**Re: FPL White Tail Solar Energy Center – Request for Continuance to August 25, 2020
Martin County Agenda Item 20-0746 (PHQJ-3), Martin County Project #F110-002
(Our Reference: #19-230)**

Dear Paul:

On behalf of Florida Power & Light Company, please consider this correspondence a formal request to table the subject request from the June 16, 2020 County Commission meeting to the regular meeting on August 25, 2020.

FPL has postponed the construction start date for the project for 1 year and would like to take the additional time to secure the surface water management permit from the Florida Department of Environmental Protection (FDEP) before obtaining final approval from Martin County.

Please feel free to contact me if you have any questions or need additional information.

Sincerely,

Morris A. Crady, AICP
Senior Vice President
ENCL.
