SUMMARY:

An agile-minded entrepreneur with a thirst for uncovering new technologies and efficiencies. I believe the path to success is forged through valued relationships, a can-do attitude, minor failures that make up the greater win, and the spirit of perseverance...it might also be 3D printed with concrete. Passionate about leading innovative projects at the intersection of technology, design, and business strategy.

EXPERIENCE:**Printera Inc., Stuart, FL**

Founder

02/21-Present

- Founded and scaled the company, culminating in a strategic pivot to focus exclusively on high-impact architectural and landscape features (e.g., hospitality walls, public benches, sculptural installations), maximizing value and creative expression.
- Led project execution for high-profile, design-forward elements, demonstrated by works like the sculptural elegance of Soma (NYC) and the organic flow of Flatbread and Butter (Florida), establishing Printera as a leader in innovative, customized built environments.
- Managed the build-out and scaling of facility capacity and redundancy measures, positioning Printera to offer reliable delivery timelines for complex projects.
- Oversaw all facets of business operations, including R&D, project pipeline, and team development, fostering a culture of eager collaboration, continuous innovation, and deep client respect.

ANDMORE, Juno Beach, FL

Scrum Delivery Lead

03/20-11/22

- Served as the lead for multiple cross-functional Scrum teams, ensuring on-time and high-quality delivery of critical digital products and platform initiatives across international markets.
- Championed and implemented key improvements to the development lifecycle, significantly increasing team velocity and reducing blockers by streamlining communication between business stakeholders and technical teams.
- Guided planning, coordination, and execution across complex projects, effectively managing dependencies, risks, and expectations with executive leadership and diverse technical groups.

Levatas, Palm Beach Gardens, FL

Agile Project Manager

11/17-03/20

Slimfast Keto Application Project

Role: Project Manager/ Product Owner

Duration: August 2019- Present

- Managed local and offshore teams to deliver a custom Mobile hybrid application on an Azure/Ionic framework
- Converted user requirements from various customer stakeholder groups into actionable user stories
- Developed and maintained project schedule and cadence, leveraging sprints and bi-weekly demos

- Reported to executive stakeholders on progress and informed their decision making process based on application abilities and suggested technology platforms
- Outstanding performance on initial phase resulting in a second phase and support agreement valued over 3 times original engagement

Royal Caribbean Virtual Concierge Project

Role: Scrum Master

Duration: October 2018 - August 2019

- Responsible for setting team structure and cadence for a new project team, comprised of new hires and existing Royal employees
- Ensured Scrum ceremonies and meetings were in unity with the broader Agile project environment at Royal Caribbean
- Worked alongside product owner to ensure the correct creation and activity of Jira user stories
- Worked frequently with product owners and scrum masters across the organization to eliminate blockers and interface key team members where required; done in real time and as part of weekly scrum of scrum meetings
- Assembled regular reports for demos, including burndown charts, cumulative flow diagrams and velocity reports, to name a few
- Coached team members in Agile best practices and other valuable ceremonies such as retrospectives, story estimating and sprint planning
- Performance exceeding expectations resulted in an initial staff aug assignment of 2 months, to multiple renewals culminating in nearly a year on the project

Credit Power Application

Role: Project Manager/Product Owner

Duration: June 2018 - October 2018

- Gathered project requirements based on client workshops, and competitive analysis
- Assembled the Levatas team of resources to complete the project, using a mix of part and full time contributors
- Created user stories and epics in Jira to feed the development pipeline
- Reported regularly to Credit Power leadership for project budget and milestones

HSBC Collections Platform

Role: Scrum Master/Product Owner

Duration: November 2017 - June 2018

- Worked alongside a Levatas product owner, and mixed Levatas and HSBC team
- Established regular Agile practices such as sprints, PIs, daily standups, retrospectives and product demos, to an organization unfamiliar with Agile
- Presided over Jira and assisted the product owner in the effective and clear creation of user stories and epics

United Technologies, Palm Beach Gardens, FL

Agile Project Scrum Master & Rebates Team Lead

11/15-11/17

- Organization Agile transformation lead, responsible for managing Agile projects in the Carrier IT portfolio
- Assumed roles on projects including Scrum Master, Product Owner and Project Manager
- Taught Agile, Scrum and Kan-Ban practices to project teams, and presided over the effective use of those methodologies through project completion
- Engaged Agile coaching company to administer department wide SAFe certifications
- Functional Area lead for SAP Rebates, including Vistex Rebates, MACS and Pricing claims

SAP Order Management Analyst

06/13-03/16

- SD implementation analyst, with a focus on sales order processing and general QTO functions
- Lead the implementation of Vistex for our market funds program
- Provided assistance to the program director in the management of the budget for our 25 million dollar implementation

- Developed processes for promise trade roles and transitioned responsibility from IT to customer service personnel
- Provided general support for 2 multi-million dollar go-lives and counting

CompoSecure LLC, Somerset, NJ

Quality Management Intern

06/12-08/12

- Developed a new inventory locator system for secure allocation of controlled materials
- Created quality standards in spec with ISO9000 and supplementary sample control books
- Performed regular quality inspections throughout the manufacturing process to ensure all products remained in specification and procedure did not vary from protocol between stations

Dear affordable housing committee candidate selection committee/persons,

I would like to offer my unique insight and experience to the committee as a member, as represented in my attached application. There are several openings that I can fill, so please consider me for whichever seat is appropriate based on the other interest you receive.

I feel called to participate on this committee because of my unique background in concrete 3d printing construction. This emerging technology is being used for housing projects in surrounding counties, and there are many promises being made about its impact on affordable housing. While there is some truth to the claim, there are many times more caveats and risks. My company is no longer printing structures, but I am an expert in the industry and can advise on any 3d printing solutions that may arise over the course of my tenure on the committee. I maintain personal relationships with just about every actor in the industry, from material providers to print operators, and I can call on these connections to additionally provide expert input where I may lack information.

I am a proud Martin County resident, business owner and parent, and wholeheartedly seek to assist the county and community in whatever way I can.

I thank you for your consideration, and hope to be an asset to the committee.

Justin D'Angelo
CEO: Printera
