A. Public Hearings

1. Comprehensive Plan Amendment 18-11, Leighton Farm Ave.

Request to consider a Future Land Use Map change from Agricultural Ranchette to General Commercial on a +-0.70 acres located just south of SW Martin Highway and adjacent to SW Leighton Farm Avenue.

Requested by: Nicki van Vonno, AICP, Growth Management Department Director

Presented by: Irene Szedlmayer, AICP, Sr. Planner, Growth Management Department

- *** Notification to surrounding property owners was provided
- *** Signs Posted and Advertising notices were provided
- *** The Requested Amendment is needed to accomplish an important County Transportation objective

Mr. Moir introduced Ms. Szedlmayer to review the request. Ms. Szedlmayer explained that the Board of County Commissioners approved an exchange of property with the Moyel Group, Inc., and directed an amendment of the Future Land Use Map be initiated to change the Future Land Use Designation of the subject property from Agricultural Ranchette to General Commercial.

- Resolution 18-5.15 is attached as Exhibit A to Staff Report.

The property exchange makes possible the realignment of SW Leighton Farm Avenue to form a 4-leg intersection with SW Deggeller Court at SW Martin Highway and create a safer and more efficient intersection.

The subject land abuts 10 acres of land owned by the Moyel Group that presently has the General Commercial Future Land Use designation.

Photos of the subject property, pending amendments of the Future Land Use Map, FLUM amendments since 1982, Adjacent FLU designations, soil Survey, and Adjacent Existing Land Use maps were displayed and reviewed.

Criteria covering change in the Future Land Use was provided (Staff Report, pgs. 9 & 10). Review of the 2007 decision to designate the adjacent 10 acres General Commercial Future Land Use, the determining in 2012 by the Martin County MPO in its Congestion Management Process Update to align SW Leighton Farm Ave. with SE Deggeller Court, along with the Board's decision (May, 2018) to exchange property with the Moyel Group, Inc., satisfy the criteria (para. [a]) and allow staff to recommend approval of the proposed amendment of the FLUM.

The Amendment is related to capacity improvements to SW Martin Highway between SW Citrus Blvd., and SW Martin Downs Blvd. The roadway segment

between SW Citrus Blvd. and the Fl. Turnpike is currently operating at LOS "F", and the Amendment satisfies the criteria in (para. [c]) and allows staff to recommend approval of the proposed amendment of the FLUM.

DISCUSSION:

Mr. Banfi supported the request. He asked how the current Right of Way (ROW) got a land use designation of GC-General Commercial since that isn't usually done to ROWs.

Ms. Szedlmayer explained in 2007 a land use amendment was reviewed in an anticipation of approval of a proposed site plan for Leighton Farm Avenue relocation and improvements.

Mr. Banfi commented on the legal descriptions being consistent with all the realigned properties land uses, and that nothing should be left out.

Mr. Moir commented on the .79 acres and if it was all of the easement.

Ms. Szedlmayer indicated that it was land that is not part of the ROW and the land use map was provided for the current ROW.

Ms. Storey noted the 2,500 ft. for notification outside the PUSD was correct.

Public Comment: None

- * **MOTION – MOVED** by Mr. Watson to approve the Comprehensive Plan Amendment 18-11, Leighton Farm Avenue to change the Future Land Use Map from Agricultural Ranchette to General Commercial on +-0.79 acres located south of SW Martin Highway and Adjacent to SW Leighton Farm Avenue.

**** SECONDED** by Mr. Watson

Carried UNANIMOUSLY

2. Comprehensive Plan Amendment 18-12, Leighton Farm Avenue Request to amend the text of Chapter 4, Land Use Element to extend the boundary of Figure 4-2, the Urban Service District, and related topics if warranted in other chapters.

Requested by: Nicki van Vonno, AICP, Growth Management Department Director

Presented by: Irene Szedlmayer, AICP, Sr. Planner, Growth Management Department

*** Notification to surrounding property owners was provided

*** Signs Posted and Advertising notices were provided

*** The Requested Amendment is the companion piece to CPA 18-11 for consistency in Chapter 4 and 11.

Ms. Szedlmayer reviewed the request and provided information from the Executive Summary on Resolution 18-5.5.16, CGMP Fig. 4-2, Urban Service District revised to align the boundary of the PUSD with the western edge of the new SW Leighton Farm Avenue alignment and increases the PUSD by approximately by 3.2 acres.

Photos: Fig. 1, Revision to the PUSD directed by Res. 18-5.16 and Fig. 2, Revision to the PUSD as recommended by staff (staff report, pg. 3/7) was provided, showing the PUSD existing area boundary in blue and new service area in green.

The Board was also asked to consider the recommendation that the boundary of the PUSD be extended approximately 100 ft. to the south so that the PUSD coincides with the land designated General Commercial Future Land Use (land subject of two previous site plans, approved in 2007, but never recorded). This alternative increases the PUSD by 5.12 acres, not 3.2 acres, (Fig. 2).

Mr. Banfi asked if the land east of the old Leighton Farm Avenue ROW was part of the development. Ms. Szedlmayer indicated it was not. Mr. Banfi discussed ownership and if the strategy was that everything labeled General Commercial is to be in the PUSD. He questioned the land west of that and why we were including it this time and excluding it from the land use.

Ms. Szedlmayer explained – the general mapping protocol is that the PUSD and SUSD goes over ROW lines. The Resolution of the Board directed that the PUSD be brought over to the new western boundary of Leighton Farm Avenue.

Mr. Banfi said if this is so, he hoped that the precedent will be treating everyone consistently, including ROWs.

Mr. Watson asked if the USB followed property lines.

Ms. van Vonno provided some history of the 1980's GIS maps, and the reasons why errors occurred, which was before the new technical equipment we now have available, providing accurately detailed GIS Maps for staff and applicants.

Mr. Moir commented on including the GC land use and the value of setting a precedent for the ROW easement boundary. Ms. van Vonno indicated you have to use the ROW, it is typically a greater distance than the constructed road.

Mr. Banfi said the ROW becomes part of the urban network. You might make it clear and say the road is providing service to this commercial development and is also in the USD.

Discussion ensued on a triangle piece of property to the north and cleaning that up.

Mr. Dulin noted the text of the CGMP 4-7 specifically describes the PUSD as being applicable to urban future land use designation, so it follows to a GC future land use designation. Hatching should not be there, and errors made earlier can be remedied now as part of this recommendation.

* **MOTION – MOVED** by Mr. Banfi to concur with staff’s recommendation and move for the correction of the southeast corner and triangular piece and correction on the Urban Service Boundary to coincide with the Land Use.

B. Requests and Presentations – None

b. Staff – Ms. van Vonno discussed possible agenda items for the next LPA meeting date scheduled for Thursday, October 18, 2018, at 7:00 pm.
