To Whom it may Concern :

I - Like all of my neighbors are feeling the pinch from all of the increases in our Lives - Car Ins., cable, Taxes, utilities, Home Ins + groceries To name a few. Now this Latest proposed solid Waste Assessment (which in my 20 years here has increased every year)

My question for the board is - Why not cut back the amount of pickup days and actually be able to decrease the amount?

I understand & agree with recycle and yard waste pickups - but I (as well as many) do not understand the need for Trash pick up Twice a week. The amount of Trash accumulated in 2 days - whether you live alone or have a family - is certainly not enough To warrant 2 pickups. From Monday (my regular pickup) To Thursday - I barely have enough To put in a grocery bag. The same is True from Thursday To Monday. And given that 2 barrels can be put out even more validates my opinion. I would ask that you seriously consider eliminating one Trash pickup.

Thank you for your Time
