B. Project description and analysis

This is an application for a proposed amendment to the county Zoning Atlas for a Rural Density residential district designation pursuant to Section 3.2.E., Land Development Regulations (LDR), Martin County, Fla. (2002). A Zoning District change from the A-1, Small Farms District, to the RE-2A, Rural Estate District, or the most appropriate zoning district, is proposed for an approximately 17.12-acre subject site fronting the north side of SE 138th Street approximately 2,800 feet west of SE Powerline Avenue and spanning northward to within 730 feet of the south side of SE Bridge Road, in Hobe Sound. This application includes a request for a Certificate of Public Facilities Exemption.

The subject site is vacant and part of an overall larger contiguous site that has been subject to site grading and environmental improvements as part of an excavation and fill permit issued in 2013. The permit authorized the construction of 13.9-acre surface water lake, with the resultant fill retained on-site, and included the establishment of wetland and upland preserve areas and lake littoral plantings, with an approved preserve area management plan (PAMP).

The land use designation for the property on the Future Land Use Map (FLUM) of the County's Comprehensive Growth Management Plan (CGMP) is Rural Density. The current zoning on the property

is A-1, Small Farms District. The A-1 zoning was created in 1967 as a part of the County's original zoning regulations and was carried over to the current Article 3, Zoning Districts, Land Development Regulations (LDR), Martin County Code (MCC) as a Category C district, which is intended to be used until a rezoning to a Category A district is needed or required to accommodate proposed future uses of the property. The Category A districts were created to implement the land use policies of the CGMP. The current A-1 zoning of the subject property is not consistent with the Rural Density land use policies of the CGMP, pursuant to Section 3.402., LDR, Martin County Fla. (2016). Therefore, the request to rezone this site is considered mandatory.

There is one (1) standard zoning district that is available to implement the Rural Density land use policies of the CGMP, which is the RE-2A, Rural Estate District. In addition to the standard zoning district, the PUD (Planned Unit Development) District is also available as another option. The PUD District offers more design flexibility to applicants for proposed projects. In exchange, this requires additional benefits to the County and more controls by the County and the proposed rezoning must come forth concurrently with a site plan. The applicant is requesting to rezone the subject site to the standard RE-2A zoning district.

The choice of the most appropriate district for the subject property is a policy decision that the Local Planning Agency (LPA) and the Board of County Commissioners (BCC) are asked to consider based on the "standards for amendments to the zoning atlas" provided in Section 3.2 E., Land Development Regulations (LDR), Martin County Code (MCC). The following tables provide the permitted uses and the development standards for the available standard zoning district of RE-2A, followed by the standards for the existing A-1 zoning district.

Standards for Amendments to the Zoning Atlas

The Comprehensive Growth Management Plan (CGMP) requires that Martin County shall rezone individual parcels to the most appropriate zoning district consistent with the Land Development Regulations pursuant to Policy 4.4A.1., CGMP, Martin County, Fla. (2016).

Section 3.2.E., LDR, Martin County, Fla. (2002), provides the following “Standards for amendments to

the Zoning Atlas”.

1. *The Future Land Use Map of the CGMP (Comprehensive Growth Management Plan) establishes the optimum overall distribution of land uses. The CGMP also establishes a series of land use categories, which provide, among other things, overall density and intensity limits. The Future Land Use Map shall not be construed to mean that every parcel is guaranteed the maximum density and intensity possible pursuant to the CGMP and these Land Development Regulations. All goals, objectives, and policies of the CGMP shall be considered when a proposed rezoning is considered. The County shall have the discretion to decide that the development allowed on any given parcel of land shall be more limited than the maximum allowable under the assigned Future Land Use Category; provided, however, that the County shall approve some development that is consistent with the CGMP, and the decision is fairly debatable or is supported by substantial, competent evidence depending on the fundamental nature of the proceeding. If upon reviewing a proposed rezoning request the County determines that the Future Land Use designation of the CGMP is inappropriate, the County may deny such rezoning request and initiate an appropriate amendment to the CGMP.*
2. *In the review of a proposed amendment to the Zoning Atlas, the Board of County Commissioners shall consider the following:*
 - a. ***Whether the proposed amendment is consistent with all applicable provisions of the Comprehensive Plan; and,***

The subject property is designated for Rural Density residential land use on the Future Land Use Map (FLUM) of the Comprehensive Growth Management Plan (CGMP). The zoning implementation policies and requirements are contained in Article 3, Zoning Regulations, Land Development Regulations. Martin County Code identifies one standard zoning districts, the RE-2A District, as available to implement the Rural Density future land use classification, in addition to the PUD Zoning option.

Policy 4.13A.5.(1) of Chapter 4, Future Land Use Element, of the CGMP addresses the Rural Density land use designation:

Rural density (one unit per two acres) Rural lands shall be developed at a density of no more than one dwelling unit per two gross acres. This density recognizes the need to concentrate urban development on lands closer to the urban core where intensive facilities and services can be provided cost-effectively. This policy also provides reasonable development options to landowners whose property is on the fringe of secondary urban development in sparsely developed rural or rural suburban areas.

All Rural development shall have a maximum building height of 40 feet and maintain at least 50 percent of the gross land area as open space. Wetlands and landlocked water bodies may be used in calculating open space as long as at least 40 percent of the upland property consists of open space. Golf courses should be encouraged to retain and preserve native vegetation over 30 percent of the total upland area of the course due to their characteristically high water and nutrient loads. Golf courses may be used in calculating open space as long as 30 percent of the residential area consists of open space. This section shall not apply to construction of a single-family home on a lot of record.

Zoning regulations shall provide standards for these areas designed to ensure that development is compatible with the need to preserve their rural character. These standards shall reflect the high value placed on open space, need to preserve wetland areas, function and value of recharge areas, and need to minimize changes in natural hydrology. Standards governing agricultural land conversion in Policy 4.13A.1.(2) shall also be used as criteria in evaluating future plan amendment requests in areas designated for Rural development.

One accessory dwelling unit shall be allowed on Rural density lots of at least two acres as follows:

(a) An accessory dwelling unit shall not have more than one-half the square footage of the primary dwelling.

(b) It shall not count as a separate unit for the purpose of density calculations.

(c) Neither the accessory dwelling unit nor the land it occupies shall be sold separate from the primary dwelling unit.

(d) Accessory dwelling units shall not be approved until Martin County adopts amendments to the Land Development Regulations that implement this policy.

This application requests a rezoning of the property to the RE-2A Zoning District, which is the only Category A zoning district created specifically to implement the CGMP policies for lands designated Rural Density Residential on the Future Land Use Map of the CGMP. The criteria within the Land Development Regulations that implement the Comprehensive Plan policies for this land use will be applied through the development review application process at the time development of the site is proposed.

b. Whether the proposed amendment is consistent with all applicable provisions of the LDR; and,

The granting of a zoning change by the County does not exempt the applicant from any of the County's Land Development Regulations, and no development of the property is proposed as part of this application requesting a rezoning. The applicant must demonstrate full compliance with all regulations prior to any Development Order approval action taken by the County. The subject site is designated as Rural Density on the Future Land Use Map, the specific development standards of which are provided by the Article 3 zoning development standards. Proposed future development of the site will be required to meet all provisions of the LDR through the review of a development review application, with respect to the Land Development Regulation requirements including those related to roads, drainage, environmental protection, utilities, emergency services, landscaping, etc. A demonstration of full compliance with applicable County Codes will be required for development review staff to bring forth a recommendation of approval.

c. Whether the proposed district amendment is compatible with the character of the existing land uses in the adjacent and surrounding area and the peculiar suitability of the property for the proposed zoning use; and,

Pursuant to the Comprehensive Plan policies governing Rural Density future land use, this land use designation recognizes the need to concentrate urban development on lands closer to the urban core where intensive facilities and services can be provided cost-effectively, but provides reasonable development options to landowners whose property is on the fringe of secondary urban development in sparsely developed rural or rural suburban areas. Zoning regulations, and specifically the RE-2A zoning district, provides standards for these areas designed to ensure that development is compatible with the need to preserve their rural character. As shown in the figures contained in Section E below, the subject property is located within and at the boundary of the secondary urban service district. and within an area exhibiting rural characteristics. The site is contiguous with a large area predominantly designated for rural density land use, established via the FLUM between lands designated for agricultural use to the west and more intensive uses to the east such as industrial and low density residential. Additionally, the pattern of development established immediately adjacent to the north of the subject site and in near proximity currently consists of predominantly rural residential uses. Future redevelopment of the existing uses or the vacant lands in proximity to the site will be required to be consistent with the designated rural density land use policies. Therefore, based upon the pattern of the existing development, the consistency with the adjacent existing uses and future land use designations, and the suitability of the site for the proposed zoning, the RE-2A zoning district is the most appropriate zoning district to ensure that the property is developed in a manner compatible with the existing and anticipated character of the area.

d. Whether and to what extent there are documented changed conditions in the area; and,

The requested zoning district of RE-2A is the only standard Category A zoning district that is consistent with the site's future land use designation. This requested zoning district permits rural residential uses consistent with those existing adjacent to the site and in the immediate vicinity. The parcel is located within, and on the boundary of, the secondary urban service district and the required minimum lot sizes of the proposed zoning district are consistent with the designated land use policies and with the rural character and appropriate densities for anticipated availability and/or demands upon available public services. A review of local permitting and historical aerials indicates that the rural residential and agricultural uses established in the area have predominantly been present for over two decades and remain primarily unchanged. Future development in the area will be required to be consistent with the same designated land use policies pursuant to the designated Rural Density future land use. Therefore, the proposed RE-2A zoning is compatible with the existing historical development and is the most appropriate for this property.

e. Whether and to what extent the proposed amendment would result in demands on public facilities; and,

The subject property is located within the Secondary Urban Services District of the County. The Rural Density land use designation is identified in Policy 4.13.A.5. of the Comprehensive Growth Management Plan (CGMP) as lands allocated for development in a manner intended to protect the value of rural suburban lands located outside the normal economical service radius of intensive (primary) urban services. The Future Land Use Map (FLUM) has designated the subject site for a residential use with a maximum density of 1 unit per 2 acres, which implements policy 4.7B.1., CGMP, which states, "In the Secondary Urban Services District, Martin County shall designate land uses that (1) will provide for the efficient and economical use and extension of urban services, and (2) are consistent with the reduced

intensity of urban services normally associated with densities of one unit per gross acre (Estate Density RE-1A) and one unit per two gross acres (Rural Density).” Sanitary sewer services are not available at the site and the minimum required lot area for residential use per the Rural Density land use classification is consistent with the requirements of the CGMP, Chapter 10 Sanitary Sewer Elements for the utilization of on-site septic disposal and treatment systems. The proposed RE-2A Rural Estate District is consistent with the appropriate densities and public services available at the base level of service adopted in the Capital Improvements Element for lands located within the Secondary Urban Service District. Any proposed development for the site would be required to demonstrate that adequate public services are accommodated and reserved for the proposed use in conformance with the Land Development Regulations and Comprehensive Growth Management Plan requirements at the time of development review prior to a recommendation of approval from Staff for any development of the site.

- f. Whether and to what extent the proposed amendment would result in a logical, timely and orderly development pattern which conserves the value of existing development and is an appropriate use of the county's resources; and,*

This rezoning action does not authorize any development and redevelopment of this site will be subject to Growth Management and Building department and zoning review prior to authorization of construction. The subject site has been designated for Rural Density future land use on the Future Land Use Map of the Comprehensive Growth Management Plan. Therefore, the use of the site for development in accordance with the requirements for Rural Density land use, and with the requested RE-2A zoning district, which implements the Rural Density land use goals, has been established on the site in addition to property adjacent to the site. The extension of this pattern to the subject property through the assignment of the requested RE-2A zoning district is suitable, contemplated and supported by the CGMP.

- g. Consideration of the facts presented at the public hearings.*

The subject application requires a public hearing before the Local Planning Agency, who will make a recommendation on the request; and, before the Board of County Commissioners, who will take final action on the request. The two hearings will provide the public an opportunity to participate in the review and decision making process.

C. Staff recommendation

Dear Nicki:

We are pleased to submit this application for a mandatory rezoning from A-1 to RE-2A. As more specifically described in the enclosed project narrative, the approximately 17-acre tract is designated for Rural Density future land use and zoned A-1. To bring the zoning into conformity with the future land use designation, a mandatory rezoning to RE-2A is required. This finding was confirmed at a pre-application workshop on March 28, 2019.

With this understanding, please find enclosed the sufficiency review fee check in the amount of \$290.00, the CD with PDF copies of the application materials, and the original application package containing the following materials:

1. Application form;
2. Digital submittal affidavit;
3. Project narrative;
4. The owner's notarized power of attorney for representation by Lucido & Associates;
5. The Disclosure of Interest Affidavit;
6. The recorded deed documenting ownership by BR 24 LLC;
7. The no transfer statement;
8. The sketch and legal description;
9. Aerial map;
10. Parcel assessment map;
11. Future land use map;
12. Zoning map; and
13. School impact worksheet.

The list of surrounding property owners will be provided prior to the public hearing.

Upon a determination of completeness, we will submit the mandatory application fee in the amount of \$1,000.00.

Please feel free to contact me or my assistant, Shirley Lyders, if you have any questions or comments.

NOTICE OF AGENCY ACTION

Notice is hereby provided that the South Florida Water Management District, on May 23, 2019, issued a permit modification to Environmental Resource permit (permit) with conditions, Permit No. 47-00051-S, Application No. 170310-5 to Evans Grove Lands, LLC, 660 Beachland Blvd, Suite 301, Vero Beach, FL 32963 for construction and operation of a 7,444.00 acre dispersed water storage (DWVS) project known as Scott Water Farm, located in Okeechobee County, Florida, Sections 1-3 and 10-15, Township 34S, Range 36E, and Indian River County, Florida, Sections 30-31, Township 33S, Range 37E.

A copy of the permit can be obtained by contacting the Regulatory Records Management Section, during normal business hours, 8:00 a.m. to 5:00 p.m., Monday through Friday, except legal holidays, at 3301 Gun Club Road, West Palm Beach, FL 33406, Regulatory Division, by telephone at 561-682-6911, by e-mail at permits@sfwmd.gov, or by accessing the permit directly from the District's website (www.sfwmd.gov) using the Application/Permit Search on the ePermitting page.

The District's agency action is final unless a timely petition for an administrative hearing is filed under Sections 120.569 and 120.57 of the Florida Statutes before the deadline for filing a petition.

As required by Sections 120.569 and 120.60(3), Fla. Stat., the following is notice of the opportunities which may be available for administrative hearing or judicial review when the substantial interests of a party are determined by an agency. Please note that this Notice of Rights is not intended to provide legal advice. Not all of the legal proceedings detailed below may be an applicable or appropriate remedy. You may wish to consult an attorney regarding your legal rights.

RIGHT TO REQUEST ADMINISTRATIVE HEARING

A person whose substantial interests are or may be affected by the South Florida Water Management District's (SFWMD or District) action has the right to request an administrative hearing on that action pursuant to Sections 120.569 and 120.57, Fla. Stat. Persons seeking a hearing on a SFWMD decision which affects or may affect their substantial interests shall file a petition for hearing with the Office of the District Clerk of the SFWMD, in accordance with the filing instructions set forth herein, within 21 days of receipt of written notice of the decision, unless one of the following shorter time periods apply: (1) within 14 days of the notice of consolidated intent to grant or deny concurrently reviewed applications for environmental resource permits and use of sovereign submerged lands pursuant to Section 373.427, Fla. Stat.; or (2) within 14 days of service of an Administrative Order pursuant to Section 373.119(1), Fla. Stat. "Receipt of written notice of agency decision" means receipt of written notice through mail, electronic mail, or posting that the SFWMD has or intends to take final agency action, or publication of notice that the SFWMD has or intends to take final agency action. Any person who receives written notice of a SFWMD decision and fails to file a written request for hearing within the timeframe described above waives the right to request a hearing on that decision.

If the District takes final agency action which materially differs from the noticed intended agency decision, persons who may be substantially affected shall, unless otherwise provided by law, have an additional Rule 28-106.111, Fla. Admin. Code, point of entry. Any person to whom an emergency order is directed pursuant to Section 373.119(2), Fla. Stat., shall comply therewith immediately, but on petition to the board shall be afforded a hearing as soon as possible.

A person may file a request for an extension of time for filing a petition. The SFWMD may, for good cause, grant the request. Requests for extension of time must be filed with the SFWMD prior to the deadline for filing a petition for hearing. Such requests for extension shall contain a certificate that the moving party has consulted with all other parties concerning the extension and that the SFWMD and any other parties agree to or oppose the extension. A timely request for an extension of time shall toll the running of the time period for filing a petition until the request is acted upon.
