Your Comment or Message:
Dear Commissioners –
I urge you to not allow an exception to the four story height limit. We do not want to be like our neighbors to the North and South of us. Developers need to respect our rules and not think they have an easy out with a Land Use Change. All these changes to Comprehensive Plan basically make the Comp Plan irrelevant from the beginning. Please do NOT approve the Comp Plan PH-4 and PH-5 . These height limits are what KEEP Martin County special. If there is an exception made for Kolter, it opens the doorway for all developers to use this as a precedent. Please I urge to not allow to this happen.
Thank you for your close consideration on this very important matter.

Sincerely,
Rachel Field-Heid

Donna Gordon

Thank you so much for lifting the mask mandate this month, it is making a huge difference in civility and unity in this county, things are 'lightening up', and we thank you! Thank you for listening to and representing the will of the people.

Jan Mozingo

Playground Date of Meeting: Wed, 10/21/2020 Your Comment or Message:
Good morning,

I am a former Jensen Beach Elementary parent and volunteer, having also served as a volunteer coordinator for this school. The community playground housed at JBE was built by hard working parents and community volunteers that spent countless hours fundraising, planning, designing and eventually building in May of 2013, just 7 short years ago. It would be very disappointing to not include it as part of the design for a new school. I urge you to consider a design for the school that would help preserve this playground for many more children to enjoy. Please, go and visit, walk around and see how much work went into this project, from the personalized fence posts and bricks to the hand laid mosaic tile wall and everything in between.

It truly is a work of art and vision of so many students and parents who were blessed to be a part of this much needed community project. I appreciate your time and consideration in preserving our playground.
