in the Hobe Sound CRA to promote economic growth, sustainable development and improved quality of life.

2. What is the Future Land Use Map?

The Future Land Use Map depicts the generally desired type of development in different locations in the County. The "underlying" future land use designations present in the Hobe Sound CRA are Low Density Residential, Medium Density Residential, Residential Estate Density 2UPA, Commercial Office/Residential, Limited Commercial, General Commercial, General Institutional, and Mobile Home.

3. What are the Mixed-Use Future Land Use Overlays?

The Mixed-Use Future Land Use Overlays allow, but do not require, a mix of residential and commercial uses in the same project. The mixed-use development option is in addition to the development permitted by the future land use designation. There is one Mixed-Use Future Land Use Overlay in the Hobe Sound CRA.

4. What is the Zoning Atlas?

While the future land use designations establish the general type of development allowed, such as residential or commercial, the zoning districts provide more detailed standards regarding permitted uses, such as detached single family dwelling or multi-family, and development standards, such as setbacks and building height. The Zoning Atlas is the map of the County's zoning districts.

5. What changes are proposed?

Future Land Use Map – The Hobe Sound Mixed-Use Future Land Use Overlay and most of the "underlying" future land use designations will be replaced by two new future land use designations called CRA Center and CRA Neighborhood. Some County owned land will be designated Public Conservation or General Institutional. The General Institutional and Recreation future land use designations will be retained.

Zoning Atlas - The twenty-five (25) "underlying" zoning districts, and the two (2) Hobe Sound Zoning Overlay Districts will be replaced with the Hobe Sound Redevelopment Zoning District, PS-1 Public Service 1, PS-2 Public Service 2, PR Public Recreation, PC Public Conservation or the most appropriate zoning districts.

6. What is the Process?

The Future Land Use Map is part of the County's Comprehensive Growth Management Plan and is one of the primary tools for managing land development. The Future Land Use designation of a parcel of land determines the general type of use allowed and the maximum level of density or intensity allowed (such as the number of residential units per acre). A change to the Future Land Use Map requires three public hearings as detailed below.

1. Local Planning Agency (which makes a recommendation to the Board of County Commissioners).
2. Board of County Commissioners (to determine whether the proposed amendment should be transmitted to the Florida Department of Economic Opportunity, the state land planning agency that oversees and coordinates comprehensive planning).
3. Board of County Commissioners (to determine whether the proposed amendment should be adopted).

7. How will the proposed amendments affect me if I own property in the Hobe Sound CRA?

The County and the Community Redevelopment Agency believe the current regulatory structure impedes realization of the vision for the Hobe Sound CRA contained in the Hobe Sound Redevelopment Plan and the County Comprehensive Growth Management Plan. The intent of the proposed amendments is not to substantially change the permitted uses or development standards applicable within the Hobe Sound CRA, though there will be some adjustments. The intent is to eliminate the difficulties caused by too many layers of regulations.

The proposed changes will permit development of a residential project, a commercial project, or a mixed-use project subject to the proposed development standards within the Hobe Sound CRA.

8. Are there other plan amendments for the CRA?

Yes. In 2017, the Board of County Commissioners initiated text amendments to the Comprehensive Growth Management Plan (CGMP) that will “strengthen Goals, Policies and Objectives that encourage in-fill development and redevelopment in the Community Redevelopment Areas (CRAs).” This amendment creates a new Chapter of the CGMP for the CRA areas. In addition, it addresses five CGMP policies that impact redevelopment: Design of Mixed-use Future Land Use Overlays; Mixed-use project versus mixed-use neighborhood; Density Transition; Upland Preservation and Shoreline Protection. These amendments also followed a public hearing schedule, have been adopted by the Martin County Board of County Commissioners and are now in effect.

9. How can I learn more about the proposed changes?

- a) **WATCH**, on MCTV or **ATTEND**, the presentation of the proposed changes made at these public meetings:
 - a. The January 15, 2020 meeting of the Hobe Sound Neighborhood Advisory Committee;
 - b. The March 11, 2020 meeting of the Hobe Sound Neighborhood Advisory Committee (not televised);
 - c. The March 23, 2020 meeting of the Community Redevelopment Agency;
 - d. The April 2, 2020 meeting of the Local Planning Agency;
 - e. The May 5, 2020 meeting of the Board of County Commissioners.
- b) **CALL or EMAIL** Irene Szedlmayer, Senior Planner, Growth Management Department at 772-288-5931 or iszedlma@martin.fl.us with your questions.
- c) **Go to the website** www.martin.fl.us/cra, click on Article 12.
