

*Walt Posten is an Instructor for Indian River State College who for the past 16 years has worked with Students of all ages, teaching them the art of welding and fabrication incorporating his experience of car customization and restoration.*

*Walt Posten believes training in the field of welding can give them the skills to change their lives, change their families lives and the lives of people around them.*

*Walt Posten's art of choice is Recycled metal art. "Seeing someone's face light up each time they recognize a piece used to make my sculpture is what drives me to make the next one." He loves the medium of metals for their endless capabilities, that welding the metal involves an electric arc which is basically a 11,000-degree controlled chaos, that metal can be shined to a mirror finish or by leaving the patina on a metal can tell its story.*

*Walt Posten received the John & Suanne Roueche Excellence Award for innovation in 2018.*

*Walt Posten is a Certified Welder in multiple welding processes, a Certified Welding Inspector, and a Certified Welding Educator.*
