### **EXECUTIVE SUMMARY**

The proposed amendment of the Future Land Use Map (FLUM) regarding the Old Palm City Community Redevelopment Area generally will change the Low Density, Medium Density, Commercial Office/Residential, Limited Commercial, and General Commercial future land use designations to the CRA Center and the CRA Neighborhood Future Land Use designations. Additionally, the Old Palm City Mixed-Use Future Land Use Overlay will be repealed. The Industrial Future Land Use designation will be retained on the private properties on Martin Highway with that designation. Several parcels owned by Martin County and used for public purposes will receive the General Institutional future land use designation. One half-acre County-owned parcel will be changed from General Commercial to Public Conservation future land use designation. Finally, the General Institutional future land use on Jock Leighton Park will be changed to Recreational future land use designation (correcting a scrivener's error.)

The total land area within the Old Palm City CRA is approximately 610 acres. Approximately 100 acres is right-of-way. The amendment will designate approximately 69 percent of the Old Palm City CRA as CRA Neighborhood (387 acres) and approximately 13 percent will be

designated CRA Center future land use (74 acres). The remaining 15% will be Industrial (16 acres), General Institutional (34 acres), Recreational (21 acres), Public Conservation (0.8 acres) and General Commercial (9.2 acre site of a PUD) future land use designations. See Figure 7. (The figures do not total 100% or 610 acres due to the inexact inclusion and exclusion of right-of-way in the calculations.)

The Community Redevelopment Agency recommended approval of the proposed amendment of the Future Land Use Map.

## **BACKGROUND**

In December of 2017, the Board of County Commissioners adopted Resolution 17-12.3 to initiate amendments to the text of the Comprehensive Growth Management Plan “to strengthen Goals, Policies and Objectives that encourage in-fill development and redevelopment in the Community Redevelopment Areas.” In June of 2018, the Board of County Commissioners approved a contract with the Treasure Coast Regional Planning Council (TCRPC) to develop new Land Development Regulations for the Community Redevelopment Areas. In March of 2019, the Board of County Commissioners adopted Resolution 19-3.18, initiating the amendment of the Future Land Use Map for each of Martin County’s six CRAs.

The goal of this overall work program is to facilitate achievement of the vision in the Community Redevelopment Plans for socially and economically vibrant, environmentally-sustainable, compact, walkable communities, and realization of CGMP Goal 4.2 (“To alleviate the negative impacts of inadequate public facilities and services and substandard structures for affected areas in the County.”) and 4.3. (“To provide opportunities for mixed residential and nonresidential uses, including Traditional Neighborhood Development.”).

Martin County and TCRPC staff have worked jointly on both the creation of a new Chapter in the Plan and revised LDRs for the CRAs. Chapter 18, Community Redevelopment Element, of the Comprehensive Growth Management Plan (CGMP) was adopted on September 10, 2019 and includes the CRA Center and CRA Neighborhood future land use designations. The amendment of the Future Land Use Map for the Jensen Beach CRA was first. Rio was second. The amendment of the Future Land Use Map for Old Palm City is next. The Hobe Sound, Golden Gate and Port Salerno CRAs will follow.

The intent is to amend the Future Land Use Map for each CRA in four ways:

1. Assign the CRA Center future land use designation to the urbanized core of the CRAs and along certain corridors where mixed-use development patterns exist or are allowed;
2. Assign the CRA Neighborhood future land use designation to the areas in each CRA where residential uses predominate, that are outside the urbanized core and mixed-use corridors;
3. Eliminate the Mixed-Use Future Land Use Overlays; and
4. Retain the Marine Waterfront Commercial, Industrial and Recreational, Public Conservation and General Institutional future land use designations and delete other future land use designations.

The overall work program described above has been presented and discussed at numerous public forums. This public hearing regarding transmittal of CPA 19-24 to the state land planning agency (Florida Department of Economic Opportunity, Bureau of Community Planning and Growth) and other state and regional reviewing agencies follows these public meetings and public hearings:

## 1. PROJECT/SITE SUMMARY

### 1.1. Physical/Site Summary

CPA 19-24, Old Palm City FLUM, concerns approximately 610 acres comprising the Old Palm City Community Redevelopment Area. See Figure 1. Old Palm City is a waterfront community, bordered on the east by the South Fork of the St. Lucie River. The lots on or near the water between Martin Highway and Martin Downs Boulevard were created in 1912 with the recording of the “Map of Palm City.” In 1916, the amended plat of Palm City extended west to what is now Mapp Road.

Figure 1. Location Map – Old Palm City CRA

## 1.2. Major Roadways

The functional classification of SW Martin Highway and SW Martin Downs Boulevard is Major Arterial. SW Mapp Road, between Martin Highway and Martin Downs Blvd., is a Minor Arterial. North of Martin Downs Blvd. and south of Martin Highway, Mapp Road is a Major Collector. Minor Collectors include Sunset Trail and SW 34<sup>th</sup> Streets, west of West of Mapp Road, and All American Boulevard and SW Cornell Avenue. All other roadways in the Old Palm City CRA are local or residential streets.

- a. CPA 19-06, Neill Parcels, is a request to amend the FLUM on 499.4 acres located south of SW 96<sup>th</sup> Street and between SW Kanner Highway (SR76) and the St. Lucie Canal. The site currently has the following future land use designations and acreages: Agricultural, 249 acres; Industrial, 175.4 acres, and Marine Waterfront Commercial, 75 acres. ## 1.7. Environmental Considerations

### 1.7.1. Wetlands, soils and hydrology

The County's wetlands composite map is a predictive tool based on satellite wetland mapping, presence of hydric soils, and inclusion on the National Wetlands Inventory. The more indications present, the more likely a wetland is present. The Wetlands Composite Map indicates wetlands are likely in locations throughout the Old Palm City CRA.

### **1.7.2. Wellfield protection**

According to the Martin County Utilities Map, there are no Wellfield Protection Zones in the Old Palm City CRA.

## **2. ANALYSIS**

### **2.1. Criteria for a Future Land Use Amendment**

Section 1.11.C.(1) requires County staff to assume that the current FLUM, as amended, “is generally an accurate representation of the intent of the Board of County Commissioners, and thus the community, for the future of Martin County.” Staff can recommend approval of a requested change only if it is consistent with all other elements of the Comprehensive Plan and at least one of four criteria has been demonstrated by the Applicant. The four criteria are:

- “(a) Past changes in land use designations in the general area make the proposed use logical and consistent with these uses and adequate public services are available”*
- “(b) Growth in the area, in terms of development of vacant land, redevelopment and availability of public services, has altered the character of the area such that the proposed request is now reasonable and consistent with area land characteristics.*
- “(c) The proposed change would correct what would otherwise appear to be an inappropriately assigned land use designation; or,*
- “(d) The proposed change would correct a public service need that enhances the health, safety or general welfare of County residents.”*

The amendment of the FLUM will not substantially change the uses or the intensity of development that are permitted. Rather, the intent is to modify the regulatory framework in order to simplify interpretation and implementation for property owners, developers and County staff and provide greater flexibility regarding permitted uses. The intent is to realize the longstanding vision for the CRAs as represented in the Redevelopment Plans adopted in the late 1990s and early 2000s more efficiently and effectively.

The amendment of the Future Land Use Map is proposed along with these other changes:

1. Amendment of the text of the CGMP to create Chapter 18, Community Redevelopment Element, including the creation of the CRA Center future land use designation and the CRA Neighborhood future land use designation.
2. Amendment of the Martin County Land Development Regulations to create Article 12, the Redevelopment Code, including new redevelopment zoning districts and subdistricts, a regulatory plan, and building and frontage types.

3. Amendment of the Future Land Use Map Zoning Atlas to apply the new CRA Center and CRA Neighborhood future land use designations and the new redevelopment zoning districts and sub-districts.

The goal of the overall work program is to facilitate achievement of the vision for the CRAs of economically and socially vibrant, environmentally-sustainable, compact, walkable communities as represented in the Community Redevelopment Plans and realization of CGMP Goal 4.2 ("To alleviate the negative impacts of inadequate public facilities and services and substandard structures for affected areas in the County.") and 4.3. ("To provide opportunities for mixed residential and nonresidential uses, including Traditional Neighborhood Development.")

Therefore, staff finds that criterion (a) and (b) are met. Criterion (c) is not met because the current future land use designations and mixed-use overlays are not "inappropriate." Criterion (d) is not satisfied because a specific public service is not provided.

## **2.2. Urban Sprawl**

Florida Statute 163.3177(6)(a)9.a. states that any amendment to the future land use element shall discourage the proliferation of urban sprawl and provides thirteen indicators to judge whether a future land use amendment discourages the proliferation of urban sprawl. Urban sprawl is defined as a development pattern characterized by low density, automobile dependent development with either a single use or multiple uses that are not functionally related, requiring the extension of public facilities and services in an inefficient manner, and failing to provide a clear separation between urban and rural uses.

Florida Statute provides an additional eight criteria, of which four must be met, in order to judge whether an amendment can be determined to discourage the proliferation of urban sprawl. An evaluation of the thirteen indicators for urban sprawl and a determination on the eight criteria for this future land use request follows:

- (I) *Promotes, allows, or designates for development substantial areas of the jurisdiction to develop as low-intensity, low-density, or single-use development or uses.*

The CRA Center future land use designation encourages a mix of residential and commercial uses and the CRA Neighborhood Future Land Use permits a variety of housing types. The amendment discourages the proliferation of urban sprawl.

- (II) *Promotes, allows, or designates significant amounts of urban development to occur in rural areas at substantial distances from existing urban areas while not using undeveloped lands that are available and suitable for development.*

The subject land area is not in a rural area. Much of the subject area was platted into 7,500 square foot lots in 1912 and 1916. It is an area that has been designated as suitable for urban infill development and redevelopment. The amendment discourages the proliferation of urban sprawl.

- (III) *Promotes, allows, or designates urban development in radial, strip, isolated, or ribbon patterns generally emanating from existing urban developments.*

The Old Palm City CRA is mostly developed and adjacent to other lands that are mostly developed. The proposed amendment of the Future land Use Map does not promote, allow, or designate urban development in radial, strip, isolated, or ribbon patterns generally emanating from existing urban developments. The amendment discourages the proliferation of urban sprawl.

- (IV) *Fails to adequately protect and conserve natural resources, such as wetlands, floodplains, native vegetation, environmentally sensitive areas, natural groundwater aquifer recharge areas, lakes, rivers, shorelines, beaches, bays, estuarine systems, and other significant natural systems.*

The County's shoreline, mangrove and wetland protection policies remain in effect. The County's native upland habitat and open space policies for the CRAs remain in effect. The amendment discourages the proliferation of urban sprawl.

- (V) *Fails to adequately protect adjacent agricultural areas and activities, including silviculture, active agricultural and silvicultural activities, passive agricultural activities, and dormant, unique, and prime farmlands and soils.*

No agricultural or silvicultural areas or activities are impacted by this amendment. The amendment discourages the proliferation of urban sprawl.

- (VI) *Fails to maximize use of existing public facilities and services.*

No. The amendment seeks to more efficiently and effectively encourage infill development and redevelopment where urban services are provided or intended to be provided. The amendment seeks to maximize use of existing public facilities and services. The amendment discourages the proliferation of urban sprawl.

- (VII) *Fails to maximize use of future public facilities and services.*

No. The amendment seeks to more efficiently and effectively encourage infill development and redevelopment and will thereby make the maximize the use of future public facilities and services. The amendment discourages the proliferation of urban sprawl.

- (VIII) *Allows for land use patterns or timing which disproportionately increase the cost in time, money, and energy of providing and maintaining facilities and services, including roads, potable water, sanitary sewer, stormwater management, law enforcement, education, health care, fire and emergency response, and general government.*

The amendment encourages a compact urban form and therefore provision of these public facilities and services can be expected to be cost-efficient. The amendment discourages the proliferation of urban sprawl.

- (IX) *Fails to provide a clear separation between rural and urban uses.*

The land is in the Primary Urban Service District and far from any rural area. The amendment discourages the proliferation of urban sprawl.

- (X) *Discourages or inhibits infill development or the redevelopment of existing neighborhoods and communities.*

The fundamental purpose of the proposed amendment is to encourage infill development and redevelopment. The amendment discourages the proliferation of urban sprawl.

- (XI) *Fails to encourage a functional mix of uses.*

The CRA Center future land use designation allows a full range of commercial, residential and institutional uses within walking distance of many residents. The CRA Neighborhood allows a mix of dwelling types. The amendment discourages the proliferation of urban sprawl.

- (XII) *Results in poor accessibility among linked or related land uses.*

The CRA Center future land use designation encourages a highly-connected urban form. The amendment discourages the proliferation of urban sprawl.

- (XIII) *Results in the loss of significant amounts of functional open space.*

No functional open space will be lost as a result of the amendment. The Comprehensive Plan policies and the Land Development Regulations that accompany this amendment of the Future Land Use Map seek to encourage creation of additional public open space and to improve the quality of the public realm. The amendment discourages the proliferation of urban sprawl.

In summary, this proposed amendment discourages the proliferation of urban sprawl.

### **2.2.1. Proliferation of Urban Sprawl**

In order for the application to be determined to discourage the proliferation of urban sprawl, the amendment must incorporate development patterns or urban forms that achieve four or more of the following:

- (I) *Directs or locates economic growth and associated land development to geographic areas of the community in a manner that does not have an adverse impact on and protects natural resources and ecosystems.*

Yes. The amendment seeks to encourage infill development and redevelopment in an already urbanized section of the Martin County. The County's shoreline, mangrove and

wetland protection policies remain in effect. The County's native upland habitat and open space policies for the CRAs remain in effect. The amendment discourages the proliferation of urban sprawl.

- (II) *Promotes the efficient and cost-effective provision or extension of public infrastructure and services.*

Yes. The amendment seeks to encourage infill development and redevelopment in an already urbanized section of the Martin County. The amendment encourages a compact, walkable, mixed-use development pattern and therefore provision of public facilities and services can be expected to be cost-efficient. The amendment discourages the proliferation of urban sprawl.

- (III) *Promotes walkable and connected communities and provides for compact development and a mix of uses at densities and intensities that will support a range of housing choices and a multimodal transportation system, including pedestrian, bicycle, and transit, if available.*

Yes. The amendment seeks to facilitate the vision for Martin County's CRA by encouraging compact, walkable, mixed-use development patterns and a range of housing types. The amendment discourages the proliferation of urban sprawl.

- (IV) *Promotes conservation of water and energy.*

Yes. Criterion met to the extent that a compact, walkable urban form contributes to conservation of energy and water. The amendment discourages the proliferation of urban sprawl.

- (V) *Preserves agricultural areas and activities, including silviculture, and dormant, unique, and prime farmlands and soils.*

Not Applicable. This criterion is irrelevant to this application.

- (VI) *Preserves open space and natural lands and provides for public open space and recreation needs.*

Yes. The Old Palm City CRA is required to adopt an open space plan and allows development to meet the minimum open space requirements by contributing land or funds for public open space. Additionally, Martin County's requirements for preservation of native upland habitat remain in place. The amendment discourages the proliferation of urban sprawl.

- (VII) *Creates a balance of land uses based upon demands of residential population for the nonresidential needs of an area.*

Yes. A mix of commercial and civic uses are permitted within walking distance of many residences. The amendment discourages the proliferation of urban sprawl.

(VIII) *Provides uses, densities, and intensities of use and urban form that would remediate an existing or planned development pattern in the vicinity that constitutes sprawl or if it provides for an innovative development pattern such as transit-oriented developments or new towns as defined in s. 163.3164.*

Yes. The CRA Center future land use designation, directed to the urbanized core of the Old Palm City CRA, permits 15 dwelling units per acre. Additionally, in recognizing the benefits of mixed-use development patterns (a mix of compatible uses within walking distance of each other) and not limiting development incentives or flexibility to mixed-use projects (planned and approved as a single project), this amendment will help remediate an existing development pattern. The amendment discourages the proliferation of urban sprawl.

In conclusion, this proposed amendment of the FLUM discourages urban sprawl.

### **2.3 Land Use Compatibility**

The proposed CRA Center and CRA Neighborhood future land use designations for the Old Palm City CRA is compatible with the future land use designations in the surrounding area.

The amendment of the FLUM will not substantially change the uses or the intensity of development that are permitted. The intent of the amendment is to modify the regulatory framework to simplify interpretation and implementation for property owners, developers and County staff and provide greater flexibility regarding permitted uses. The intent is to realize the longstanding vision for the CRAs as represented in the Redevelopment Plans adopted in the late 1990s and early 2000s more efficiently and effectively. The proposed CRA Center and CRA Neighborhood future land use designations should have no negative impact on nearby land uses. Nor should these nearby land uses negatively impact the CRA Center or CRA Neighborhood future land use designations.

### **2.4 Consistency with the Comprehensive Growth Management Plan**

As discussed in Section 2.1, the impetus of the proposed amendment is to realize CGMP Goal 18.1 ("To alleviate the negative impacts of inadequate public facilities and services and substandard structures for affected areas in the County.") and Goal 18.2 ("To facilitate the revitalization, restoration and strengthening of the CRA town centers and neighborhoods by establishing future land use designations that allow and encourage a compact, walkable, small town urban form.") The CRA Center future land use designation is intended for "the urbanized core of the CRAs." (CGMP Objective 18.2A.) The CRA Center future land use designation recognizes and encourages both mixed-use patterns as well as mixed-use projects. CGMP Policy 18.2A.2. Realization of the vision for compact, walkable, vibrant mixed-use communities does not require each project to be a mixed-use project (a mix of residential and commercial uses planned and approved as one project). The CRA Neighborhood future land use designation is intended to maintain and upgrade the quality of the residential neighborhoods in the CRAs and to attain or maintain a small town urban form with well-connected, walkable streets, public open spaces and recreational facilities and buildings whose form and proportion are consistent with existing development. (CGMP Policy 18.2C.1)

The proposed amendment also advances realization of Goal 4.1 (“To manage growth and development in a way that is fiscally efficient, consistent with the capabilities of the natural and manmade systems, and maintains quality-of-life standards acceptable to Martin County’s citizens.”); Goal 4.7 (“To regulate urban sprawl by directing growth in a timely and efficient manner to areas with urban public facilities and services, where they are programmed to be available, at the levels of service adopted in this Plan.”); Goal 4.8 (“To encourage energy conservation and promote energy-efficient land use and development that implements sustainable development and green building principles.”); and Goal 4.9 (“To provide for appropriate and adequate lands for residential land uses to meet the housing needs of the anticipated population and provide residents with a variety of choices in housing types and living arrangements throughout the County.”) Therefore, the proposed amendment of the FLUM is consistent with the CGMP.

## **2.5. Capital Facilities Impact (i.e. Concurrency Management)**

Policy 4.1B.2. of the Future Land Use Element states:

“All requests for amendments to the FLUM shall include a general analysis of (1) the availability and adequacy of public facilities and (2) the level of services required for public facilities in the proposed land uses. This analysis shall address, at a minimum, the availability of category A and category C service facilities as defined in the Capital Improvements Element. No amendment shall be approved unless present or planned public facilities and services will be capable of meeting the adopted LOS standards of this Plan for the proposed land uses. The Capital Improvements Element, or other relevant plan provisions, and the FLUMs may be amended concurrently to satisfy this criterion. The intent of this provision is to ensure that the elements of the CGMP remain internally consistent.”

### **2.5.1. Mandatory Facilities**

The Old Palm City CRA is located within the Primary Urban Service District. Therefore, pursuant to CGMP Objective 4.7A., the full range of public facilities and services at the adopted Level of Service are to be provided or programmed to be provided. Because the maximum residential density allowed pursuant to the proposed future land use designations is approximately the same as that permitted pursuant to the current future land use designations, as implemented by the Land Development Regulations, no significant additional impact on the adopted Level of Service for public facilities and services is anticipated by the amendment of the FLUM. Present or planned public facilities and services will be capable of meeting the adopted LOS standards for the proposed future land use designation.

#### **2.5.1.1. Water and Sewer Facilities**

The land is located in the Martin County Utilities Service area. The adopted Level of Service (LOS) for water and wastewater (106 gallons per person per day for potable water and 100 gallons per person per day for wastewater for residential uses).

Most of the Old Palm City is without public sanitary sewer service. More than \$21 million is scheduled to be invested in 2020 and 2021 to implement the septic-to-sewer program in the Old Palm City CRA.

#### **2.5.1.2. Drainage Facilities**

The amendment of the FLUM will have no significant impact on the maintenance of the drainage LOS. All development is required to comply with the applicable Land Development Regulations regarding stormwater and drainage. Compliance with the following levels of service for drainage facilities must be demonstrated at the time a development application is submitted:

Major Drainage Ways (over one square mile) - 8.5" in a 24-hour period (25 year/24-hour design storm)

Underground Facilities Utilizing Storm Sewers - 6" in a 24-hour period (5 year/24-hour design storm)

All Other Facilities - 7" in a 24-hour period (10-year/24-hour design storm)

Finished Floor Elevation - 100-year/3-day storm

#### **2.5.1.3. Transportation**

Pursuant to CGMP Policy 5.2A.1., "The LOS standard for all roadways in unincorporated Martin County is LOS D in the peak hour/peak direction."

#### **2.5.1.4 Solid Waste Facilities**

The required LOS in Martin County is 1.06 tons of capacity per weighted population. The weighted average population (the average of seasonal and full time residents) countywide in Fiscal Year 2020 is 175,341 persons. In Fiscal Year 2020, there are 263,012 tons of available capacity or 1.50 tons per weighted person. The proposed future land use changes will not reduce the level of service.

#### **2.5.1.5. Parks/Recreation Facilities**

The LOS for parks and recreation facilities are calculated on a countywide basis. Martin County's total population in Fiscal Year 2020 is 158,400 persons. The 2020 Capital Improvements Plan provides the following LOS:

|                  | REQUIRED LOS                         | PROVIDED     | CURRENT LOS                    |
|------------------|--------------------------------------|--------------|--------------------------------|
| Active Park Land | 3 acres per 1,000 residents          | 1,013 acres  | 6.39 acres per 1,000 residents |
| Beach Facilities | 9 parking spaces per 1,000 residents | 1,350 spaces | 8.5 spaces per 1,000 residents |

### **2.5.1.6. Fire/Public Safety/EMS**

CGMP Policy 14.1A.2(7)(a) establishes the LOS for fire/rescue as follows:

|                       | Area of Martin County | Travel time | Percent of time |             |
|-----------------------|-----------------------|-------------|-----------------|-------------|
|                       |                       |             | Required LOS    | Current LOS |
| Advanced life support | Urban                 | 8 minutes   | 90              | 94          |
|                       | Rural                 | 20 minutes  | 90              | 94          |
| Basic life support    | Urban                 | 6 minutes   | 90              | 94          |
|                       | Rural                 | 15 minutes  | 90              | 94          |
| Fire response         | Urban                 | 6 minutes   | 90              | 94          |
|                       | Rural                 | 15 minutes  | 90              | 94          |

The 2020 Capital Improvements Plan indicates that Fire/Rescue LOS will not be met in FY2025, based on projected population growth and the assumption that neither the size of nor the densities within the County's Urban Service District have changed.

### **2.5.1.7. Public Educational Facilities**

The LOS for public school facilities is established by CGMP Policy 17.1A.1. Pursuant to CGMP Policy 17.1B.1, final site plans that include residential units can be approved by the County "only after receipt of a School Concurrency Report from the School District stating that adequate capacity exists for the anticipated students."

### **2.5.2. Non-Mandatory Facilities**

#### **2.5.2.1. Libraries**

Library LOS is calculated on a countywide basis and requires 0.60 gross square feet of library space for each resident and two volumes of reading material per weighted resident. The Fiscal Year 2020 Capital Improvement Plan shows the current LOS is 0.66 square feet per resident and 1.80 volumes per weighted resident. There is currently a deficit in volumes per weighted resident.

## **3. CONCLUSION**

Staff recommends approval of the proposed amendment of the Future Land Use Map concerning the Old Palm City CRA for transmittal to state and regional agencies.

"Frequently asked Questions"

## ***Frequently Asked Questions***

### **1. What is a CRA?**

A Community Redevelopment Area (CRA) is a special geographic area where the community has determined that redevelopment of both public and private facilities should occur according to a redevelopment plan. Old Palm City is one of six communities in Martin County that carry the special designation of CRA. As development occurs, a portion of the additional tax increment collected by the County, based on the increased property valuation, is reinvested in the Old Palm City CRA to promote economic growth, sustainable development and improved quality of life.

### **2. What is the Future Land Use Map?**

The Future Land Use Map depicts the generally desired type of development in different locations in the County. The "underlying" future land use designations present in the Old Palm City CRA are Low Density, Medium Density, Limited Commercial, General Commercial, Commercial Office/Residential, Industrial, General Institutional and Recreation.

### **3. What are the Mixed-Use Future Land Use Overlays?**

The Mixed-Use Future Land Use Overlays allow, but do not require, a mix of residential and commercial uses in the same project. The mixed-use development option is in addition to the development permitted by the future land use designation. There is one Mixed-Use Future Land Use Overlay in the Old Palm City CRA.

### **4. What is the Zoning Atlas?**

While the future land use designations establish the general type of development allowed, such as residential or commercial, the zoning districts provide more detailed standards regarding permitted uses, such as detached single family dwelling or multi-family, and development standards, such as setbacks and building height. The Zoning Atlas is the map of the County's zoning districts.

### **5. What changes are proposed?**

**Future Land Use Map** – The Old Palm City Mixed-Use Future Land Use Overlays and most of the "underlying" future land use designations will be replaced by two new future land use designations called CRA Center and CRA Neighborhood. Some County owned land will be designated Public Conservation or General Institutional. The Industrial, General Institutional and Recreation future land use designations will be retained.

**Zoning Atlas** - The thirteen (13) "underlying" zoning districts, and the three (3) separate Old Palm City Zoning Overlay Districts will be replaced with the Old Palm City Redevelopment, Public Conservation and Public Service Zoning Districts and several zoning sub-districts.

### **6. What is the Process?**

The Future Land Use Map is part of the County's Comprehensive Growth Management Plan and is one of the primary tools for managing land development. The Future Land Use designation of a parcel of land determines the general type of use allowed and the maximum level of density or intensity allowed (such as the number of residential units per acre). A change to the Future Land Use Map requires three public hearings as detailed below.

1. Local Planning Agency (which makes a recommendation to the Board of County Commissioners).
2. Board of County Commissioners (to determine whether the proposed amendment should be transmitted to the Florida Department of Economic Opportunity, the state land planning agency that oversees and coordinates comprehensive planning).
3. Board of County Commissioners (to determine whether the proposed amendment should be adopted).

**7. How will the proposed amendments affect me if I own property in the Old Palm City CRA?**

The County and the Community Redevelopment Agency believe the current regulatory structure impedes realization of the vision for the Old Palm City CRA contained in the Old Palm City Redevelopment Plan and the County Comprehensive Growth Management Plan. The intent of the proposed amendments is not to substantially change the permitted uses or development standards applicable within the Old Palm City CRA, though there will be some adjustments. The intent is to eliminate the difficulties caused by too many layers of regulations.

The proposed changes will permit development of a residential project, a commercial project, or a mixed-use project subject to the proposed development standards within the Old Palm City CRA.

**8. Are there other plan amendments for the CRA?**

Yes. In 2017, the Board of County Commissioners initiated text amendments to the Comprehensive Growth Management Plan (CGMP) that will "strengthen Goals, Policies and Objectives that encourage in-fill development and redevelopment in the Community Redevelopment Areas (CRAs)." This amendment creates a new Chapter of the CGMP for the CRA areas. In addition, it addresses five CGMP policies that impact redevelopment: Design of Mixed-use Future Land Use Overlays; Mixed-use project versus mixed-use neighborhood; Density Transition; Upland Preservation and Shoreline Protection. These amendments also followed a public hearing schedule, have been adopted by the Martin County Board of County Commissioners and are now in effect.

**9. How can I learn more about the proposed changes?**

  - a. The November 18 meeting of the Old Palm City Neighborhood Advisory Committee;
  - b. The November 25, 2019 meeting of the Community Redevelopment Agency;

## Mine waste gift bags pulled from shelves

**Amy Beth Hanson**  
ASSOCIATED PRESS

HELENA, Mont. - Environmental regulators have put a halt to a Montana business association's sale of sandwich bags of mining waste advertised as a "Bag O'Slag."

Environmental Protection Agency officials overseeing the Superfund site cleanup of pollution from nearly a century of smelting operations in Anaconda came across the potentially toxic tchotchkes for sale by the city's chamber of commerce. The slag, a byproduct of smelting copper, contains small amounts of arsenic and lead.

Mary Johnston, the chamber's executive director, said the EPA asked the chamber to stop selling the black slag in a resealable bag and gave them some alternatives.

Anaconda's Old Works Golf Course – which has slag in its sand traps – sells souvenir slag and a golf ball in a sealed container.

**The Environmental Protection Agency said souvenir bags of mining slag could have health risks. The slag contains small amounts of arsenic and lead.**

Johnston says the chamber sold up to 40 bags a summer for \$2 apiece alongside Montana history books and huckleberry jam.

"It's a silly little thing, but I under-

stand, they're concerned," Johnston said Monday. "It was not a big money-maker. It was just a novelty item we could offer."

The bags had a picture of the Anaconda smokestack and part of the slag pile on the front and information about the slag on the back, including a warning against handling it because it has characteristics similar to broken glass.

"While we expect minimal risks associated with the normal handling of the souvenir slag, we will be evaluating the material and are advising those in possession of the bags to dispose of them as normal household waste as a precaution," said Rich Mylott, a regional spokesman for the Environmental Protection Agency.

Superfund sites in southwestern Montana have created a sort of toxic tourism.

In nearby Butte, visitors can pay \$3 to view the Berkeley Pit, a former open pit copper mine filled with acidic, metal-laden water that is now being treated so

The Jack Nicklaus-designed golf course was built in the mid-1990s to cap mining waste and to help boost Anaconda's economy.

Driving into Anaconda, the skyline is dominated by a 585-foot brick smokestack - the area is a state park - and the enormous slag pile that is 2,600 feet long, 2,100 feet wide and up to 275 feet tall.

Charlie Coleman, the remedial project manager for the EPA, told The Montana Standard in January 2016 that the slag "doesn't pose a big threat to human health or the environment."

The Superfund cleanup plan allows for the estimated 26.5-million-ton pile of slag to be maintained as a resource, rather than waste. It can be used as blasting media, to manufacturing roofing or other building material, as underground pipe bedding material and controlled landscaping for the golf course, the agency said.
