Quasi-Judicial procedures apply when a request involves the application of a policy to a specific application and site. It is a quasi-judicial decision. Quasi-judicial proceedings must be conducted with more formality than a legislative proceeding. In quasi-judicial proceedings, parties are entitled - as a matter of due process to cross-examine witnesses, present evidence, demand that the witnesses testify under oath, and demand a decision. that is based on a correct application of the law and competent substantial evidence in the record.

Susan Kores, Community Development Director

Agenda Item: 25-0902

STAFF: Elysse Elder presented. Susan Kores provided background on the current process.

LPA: Mr. Moir asked if the notice requirements for the CRA are the same for a property outside of the CRA.

STAFF: Ms. Kores stated that the notice for CRA meetings and the agenda is posted for the public. Ms. Elder stated that the notice requirements for a variance through BOZA (Board of Zoning Adjustment) is stricter than in the CRA, this was done because of the nature of the CRA and the mission of the CRA. The CRA agenda will be posted so that neighbors can see that and then come to the meetings or send emails to voice Public Comment.

LPA: Mr. Moir asked if it was considered to have these go before the BOZA.

STAFF: Ms. Elder stated that they did not because BOZA has a separate ordinance, therefore their powers are limited. The CRA Board is wider and is a unique area and will understand the needs of those area's best.

LPA: Mr. Moir asked if the largest exceptions are expected to be for landscaping and plant material.

STAFF: Ms. Kores stated those requests would still go to the Growth Management Director.
