Your Comment or Message: Please consider removal of all restrictions including masks. With our Governor's latest guidance there should be no reason to continue any restrictions. I am not convinced you ever had the reason or authority to ever enforce these restrictions. There is no scientific proof that face masks are effective. Thank you for your service

Agenda Item # or Topic: Mandatory masks
Date of Meeting: Tue, 09/29/2020
Your Comment or Message: I would again request your consideration to leave it up to us to determine if we wear a mask or not.....I think making it MANDATORY with possibility of being a misdemeanor is just wrong....the people you have policing this edict will have the ability of sending me to court and for a mask....come on I can say that 99% of the time when I enter or leave an establishment I use my mask when I cannot have social distancing....I think county commissioners should not have the ability to make anything mandatory this is where it has to stop we have common sense!

Dear Martin County Board of Commissioners,

First and foremost, I would like to thank Sarah Heard, Ed Ciampi, and Doug Smith for passing another mask mandate in our county. I wholeheartedly agree that masks should be required until coronavirus stops spreading or there is a vaccine available. Thank you for looking out for the safety of the citizens of Martin County. In the same vein, I disagree with Stacy Hetherington and Harold Jenkins' vote against mandating masks in Martin County. The CDC "recommends that people wear masks in public settings and when around people who don't live in your household, especially when other social distancing measures are difficult to maintain." Personally, I'm going to listen to the CDC because I know that the doctors in that organization study diseases and know what's best in order to contain this illness. Coronavirus is highly contagious, even life threatening for some, and there shouldn't be questioning whether or not people have to wear masks, especially if professionals recommend it.

I do understand that masks aren't ideal for daily wear. They're uncomfortable, especially when it's hot out. Many also argue that they should have their own say in whether or not they can wear a mask since it's their body the mask is going on. However, it's ignorant to not consider others during this pandemic. Everyone is in this together, and no one should be selfish in times like these. For that reason, there shouldn't be a question of whether or not masks should be mandated.

Therefore, to the County Commissioners who opposed the mask mandate, think about the safety & health of our people, and do not give in to the selfish wants of stubborn citizens. It doesn't matter if people don't like the way wearing a mask feels because it most likely feels worse if that person were to get sick. And by not wearing a mask, you risk the health of the people around you; and you don't know if they have underlying conditions that coronavirus could be deadly to them. So I ask the people who voted against the mask mandate to think about the wellbeing and safety of your citizens, and to consider reinforcing the mask mandate when this current one expires.

Your Comment or Message: Please do not discontinue the mask mandate. I am President of The Barn Theatre, and the theatre has been basically shut down without income since March. We are following all the recommendations of Federal, State, and County Government in an effort to reopen the theatre this month. Many of our patrons will not come to the theatre without personal safety protocols administered by the theatre. Removing the mask mandate would have a serious negative impact on the theatre, and may lead to us having to cancel shows and shut down once again. Please do not allow the rantings of a misguided group convince you that masks are not required. The Director of the CDC states that the best thing people can do to remain safe from the virus is to wear a mask, and we require that our patrons wear a mask in order to enter the theatre. Our staff, volunteers, and cast are all required to wear masks, even during performances, and I require that we continue to do so until a proven vaccine is available. Thank you for your consideration.
