

Timing is Everything

The screenshot displays the Playbooks Coverage System web application. The main interface features a calendar for August 2019, with various application areas like Greens, Tees, and Fairways highlighted. A sidebar on the left lists application types such as Fungicide, PGR, and Insecticide. Overlaid on the calendar are several data windows:

- Target PCs:** BROAD SPECTRUM, FERTILIZER, PGR. PRODUCT NAMES: PHOSPHITE 30, 46-0-0, PRIMO MAX, CUTLESS MEC, TEBU 3.6F, PHUSION KCS 0-0-25, SIL-SHIELD, EPSOM SALT, SEA 3, VOLITION P/C.
- NUTRIENTS FORECAST FOR 2019:** A table showing nutrient levels for Greens (LB/M YTD).
- ACTIVE INGREDIENTS FORECAST FOR 2019:** A table showing active ingredients for Greens (LB/M MTD).
- INVENTORY FORECAST FOR FUTURE USE:** A section for managing inventory, including a search bar and buttons for adding and printing inventory.
- AMTIDE FORECAST FOR 2019:** A table showing the amount of Tebu 3.6F (68.80 GAL).
- BASF:** A section for managing BASF products.

The interface is designed for golf course maintenance, providing a comprehensive overview of applications, nutrients, and inventory.
