

TOTALS	Old Score	New Score	Comments
Jenn Garrett - Option 1 - Walk Through the Rainbow	325	425	Technical information clarified
Jenn Garrett - Option 2 - Rainbow Reading Nook	243	-	
Kirk Sees - Magnify	458	481	Still worried about the artist understanding of how materials will hold up to the environmental conditions
Mohamed Chabarick - Mosaic Montage	238	-	
Nadia Utto - From A to Z	215	248	Project will not enhance the site. Lacks interactive component - climbing on concrete book and 10" tall letters is not an interactive experience for most people. While I appreciate the resubmission effort, I still am not wowed by the idea of cement sculptures. Maintenance and landscaping issues along with safety concerns.
