Comprehensive Planning Facts. The Future Land Use Map is adopted as part of the County's Comprehensive Growth Management Plan and is one of the primary tools for managing land development. The Future Land Use designation of a parcel of land determines the general type of use allowed, as well as the maximum level of density or intensity allowed (such as the number of residential units per acre). The zoning regulations provide one or more zoning districts for implementing each Future Land Use designation. The zoning designation of a parcel of land determines, in more detail than the Future Land Use designation, what type and level of development may occur. A change to the Future Land Use Map requires three public hearings as follows:

1. Local Planning Agency (which makes a recommendation to the Board of County Commissioners).
2. Board of County Commissioners (to determine whether the proposed amendment should be transmitted to the Florida Division of Community Planning, the state land planning agency that oversees and coordinates comprehensive planning).
3. Board of County Commissioners (to determine whether the proposed amendment should be adopted).

Public involvement opportunities: All interested persons are invited to attend any or all of the above-described hearings and will have an opportunity to speak. Written comments will be included as part of the public record of the application.
