As you have indicated there is much to gain from a successful Seafood Festival and there is a balance necessary to maintain the integrity of the neighborhood host. I understand some of the advantages of a two day event and support moving forward with this plan. One caveat is that the opportunity to maintain a voice in the assessment of the impact on our neighborhood after the 2020 event not be lost and future events be contingent on our ongoing consent. I look forward to further dialogue.

We are moving forward with our plans for the two-day Port Salerno Seafood Festival. However, we have not yet received full County endorsement for this. The County has asked us to do another survey on the forms that they have provided, where they want your signature next to your address. The results of the new poll will go to the County Commissioners on October 22nd. If you could respond to this mail stating that you do support us moving to a two-day event, with your name and address at the bottom, that would be greatly appreciated. I can include that with the poll results.
