Agenda Item # or Topic: Masks in Martin County
Date of Meeting: Fri, 07/17/2020
Your Comment or Message:

Masks mandates are Unenforceable to say the least. Put yourself in the shoes of our deputies. They are only able to attend to a limited number of issues throughout their shift. Here are some examples of what they encounter and are expected to handle in their shift and many of which have increased during the lockdowns...shootings, home robberies, rape, child abuse, domestic violence, drunk driving, fatal car accidents, murders, missing children, ALL of which have increased in recent months with no response from the media...and now we are magnanimously adding to that long list enforcing normal citizens to wear a sock on their face. Does this make sense to you? Does this make sense to the deputies? It is unavoidable to see all over the country the animosity that is unfairly directed at law enforcement. Do you think that directing law enforcement to micromanage average citizens will help decrease or increase that animosity toward law enforcement? Imagine if that civil unrest and anarchy that you see on the news came to our town? Or do you think that our small town is somehow immune to what we see on the news happening in large cities and small towns all over the US. Do yourself and the residents of Martin County a favor...go ask a handful of deputies if they want to be a hero and help with actual crimes and help hurting citizens during these painful times or if they want to be a hall monitor and tell people they encounter to put a piece of useless paper or thin cloth over their faces. I'll give you a hint...one action will help our community and the other will harm our community.

Agenda Item # or Topic: Mask Mandate
Date of Meeting: Fri, 07/17/2020
Your Comment or Message:

Imagine being a child and being in the formative years of your life where every day and week you're learning more about body language and facial expressions and how to grow as a human....and being withheld from seeing people's faces and smiles for four months now. Have you not realized you Commissioners are proposing children not see the faces of strangers in their daily lives? This is the essence of humanity. Imagine going weeks and months without shaking hands and hugging and feeling human touch. The weakest in our society are being abused by the government's oppression.

Our parents and grandparents in nursing homes have been isolated as though they're in prison without the ability to meet with family members. And our children are yanked out of society and withheld from the most basic of rights which is education and interaction with friends.

Have you stopped to consider this? Have you thought what the long term effects will be or are you just concerned that you received another whiny email about masks or about what the media might write about you? I will not wear a mask and my children will not wear masks. You are far out of bounds.

Agenda Item # or Topic: Golf cart use and closures
Date of Meeting: Fri, 07/17/2020

Your Comment or Message:

I believe that you should reverse the decision to allow 2 persons in a golf cart. The only time 2 people should be allowed in a cart are when they live together.

Also, fitness centers and in side restaurant service should be closed down.
