**Re: Loblolly Community Service Corporation – Application for Future Land Use
Amendment and Concurrent Rezoning (Our Reference: #20-005)**

Dear Paul:

On behalf of the Loblolly Community Service Corporation, we are pleased to submit this application for a future land use amendment from Estate Density Residential to Conservation and for a concurrent rezoning from E-1 and IZ to PC (Public Conservation). The land use and concurrent rezoning is part of a property transfer between FIND and Loblolly Community Service Corporation (LCSC) in which the two land uses will be exchanged. The proposed changes are as follows:

Florida Inland Navigation District Property:

Total Site Area: 64.3 acres
Land Use Change from Conservation to Estate Density: 51.2 acres
Land Use to Remain Conservation/ Zoning A1-A: 13.1 acres

Loblolly Community Service Corporation Property:

Total Site Area: 51.8 acres
Land Use Change from Estate Density to Conservation: 51.8 acres

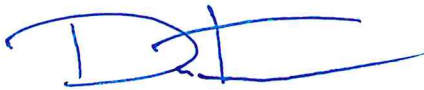

With this understanding, please find attached the application fee for a future land use amendment and concurrent rezoning in the amount of \$6,100.00, one compact disk containing the survey in AutoCad, and one compact disk containing the following materials in PDF format:

1. The completed Comprehensive Planning Amendment application form
2. The completed rezoning application form;
3. The Comprehensive Plan Amendment Justification;
4. Ownership certificate for the Loblolly Community Service Corporation (LCSC) property;
5. LCSC Ownership Disclosure form
6. LCSC Agent authorization for Lucido & Associates;
7. Sketch and Legal of LCSC parcel to Conservation;
8. Legal description of LCSC parcel;
9. Parcel assessment map;
10. Aerial map;
11. Location map;
12. Existing land use map;
13. Proposed land use map;
14. Existing zoning map;
15. Proposed zoning map;

16. Flood rate insurance map;
17. USDA soils map;
18. Urban service district map;
19. School impact worksheet;
20. Traffic memorandum prepared by Susan O'Rourke, PE.

The certified list of surrounding property owners within 1,000 feet will be provided prior to the first public hearing. South Martin Regional Utilities stated that they cannot provide a service availability form for the land use change unless there is a specific, pending development. Since this proposal is for a land use exchange no impacts to South Martin Regional Utilities would be proposed beyond the existing land uses. Please feel free to contact me if you have any questions or need additional information.

Sincerely,

Doug Fitzwater, RLA

COMPREHENSIVE PLAN AMENDMENT APPLICATION

A. GENERAL INFORMATION

Type of Application: Future Land Use Application with Concurrent Zoning Application

Name or Title of Project:

Loblolly Community Service Corporation Land Use Amendment

Future Land Use Map Amendment:

Location of Project and Description of Proposal:

Loblolly Community Service Corporation (LCSC) will be conducting an exchange of property with the Florida Inland Navigation District (FIND). The LCSC property consists of approximately 51.82-acres of land with a land use designation of Estate Density. The FIND property consists of approximately 64.3- acres with a land use of conservation. The FIND plans to transfer 51.20-acres of that property to the LCSC, which will result in an even swap of land uses and upland area. As part of that transfer LCSC is requesting to modify the 51.82-acre portion from Estate Density (2upa) to Public Conservation. FIND is requesting to modify 51.20- acres from Conservation to Estate Density (2upa) under a separate application.

D. Certification by Professionals

Section 10.2.D.7., Article 10, Development Review Procedures, Land Development Regulations (LDR), Martin County Code (MCC) provides the following:

When reviewing an application for a development permit that is certified by a professional listed in s. 403.0877, F.S., the County shall not request additional information from the application more than three times, unless the applicant waives the limitation in writing. If the applicant believes the request for additional information is not authorized by ordinance, rules, statute, or other legal authority, the County, at the applicant's request, shall proceed to process the application for approval or denial. (125.022(1), Fla. Stat.)

This box must be checked if the applicant waives the limitations.

Comprehensive Plan Amendment

APPLICATION JUSTIFICATION**1.0 Comprehensive Growth Management Plan Future Land Use Amendment Criteria.**

According to Section 1.11.C(2) of the Comprehensive Growth Management Plan (CGMP), staff can recommend approval of the requested change from Estate Density (2 upa) to Public Conservation provided it is consistent with all other elements of the CGMP and at least one of the following three situations has been demonstrated by the applicant to exist:

(Please note that the language *italicized* is actual language from the CGMP. Justification for the proposed change and applicant's responses are provided within the "boxed-in" sections that follow.)

- 1.1** *"(a) Past changes in land use designations in the general area make the proposed use logical and consistent with these uses and adequate public services are available, and growth in the area – in terms of development of vacant land, redevelopment and availability of public services – has altered the character of the area such that the proposed request is now reasonable and consistent with area land use characteristics."*

This comprehensive plan amendment request will modify the land use of a 51.82-acre portion of the Loblolly Community Service Corporation (LCSC) Property from Estate Density (2upa) to Public Conservation. Under a separate application the Florida Inland Navigation District will modify the land use of the adjacent 51.2-acre property owned by FIND from Public Conservation to Estate Density (2 upa). The two land use changes will be a part of an exchange of property between FIND and Loblolly Community Services Corporation.

This land use change is appropriate because it will place the conservation land use adjacent to the existing conservation land to the north. In the separate application by FIND, the proposed land use change to Estate Density (2 upa) would place proposed Estate Density (2 upa) lands adjacent to the Loblolly Bay PUD which is also Estate Density (2 upa). This land use change will allow for the consolidation of conservation land uses.

- 1.2** *"(b) The proposed change would correct an inappropriately assigned land use designation."*

The proposed change in land use will allow for the consolidation conservation land uses, and the separate application by FIND will allow for the consolidation of Estate Density (2 upa) lands.

- 1.3** *"(c) The proposed change is a County initiated amendment that would correct a public facility deficiency in a County facility that provides for the health, safety, or general welfare of County residents and cannot otherwise be adequately provided in a cost effective manner at locations where the proposed land use is currently consistent with the CGMP."*

Comprehensive Plan Amendment

This criterion is not applicable to the subject request. However, the proposed amendment clearly meets 2 of the 3 criteria. Staff can recommend approval of the requested change provided at least one of the three criteria has been demonstrated by the applicant to exist and the amendment is consistent with all other elements of the CGMP.

2.0 Physical Characteristics of the Site.

The upland portion of the property has been partially cleared for for a vacant mobile home. The remaining balance of the property is a wetland for an approximate depth of 1,800 lf and is appropriate for public conservation.

2.1 Compatibility with Surrounding Uses.

The property is located immediately south of the property owned by Martin County and is set aside for conservation. This application will consolidate conservation lands. As part of the proposed land use swap, the FIND property to the south will be modified to an estate density (2 upa) land use, which allows for consolidation of estate density lands to the south. Therefore, with the two land use amendments the consolidation of land uses will enhance the compatibility with adjacent properties.

2.2 Analysis of Applicable Comprehensive Growth Management Plan (CGMP) Policies

The following CGMP policies support the proposed land use amendment from Estate Density (2 upa) to Public Conservation:

Policy 4.13A.11.(2) Public Conservation. The Public Conservation category recognizes publicly owned areas designed for conservation uses. In addition, privately owned land subject to perpetual easements as provided under Objective 4.5F may be designated Institutional Public Conservation. Only development compatible with conservation and passive recreation uses shall be permitted in the Public Conservation category. This may include access, parking and other facilities that enable the management of the resource and the public's enjoyment of it. Conservation areas include the DuPuis Preserve in south Martin County and the Savannas in north Martin County. Environmentally sensitive lands acquired by the County shall be reclassified to the Institutional-Conservation land use designation during the next plan amendment cycle.

The subject property is located adjacent to an existing, undeveloped conservation land use and is located in the primary urban service district. The proposed change to Public Conservation from Estate Density (2upa) will consolidate the conservation lands together keeping an orderly transition of land uses.

Comprehensive Plan Amendment

2.3 Urban Sprawl.

Urban Sprawl is defined in HB 7207 as a development pattern characterized by low density, automobile-dependent development with either a single use or multiple uses that are not functionally related, requiring the extension of public facilities and services in an inefficient manner, and failing to provide a clear separation between urban and rural uses.

The two applications by the Florida Inland Navigation District and Loblolly Community Service Corporation are exchanging land uses with the same land area. The proposed land use changes consolidate conservation and estate density land uses. In addition this change will bring the estate density land use closer public utilities, thereby reducing inefficiencies and will consolidate conservation land uses.

2.4 Availability of Public Facilities And Services.

"Policy 4.1B.2. Analysis of Availability of Public Services. All requests for amendments to the FLUMS shall include a general analysis of (1) the availability and adequacy of public facilities and (2) the level of services required for public facilities in the proposed land uses..."

The subject site is within the Primary Urban Service District and all mandatory public facilities and services are currently in place or planned to be available when development occurs. The following documents are included in the application to substantiate these findings:

Traffic Study prepared by Susan O'Rourke, P.E.; and
School Impact Worksheet prepared by Lucido & Associates

2.5 Justification Statement for Rezoning Application from RE-1/2A to RS-5

a. Whether the proposed rezoning is consistent with all applicable Provisions of the CGMP;

The requested rezoning from IZ & E-2 to the PC, Public Conservation zoning district, implements the proposed Conservation future land use category. The proposed zoning is consistent with the CGMP policies for allocating conservation land use and with all applicable provisions of the Comprehensive Growth Management Plan, including density transition policies and buffering requirements.

b. Whether the proposed rezoning is consistent with all applicable provisions of the Martin County Land Development Regulations (LDR);

The PC zoning district implements the requested Conservation future land use category and is consistent with all applicable provisions of the Land Development Regulations.

c. Whether the proposed zoning district is compatible with the character of the existing land uses in the adjacent and surrounding area and the peculiar suitability of the property for the proposed zoning use;

Comprehensive Plan Amendment

The PC zoning district will provide allow for the consolidation of conservation areas. The property to the north is owned by Martin County and has a conservation land use.

d. Whether and to what extent there are documented changed conditions in the area;

The growth in the area over the past 30 years, particularly the improvements to public infrastructure and services, and the development of Loblolly Pines/Bay makes the proposed land use exchange appropriate.

e. Whether and to what extent the proposed zoning would result in demands on public facilities;

The property is located in the Primary Urban Service District, and all required public facilities and services are in place or will be available to support future development in accordance with the PC zoning district. This land use change is part of a land use exchange between the Florida Inland Navigation District and the Loblolly Service Corporation with no increase in demand on public facilities.

f. Whether and to what extent the proposed zoning would result in a logical, timely and orderly development pattern which conserves the value of existing development and is an appropriate use of the county's resources;

The PC zoning district is consistent with the pattern of growth that has occurred since the Comprehensive Growth Management Plan (CGMP) land use plan was originally adopted in 1982. The proposed request will conserve and enhance the value of existing development and provide equitable treatment to the property owner, consistent with CGMP policies, while furthering CGMP policies that support a mix of housing types and the efficient and economical use of the county's resources through the proposed land use exchange.

Appendix
Article 10.2.B.3. Article 10, Development Review Procedures;
Land Development Regulations; Martin County Code

10.2.B. Application submittal for development approval. Applications for development approval shall comply with the following described procedures:

1. Initiation. A development application shall be filed with the County Administrator by the owner or other person having a power of attorney from the owner to make the application.
2. Acceptance of the application. A development application will be received for processing on any working day.
3. Verification of property ownership. The documents required below are required prior to an application being determined complete. After the application is determined to be complete, the applicant has a continuing obligation to provide revised documents to reflect any changes to the information provided that may occur before and as of the date of the final public hearing or final action on the application.
 - a. Proof of ownership must be provided for any application for any type of development order. The applicant shall provide a copy of the recorded deed for the subject property, and shall certify any subsequent transfers of interests in the property. If the applicant is not the owner of record, the applicant is required to report its interest in the subject property.
 - b. The applicant must disclose the names and addresses of each and every natural person or entity with any legal or equitable interest in the property of the proposed development, including all individuals, children, firms, associations, joint adventures, partnerships, estates, trusts, business trusts, syndicates, fiduciaries, corporations, limited liability company, professional associations and all other groups or combinations.
 - c. For those entities that are a firm, association, joint adventure, partnership, estate, trust, business trust, syndicate, fiduciary, corporation, limited liability company, professional associations and all other groups or combinations thereof, every natural person or entity that enjoys a legal or equitable interest in property of the proposed development shall be disclosed including but not limited to any partners, members, shareholders, trustees, and stockholders.
 - d. The disclosure required in b. and c. above shall not apply to companies that are publicly traded and to consultants and contractors who may perform professional services or work related to the property.
 - e. In addition, the disclosure must include those having any interest in a contract for sale of the property, or a conveyance of any interest in the property, including but not limited to, real estate brokers and salespersons; and any and all mortgagees of the property.
 - f. The applicant must list all other applications for which they have an interest as defined in subsection b. and c. above that is currently pending before Martin County. The list shall include any development applications, waiver applications, road opening applications, and lien reduction requests.
 - g. Any development order, including applications for Planned Unit Developments which was granted or approved based on false or incomplete disclosure will be presumed to have been fraudulently induced and will be deemed by the Martin County Board of County Commissioners to be void ab initio and set aside, repealed, or vacated.

School Impact Worksheet

The purpose of this school impact worksheet is to assist in planning for future public school facility needs and concurrency requirements. It is to be completed for any proposed residential project, and residential rezoning, amendments to FLUM with residential components, and DRIs.

Date: _____
Parcel ID#: _____
Project Name: _____
Former Project Name: _____ **Owner/Developer:** _____
_____ **Contact Name/Number:** _____
Total Project Acreage: _____ **Year 1 of the Build-Out:** _____

1. Please indicate the most likely build-out scenario. Show build-out by year and number of units/year.

<u>Unit Type</u>	<u>Number of Units</u>	<u>First 5-year Period</u>					<u>Second 5- year Period</u>				
		Yr 1	Yr 2	Yr 3	Yr 4	Yr 5	Yr 1	Yr 2	Yr 3	Yr 4	Yr 5
Single-family detached											
Multi-family											
Apartment											
Townhouse											
Other											

Note: If build-out is expected to go beyond the 10 year period above, please attach an additional table with build-out years until project completion.

2. Project number and type of residential dwelling units at build-out, as follows:

Unit Type	Number of Units	Typical Unit Floor Area (sq. ft.)	Estimated Price (\$) Per Unit	Number Restricted to 55+ Age Group
Single-family detached				
Multi-family				
Apartment				
Townhouse				
Other				

3. Please include a location map showing elementary, middle and high schools within a two-mile radius of the proposed project. If no schools are within a two-mile radius of the project, please indicate the nearest schools to the project.

Re: Loblolly LUPA

Dear Mr. Fitzwater:

O'Rourke Engineering & Planning has completed the traffic analysis of the proposed land use plan amendment for a change affecting 114.8 acres along Gomez Avenue in Martin County. The proposed amendment is structured to have an insignificant net impact. The steps in the analysis and the ensuing results are presented herein.

INTRODUCTION

O'Rourke Engineering & Planning was retained to prepare a traffic analysis for the proposed land use plan amendment affecting 114.8 acres along Gomez Avenue. The following components were addressed:

- Summary of the project description; existing land use and proposed land use
- Assessment of the change in trip generation
- Link Analysis

Each of these components is outlined herein.

PROJECT DESCRIPTION

The proposed land use plan amendment involves a "swap" of land use categories involving two parcels of land and an abandoned right-of-way located on Gomez Avenue in Martin County, Florida. The project location is shown in **Attachment A**.

The **existing future land use designation** for the 114.8 acres is as follows; FIND parcel – 62.97 acres of Conservation, Loblolly Community Service Corporation parcel 50.26 acres of Estate Density and 1.57 acres of right-of-way to be abandoned. In the existing future land use, the portion in Estate Density could allow up to 100 single family dwelling units.

In the **proposed future land use**, the 114.8 acres is designated as follows: FIND parcel – 62.03 acres of Conservation, the Loblolly Community Service District parcel – 51.20 acres of Estate

Density and the 1.57 acres of right-of-way to be abandoned. In proposed future land use condition, the Estate Density could allow up to 102 single family dwelling units.

TRIP GENERATION

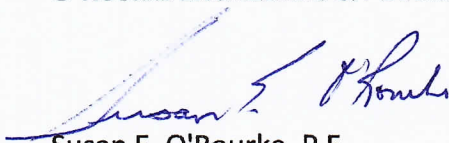

The additional two units would increase traffic by 19 daily trips and one AM and two PM peak hour trips. The trip generation under the existing future land use and the proposed future land use is shown in **Attachment B**.

LINK ANALYSIS

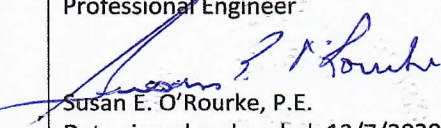

Gomez Avenue is a two- lane arterial with a capacity of 750 vehicles per hour in the peak hour/ peak direction. With an increase of 2 peak hour/ peak directional trips, the project impact is .28%. This impact is de minimis and does not require further analysis. **Attachment C** includes the capacity and volumes on Gomez Avenue for 2019 and 2040 conditions.

It has been a pleasure working with you, if you have any questions or comments, please do not hesitate to contact our office.

Respectfully submitted,
O'ROURKE ENGINEERING & PLANNING
