D. Completeness Sufficiency Review

Applications submitted for completeness/sufficiency review meetings held on Mondays, must be received by the Growth Management Department no later than 4 p.m. the previous Thursday or in the event of a holiday, 4 p.m. Wednesday. Applications received on Fridays will be scheduled for the following week.

E. Certification by Professionals

Section 10.5.F.6.h., Article 10, Development Review Procedures, Land Development Regulations (LDR), Martin County Code (MCC) provides the following:

When reviewing a development application that has been certified by a professional listed in F.S. § 403.0877, F.S., the County shall not request additional information from the applicant more than three times, unless the applicant waives the limitation in writing. If the applicant states in writing that the request for additional information is not authorized by ordinance, rule, statute, or other legal authority, the County, at the applicant's request, shall proceed to process the application for approval or denial. (125.022(1), Fla. Stat.)

This box must be checked if the applicant waives the limitations.

F. APPLICANT or AGENT CERTIFICATION

I have read this application, and to the extent that I participated in the application, I have answered each item fully and accurately.

PROJECT NARRATIVE
EXTRA SPACE STORAGE FACILITY
1990 N.W. FEDERAL HIGHWAY
STUART, FL 34994
PARCEL CONTROL #2937410080000004000
MARTIN COUNTY, FLORIDA 33166
October 31, 2024

The proposed project is to construct a 63,114 square foot, 2-story self-storage building on 109,424 square feet (2.51 acres) at 1990 N.W. Federal Highway, located in Unincorporated Martin County. The property is currently zoned GC - General Commercial with a General Commercial (GC) future land use designation. Self-storage facilities are a permitted use within the General Commercial zoning district.

The Applicant is proposing a site plan that converts the outdoor storage area into an enclosed 2-story, self-storage facility. The site plan provides for .56 acres (22%) of open space, which exceeds the .50 acre (20%) requirement. Also, Per Code, the proposed 63,114 SF use would require 43 parking spaces to be provided. However based on the ratio of parking spaces for the existing storage facilities, we are providing a compatible number of parking spaces for the proposed use. The total square footage of the existing storage facilities is 41,590 SF, wherein 5 parking spaces are provided. This equates to 1 parking space per 8,318 SF. Per this ratio, the proposed 63,114 SF storage facilities would require 8 parking spaces. Since we are providing 13 parking spaces, then sufficient parking will be provided.

The proposed building and landscape enhancements will improve the overall aesthetics of the area. This will increase property values and a result in a use that better serves the public interest.

Re: Justification Statement for Alternative Compliance

**Project Name: Extra Space Storage, Expansion
Project No. E040-004
Record No. DEV2024050012
Job Address: 1990 NW Federal Highway
Project Location: Stuart, FL 34944**

To Whom It May Concern,

1. Alternative Compliance is being requested for Land Development Regulations, Section 4.872 – Architectural Design Guidelines.
2. Justification for the Alternative Compliance request is as follows:
 - i. Strict adherence to Section 4.872 is not reasonable due to the location of the property. The subject property does not front a road and, therefore, there is extremely limited visibility into the subject property and of the proposed 2-story structure.
 - ii. During a teleconference with Luis Aguilar and Peter Walden, it was determined that, due to the lack of visibility from the street, the only side of the building that would require compliance with Section 4.872 for Primary Facades would be the East Exterior Elevation.

The proposed design of the East Exterior Elevation is in substantial conformance with the purpose and intent of the Code. Per Section 4.872. B. Primary Facades, 3. Minimum Design Elements, b. Industrial Buildings, the following design features are provided:

- a. A defined customer entrance including a raised parapet and suspended canopy
- b. Faux Windows
- c. Changes in color and material/texture with the use of split faced CMU and cement plaster
- d. Use of architectural details such as decorative cornice features at the raised parapet features

Additionally, the proposed design complies with limitations on blank wall areas. This proposed primary façade has a significant plan recess near the center of the building which serves to diminish the overall building mass. The primary customer entrance and loading area is further accentuated by a projecting wall plane, changes in material and raised parapet. At four other locations along the East Elevation, similar wall plane changes and parapet transitions have been provided.

Regarding Transparency & Fenestration for Commercial Buildings, the **Code [Martin County, Florida, LDR Section 4.872.B.5(a) (2023)]** requires that 40 percent of the ground level floor be provided with windows. Based on the Self-Storage occupancy, this requirement cannot be met. The majority of the ground floor is provided with overhead coiling doors for exterior access to individual storage units. At the request of staff, this façade has been provided with additional decorative lighting at pedestrian level. In addition, enhanced landscaping along the south side of the parcel.

- iii. As stated, the East Exterior Elevation (primary façade) is in substantial conformance with the purpose and intent of Land Development Regulations. Minor deficiencies are to be offset by additional decorative lighting and the enhanced landscaping features noted. The proposed secondary facades are designed to be consistent with the primary façade in terms of materials, finishes and colors and, therefore, are in compliance with the Code.
- iv. As proposed, the exterior building design will not have adverse effects to the neighboring properties. The East and North sides of the proposed building are only exposed to the back side of an existing shopping center. The west side of the building is buffered from residential properties by a stormwater retention area of significant depth (approximately 100 feet) and with heavy vegetation. The south side of the building is exposed to the structure of the existing self-storage facility on the subject property. This means that there will not be visibility from the commercial property to the south.
- v. The proposed structure will occupy an area of the property that is currently used for the open storage of boats, trailers and the like. The proposed exterior design of the building is far superior to the other two structures at the existing self-storage facility as well as to the adjacent commercial development and existing structures to the north, east and south. Additionally, the proposed structure is in compliance with setbacks required by the Land Development Regulations. Proposed landscaping and enhancements will exceed that of the surrounding properties.
- vi. As demonstrated, the impacts of the request for Alternative Compliance are minimal. There are no other proposed for mitigation efforts.

If you should have any questions regarding the above or have further comments, please do not hesitate to call.

Sincerely,

Guy F. Faber, President

6. General Information

This application will not be considered sufficient and shall not be processed until all required application information and required documentation are provided to the Planning Division. ***All signed application documents shall be originals; no copies shall be accepted. If any information regarding the project (ownership, applicant, request, etc.) changes during the review process, the applicant is required to provide an updated application to the Planning Division.***

Agent Authorization Form: If the applicant is not the owner of the property, the owner must complete and sign the County's Agent Authorization Form. If there are multiple property owners, a separate Agent Authorization Form is required for each owner. If the property is held by any entity other than an individual, the appropriate corporate and/or trust documents are required.

Relationship Disclosure Form: For all DRC project applications, a Relationship Disclosure Form shall be completed by the owner or the owner's authorized agent (when accompanied by a valid Agent Authorization Form on file with the County) and shall be submitted to the Planning Division concurrent with the application. All questions regarding the Relationship Disclosure Form shall be directed to the Orange County Attorney's Office at (407) 836-7320.

Specific Project Expenditure Report: The Specific Project Expenditure Report is a report of all lobbying expenditures incurred by the owner and her / his agent and the owner's lobbyist, contractors, consultants, if applicable, for certain projects or issues that will come before the BCC. This form is required for all DRC applications. All questions regarding the Specific Project Expenditure Report shall be directed to the Orange County Attorney's Office at (407) 836-7320.

Public Notification and Site Visit: The applicant is required to place one or more posters on the property for Land Use Plan, Land Use Plan Amendment, and Preliminary Subdivision Plan applications. The Planning Division will notify the applicant when the posters are prepared and ready for pick up. Failure to post the property according to the posting instructions may result in the postponement of a required public hearing.

For certain application types, surrounding property owners will be notified of the request by mail. Orange County staff will coordinate the mailer.

This application hereby authorizes Orange County staff to enter the property at any reasonable time for the purpose of a site visit in connection with the review of this application.

Community Meeting: A community meeting may be required for this request. If a community meeting is required, the applicant shall be responsible for the payment of all fees associated with the meeting at the time of scheduling. Additionally, the time and date of the community meeting shall be coordinated with the District Commissioner and venue.

Public Hearing: This application may require one or more public hearings. Attendance at all hearings by the applicant or representative is required. Inquiries from the public, the Planning and Zoning Commission, or
