**Re: CPA 19-5 (Text) and CPA 19-6 (FLUM) KL Waterside, LLC (fka Neill Parcels)
(Our ref. #20-310) Revised Application**

Dear Paul:

On behalf of the current property owner, KL Waterside, LLC, please accept this correspondence and the enclosed materials as a revised application for pending Comprehensive Plan Amendments (CPA) 19-5 and CPA 19-6.

As you know, the 500-acre (+/-) subject property is located south of SW 96th Street between the St. Lucie Canal (Okeechobee Waterway) and SR 76 (SW Kanner Highway).

As more particularly described in the enclosed project narrative, approximately half of the property is located within the Primary Urban Service District. It is currently vacant and consists of approximately 250 acres of Industrial and Waterfront Commercial future land use, which fronts on the St. Lucie Canal and SW 96th Street, and approximately 250 acres of Agricultural land use, which fronts on SW Kanner Highway. Existing Comprehensive Plan Policy 4.1B.2 (2)(c) restricts the maximum non-residential development intensity on the property to 1.6 million square feet (sf).

The primary purpose of the revised Comprehensive Plan amendments is to relocate the existing 1.6 million square feet of non-residential land uses allocated in Comprehensive Plan Policy 4.1B.2 (2)(e) from the SW 96th Street frontage to the Kanner Highway frontage to support final site plan applications for limited industrial and targeted business industries such as a warehouse/distribution or logistics company or a data center.

The proposed amendment converts the existing Waterfront Commercial land use to Industrial and relocates the Industrial future land use to the Kanner Highway frontage. It does not result in the expansion of the Primary Urban Service District or increase the intensity of non-residential development allowed on the property.

With this understanding, please find enclosed the following materials:

- Project narrative;
- Location map;
- Parcel map;
- Current aerial with proposed land use and zoning;
- Current and proposed future land use map;
- Current and proposed zoning map;
- Current and proposed Primary Urban Service District;
- Current and Proposed Figure 4-2;

- Revised Figures 11-1 and 11-2; and
- CPA Policies (revised text).

As you know, we have submitted a request for a pre-application workshop for a logistics company and are scheduled for the August 20th meeting agenda. In order to move forward with a final site plan application please confirm scheduling the CPAs for the September 3rd Local Planning Agency (LPA) public hearing and the September 29, 2020 County Commission meeting.

If you have any questions or need additional information, please feel free to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Morris A. Crady". The signature is fluid and cursive, with the first name "Morris" being more prominent than the last name "Crady".

Morris A. Crady, AICP
Senior Vice President
ENCL.

PROJECT NARRATIVE
KL Waterside, LLC
CPA 19-5 (Text) and 19-6 (FLUM)
July 27, 2020

Property Characteristics

The 500-acre (+/-) subject property is located south of SW 96th Street between the St. Lucie Canal (Okeechobee Waterway) and SR 76 (SW Kanner Highway). The property has been farmed for several decades and contains no natural wetlands or native upland habitat. It is currently vacant and consists of approximately 250 acres of Industrial and Waterfront Commercial future land use, which fronts on the St. Lucie Canal and SW 96th Street, and approximately 250 acres of Agricultural land use, which fronts on SW Kanner Highway. Existing Comprehensive Plan *Policy 4.1B.2 (2)(c)* restricts the maximum non-residential development intensity on the property to 1.6 million square feet (sf).

Surrounding Property Characteristics

The properties to the south and west of the subject site includes vacant Agricultural land use with an A-2 zoning district. These properties have not been developed or farmed and contain wetlands and native upland habitat consistent with the natural soil type. The property to the south is physically separated from the subject property by an existing 100' wide perpetual easement that includes a drainage canal maintained by the Florida Department of Transportation. The 50' portion of the canal easement on the subject property is being retained in the Agricultural land use category and A-2 zoning district.

The majority of the property to the north consists of lands designated for Agricultural land use that has been previously cleared and maintained as improved pasture. Several single family ranches occur along the Kanner Highway frontage within the Agricultural Ranchette future land use category and A-2 zoning district. The properties at the intersection of Kanner Highway and along SW 96th Street, which are located within the Primary Urban Service District, include an existing gas station/convenience store within the Commercial General future land use category.

Comprehensive Plan Amendments

The primary purpose of the pending Comprehensive Plan amendments is to relocate the existing 1.6 million square feet of non-residential land uses allocated in Comprehensive Plan *Policy 4.1B.2 (2)(c)* from the SW 96th Street frontage to the Kanner Highway frontage to support final site plan applications for limited industrial and targeted business industries such as a warehouse/distribution or logistics company or a data center. The relocation of the Industrial land use does not increase or expand the area of the Primary Urban Service District (PUSD) or increase the development intensity currently allowed within the PUSD.

CPA 19-5 (Text)

The proposed text amendment to *Policy 4.1B.2 (2)* is also designed to...

- Prohibit industrial truck traffic from accessing SW 96th Street;
- Allow approval of projects by way of a standard minor or major development application; and
- Allow the building footprint of warehouse/distribution facilities to be up to a 1,050,000 sf with a 40' interior ceiling height.

To accommodate the relocation of the Industrial land use to the Kanner Highway frontage, a text amendment to relocate the existing Primary Urban Service District is also included. Specifically, *Policy 4.13A.10 Industrial development*, has been revised to recognize the Industrial land use category on the property as a “Freestanding Urban Service Area”.

Figure 4-2, Urban Service Districts has been revised accordingly.

To ensure consistency with similar Comprehensive Plan policies, the Industrial land use category on the subject property has also been added as an exception to location within the PUSD per *Policy 4.7A.3.1* and *Policy 4.7A.C., Exceptions to location within the Primary Urban Service District*, and *Policy 4.7A.14. Allowable density outside the Primary Urban Service District*.

According to preliminary investigations, Martin County water and wastewater service lines are available at the intersection of Kanner Highway and SW 96th Street and the County currently has sufficient capacity to service the proposed project. To ensure service by Martin County Utilities, the proposed Comprehensive Plan text amendment includes an amendment to *Figures 11-1* and *11-2* to show the subject property within the service area of Martin County Utilities.

CPA 19-6 (FLUM)

To be consistent with the text amendments described above, the following changes to the Future Land Use Maps (FLUM) are proposed:

<u>Future Land Use (Zoning)</u>	<u>Existing</u>	<u>Proposed</u>
Agricultural (AG-20A)	0 acres	243.4 acres
Agricultural (A-2)	249.1 acres	6.0 acres
Industrial (LI)	175.4 acres	250.0 acres
Commercial Waterfront (WGC)	<u>74.9</u> acres	<u>0.00</u> acres
Total:	499.4 acres	499.4 acres

Proposed Project (Submitted as Pre-Application Workshop)

Concept plans for two alternatives for the development of approximately 80 to 100 acres of the Kanner Highway frontage have been submitted that could include a warehouse building with an interior ceiling height of 40 feet and single building footprint of approximately 1,050,000 square feet (sf).

One alternative shows a series of smaller 200,000 sf buildings with a similar access point on Kanner Highway and future mixed use development to the south with a southern access road to Kanner Highway. The site plan concepts include potential warehouse building locations, proposed private roads, proposed access onto Kanner Highway, retention areas, access and surface parking for employees and access and loading areas for truck-loading and maneuvering.

Both concepts are expected to generate approximately 100 million in taxable value and 200 to 400 high wage jobs.

Both concepts identify warehouse buildings set back a minimum of 600 feet from the highway to avoid the need for architectural enhancements required by the County’s commercial building design ordinance.

“Future development” has been shown on the frontage of Kanner Highway, which may consist of flex-warehouse, office and retail space in buildings that will be required to meet the architectural requirements of the commercial building design ordinance.

Both concepts provide road connections to the west property to provide access for future development. However, industrial truck traffic will be prohibited from accessing SW 96th Street by way of the pending CPA text amendment.

Traffic Impact

The proposed Comprehensive Plan amendments relocate the existing 1.6 million square feet of non-residential building area allocated in *Policy 4.1B.2 (2)(c)* from the SW 96th Street frontage to the Kanner Highway frontage and prohibits industrial truck traffic from using SW 96th Street. There is no increase in development intensity or expansion of the area within the Primary Urban Service District. The allocation of Industrial land use on SR 76 is supported by market demand for highway frontage and the Florida Department of Transportation's (FDOT) widening of SR 76 from the I-95 Interchange to the intersection of SW 96th Street, which is currently underway. No additional traffic impact is generated by the proposed Comprehensive Plan amendments.

Warranty Deed

(STATUTORY FORM - SECTION 689.02, F.S.)

This Indenture made this 16th day of April, 2020 between James David Neill, Richard V. Neill, Jr., as Trustee of the NexGen Neill Trust dated April 15, 2020, Bearron, LLC, a Florida limited liability company, and George T. Pantuso as Trustee of the Pantuso Family Irrevocable Trust Dated February 1, 2005 (collectively "Grantor"), whose address is in care of Richard V. Neill, Jr., at the address above, each as to an undivided one-fifth (1/5th) interest, and KL WATERSIDE LLC, a Delaware limited liability company ("Grantee"), whose post office address is 105 NE 1st Street, Delray Beach, FL, 33444 of the County of Palm Beach, State of Florida,

Witnesseth that said Grantor, for and in consideration of the sum of TEN AND NO/100 DOLLARS (\$10.00) and other good and valuable considerations to said Grantor in hand paid by said Grantee, the receipt whereof is hereby acknowledged, has granted, bargained, and sold to the said Grantee, and Grantee's heirs and assigns forever, the following described land, situate, lying and being in Martin County, Florida, to-wit:

AN UNDIVIDED FOUR-FIFTHS (4/5) INTEREST IN THE FOLLOWING DESCRIBED PROPERTY:

Lot 3, South 1/2 of Lot 4, Lots 5, 6, 9, 10, 11, 12, 13, 14, 15, 16, Section 13; Lot 1 lying Southeast of St. Lucie Canal, Section 14, all in Township 39 South, Range 40 East; and Lots 12 and 13 Northwest of State Road 76, Section 18, Township 39 South, Range 41 East, of Tropical Fruit Farms, according to plat thereof filed August 18, 1913, recorded in Plat Book 3, Page 6, Palm Beach(now Martin) County, Florida.

Less and Excepting: That part of;

Tract 3 in Section 13, Township 39 South, Range 40 East, according to the plat of Tropical Fruit Farms as recorded in Plat Book 3, Page 6 in the public records of Palm-Beach County, Florida, said part of said Tract 3 more particularly described as follows:

Commencing at the common corner of Sections 11, 12, 13 and 14, Township 39 South, Range 40 East, run Easterly along the North line of said Section 13 a distance of 1320.16 feet to the West line of said Tract 3 and the Point of Beginning; Thence run Southerly along the West line of said Tract 3 a distance of 160.94 feet; Thence North 81° 43' 46" East a distance of 40.05 feet; Thence North 8° 16' 14" West a distance of 25 feet; Thence North 81° 43' 46" East a distance of 549.08 feet to a point in said existing Southerly Right-of-Way line; Thence North 0° 08' 37" East a distance of 50 feet to the North line of said Section 13; Thence North 89° 51' 23" West along the North line of said Section 13 a distance of 579.15 feet to the Point of Beginning; Less and excepting the existing Right-of-Way of State Road No. S-76A, all as shown on the Right-of-Way Map of Section 89531--2602, State Road No. S-76-A.

SUBJECT TO RESTRICTIONS, RESERVATIONS AND EASEMENTS OF RECORD, IF ANY, WHICH REFERENCE SHALL NOT OPERATE TO REIMPOSE THE SAME, AND TAXES FOR THE YEAR 2020 AND THEREAFTER.

Comprehensive Plan Text Amendments

(underlined text added, ~~strike thru~~ text deleted, **highlighted** for clarity)

Policy 4.1B.2. Analysis of availability of public facilities. All requests for amendments to the FLUMs shall include a general analysis of (1) the availability and adequacy of public facilities and (2) the level of services required for public facilities in the proposed land uses. This analysis shall address, at a minimum, the availability of category A and category C service facilities as defined in the Capital Improvements Element. No amendment shall be approved unless present or planned public facilities and services will be capable of meeting the adopted LOS standards of this Plan for the proposed land uses. The Capital Improvements Element or other relevant plan provisions and the FLUMs may be amended concurrently to satisfy this criterion. The intent of this provision is to ensure that the elements of the CGMP remain internally consistent.

Compliance with this provision is in addition to, not in lieu of, compliance with the provisions of Martin County's Concurrency Management System. When a map amendment is granted under this provision, it does not confer any vested rights and will not stop the County from denying subsequent requests for development orders based on the application of a concurrency review at the time such orders are sought.

Martin County may adopt sub-area development restrictions for a particular site where public facilities and services, such as arterial and collector roads, regional water supply, regional wastewater treatment/disposal, surface water management, solid waste collection/disposal, parks and recreational facilities, and schools, are constrained and incapable of meeting the needs of the site if developed to the fullest capacity allowed under Goal 4.13 of this Growth Management Plan. The master or final site plan for a site that is subject to such sub-area development restrictions shall specify the maximum amount and type of development allowed. Sub-area development restrictions apply to the following sites:

- (1) The tract of real property described in the Warranty Deed recorded at OR Book 2157, Page 2403, of the Public Records of Martin County, which is limited to 365,904 square feet of nonresidential use, consistent with the assigned future land use designation, and on which residential uses shall not be allowed.
- (2) The development of the tract of real property described in the Warranty Deed recorded in OR **Book 22393124, Page 24981023**, Public Records of Martin County, Florida, shall be restricted and managed as follows:
 - (a) Uses on the subject property shall be limited to nonresidential uses. Residential uses shall not be permitted.
 - (b) Uses on the property shall be consistent with the future land use designations for the property and the applicable land use policies of the Martin County Comprehensive Growth Management Plan (CGMP).
 - (c) ~~The maximum intensities of uses on the subject property contained within a building or buildings shall not exceed 1,600,000 square feet.~~ **The net inbound AM peak hour trips generated by all uses shall be limited to 950 trips.**
 - (d) **All future applications for development approval within the Industrial future land use category shall be processed as a Planned Unit Development (PUD) or as a major or minor development pursuant to the LI zoning district.**

- (e) The maximum intensities of all uses contained within a building or buildings shall not exceed 500,000 square feet on the subject property (of which up to 25,000 square feet may be in marina uses) prior to December 1, 2015. Warehouse and distribution facilities shall be allowed a building footprint up to 1,050,000 square feet.
- (f) Notwithstanding Policy 2.1A.1(3) and Policy 4.13A.10, warehouse and distribution facilities shall be allowed a maximum building height of 47 feet.
- (g) Truck traffic generated by the Industrial future land use category shall be prohibited from accessing SW 96th Street.

Policy 4.13A.10. Industrial development. The FLUM allocates land resources for existing and anticipated future industrial development needs. The allocation process gives high priority to industry's need for lands accessible to rail facilities, major arterials or interchanges, labor markets and the services of the Primary Urban Service District (Figure 4-2). Industrial development includes both Limited Impact and Extensive Impact Industries. Limited Impact Industries include research and development, light assembly and manufacturing. Extensive Impact Industries include heavy assembly plants, manufacturing/processing plants, fabricators of metal products, steam/electricity co-generation plants and uses customarily associated with airports.

Editor's note— Figure 4-2 is on file in the office of the Martin County Growth Management Department.

Private development of airport property shall be subject to an Airport Zoning District or Planned Unit Development (Airport) Zoning District, when such a district is adopted to implement this policy.

The locational criteria require that all development in areas designated Industrial shall provide assurances that regional water distribution and wastewater collection utilities shall be provided by a regional public utility system, as described in the Sanitary Sewer Services Element and the Potable Water Services Element. Areas of the County where freestanding urban services (i.e., regional utility system) can be provided by a group of industrial users may be considered as independent or freestanding urban service districts. They may be illustrated as such on Figure 4-2 in conjunction with formal amendments to the FLUM as provided in [section 1.11](#), Amendment Procedures. All such freestanding urban service districts must comply with the adopted LOS standards in this Plan and the Capital Improvements Element.

The Seven Js Industrial Area (which covers the same area as the plat of Seven Js Subdivision, recorded in Plat Book 15, Page 97 of the Public Records of Martin County, Florida) is hereby established as a Freestanding Urban Service District. Any package wastewater treatment plants constructed in it shall be fully funded and maintained by the landowner.

The AgTEC future land use category is hereby established as a Freestanding Urban Service District.

The Industrial land use category on the tract of real property described in the Warranty Deed recorded in OR Book 3124, Page 1923, Public Records of Martin County, Florida, is hereby established as a Freestanding Urban Service District.

Industrially designated areas are not generally adaptive to residential use, and they shall not be located in areas designated for residential development unless planned for in a mixed-use development allowed under Goal [4.3](#) or in a large-scale PUD.

This provision shall not prohibit residences for night watchmen or custodians whose presence on industrial sites is necessary for security purposes. Such a use may be permitted through the Land Development Regulations.

Residential use is permitted in the Industrial future land use designation as part of a mixed-use project in a CRA, pursuant to Policy 18.2G.1. or Policy 18.3A.2.(1), except as restricted by the LDR. Residential densities shall not exceed 15 dwelling units per acre and may be further limited in the LDR.

Based on the extensive impacts that industrial development frequently generates, industrial development shall be encouraged to develop under provisions of a PUD zoning district to give the applicant maximum design flexibility and to avoid major unanticipated adverse impacts.

The Land Development Regulations shall be amended to include performance standards for regulating the nuisance impacts sometimes associated with intense commercial and industrial development. Sites acceptable for development by limited impact industries shall contain a minimum of 15,000 square feet, maximum building coverage of 40 percent and maximum building height of 30 feet. Sites better suited for development by extensive impact industries shall have a minimum lot size of 30,000 square feet, maximum building coverage of 50 percent and maximum building height of 40 feet. Minimum open space for either use shall be 20 percent. The FAR shall be governed by the parking standards of the Land Development Regulations. Salvage yards shall be considered an industrial use due to the potential intensity and nature of the use, acreage requirements, aesthetic impact and associated heavy truck traffic.

Policy 4.7A.3. Exceptions to location in the Primary Urban Service District. All future development of a use or intensity that requires public urban facilities, including water and sewer, will be permitted only in the Primary Urban Service District. The only exceptions are for the currently approved developments below:

- (1) Jonathan Dickinson State Park, as contained in Policy 10.1A.7. and Policy 11.1C.10.;
- (2) Lots 67, 68, 75, 89, 90, 119 through 122 and lots 191 through 220 of Canopy Creek PUD (f/k/a Tusawilla PUD as recorded in Plat Book 16, Pages 039-001 to 039-036, Public Records of Martin County, Florida).
- (3) Bridgewater Preserve as recorded in Plat Book 16, Pages 033-001 to 033-007, Public Records of Martin County, Florida. Any increase in residential density shall require approval by the Board of County Commissioners for a PUD Zoning Agreement and revised master/final site plan which is consistent with the Rural Density future land use designation and requires that the project connect to the existing potable water and sanitary sewer lines.
- (4) Seven J's Industrial Subdivision, as recorded in Plat Book 15, Page 97 and/or any replat or redevelopment of the property contained within the plat recorded in Plat Book 15, Page 97.
- (5) The County landfill, parcel number 07-38-40-000-000-00020-7.
- (6) Martingale Commons PUD f/k/a Palm City 95 PUD.
- (7) Sheriff's Shooting Range, parcel number 08-38-40-000-000-00011-0.
- (8) Parcel number 28-40-42-000-000-00020-5, parcel number 28-40-42-000-000-00040-1, parcel number 28-42-000-000-00011-0, and parcel number 21-40-42-004-000-00005-0 on S.E. Island Way.
- (9) The Industrial land use category on the tract of real property described in the Warranty Deed recorded in OR Book 3124, Page 1023, Public Records of Martin County, Florida.

Policy 4.7A.3.1. All future development of a use or intensity that requires public urban facilities, including water and sewer, will be permitted only within the Primary Urban Service District, except the following facilities may be served with water and sewer service:

(1) The Martin Correctional Institution, consistent with an interlocal agreement between Martin County, the City of Port St. Lucie and the Florida Department of Corrections for service to be provided by the City of Port St. Lucie.

(2) The 107-acre parcel of County owned land located on the north side of SW Citrus Boulevard, approximately 2,000 feet east of the Indiantown airport, parcel number 03-40-39-000-000-00011-0 and parcel number 34-39-39-000-000-00021-0.

(3) The Industrial land use category on the tract of real property described in the Warranty Deed recorded in OR Book 3124, Page 1023, Public Records of Martin County, Florida.

Policy 4.7A.14. Allowable development outside the Primary Urban Service District. The following forms of development are recognized exceptions to the general prohibitions on development outside of the Primary Urban Service District set forth in Policies 4.7A.1. through 4.7A.13.:

(1) The County landfill, parcel number 07-38-40-000-000-00020-7.

(2) The AgTEC land use category as set forth in Policy 4.13A.9.

(3) Facilities in Jonathan Dickinson State Park, as set forth in Policy 10.1A.7. and Policy 11.1C.10.

(4) Seven J's Industrial Area, as recorded in Plat Book 15, Page 97 and/or any replat or redevelopment of the property contained within the plat recorded in Plat Book 15, Page 97.

(5) Martingale Commons PUD f/k/a Palm City 95 PUD.

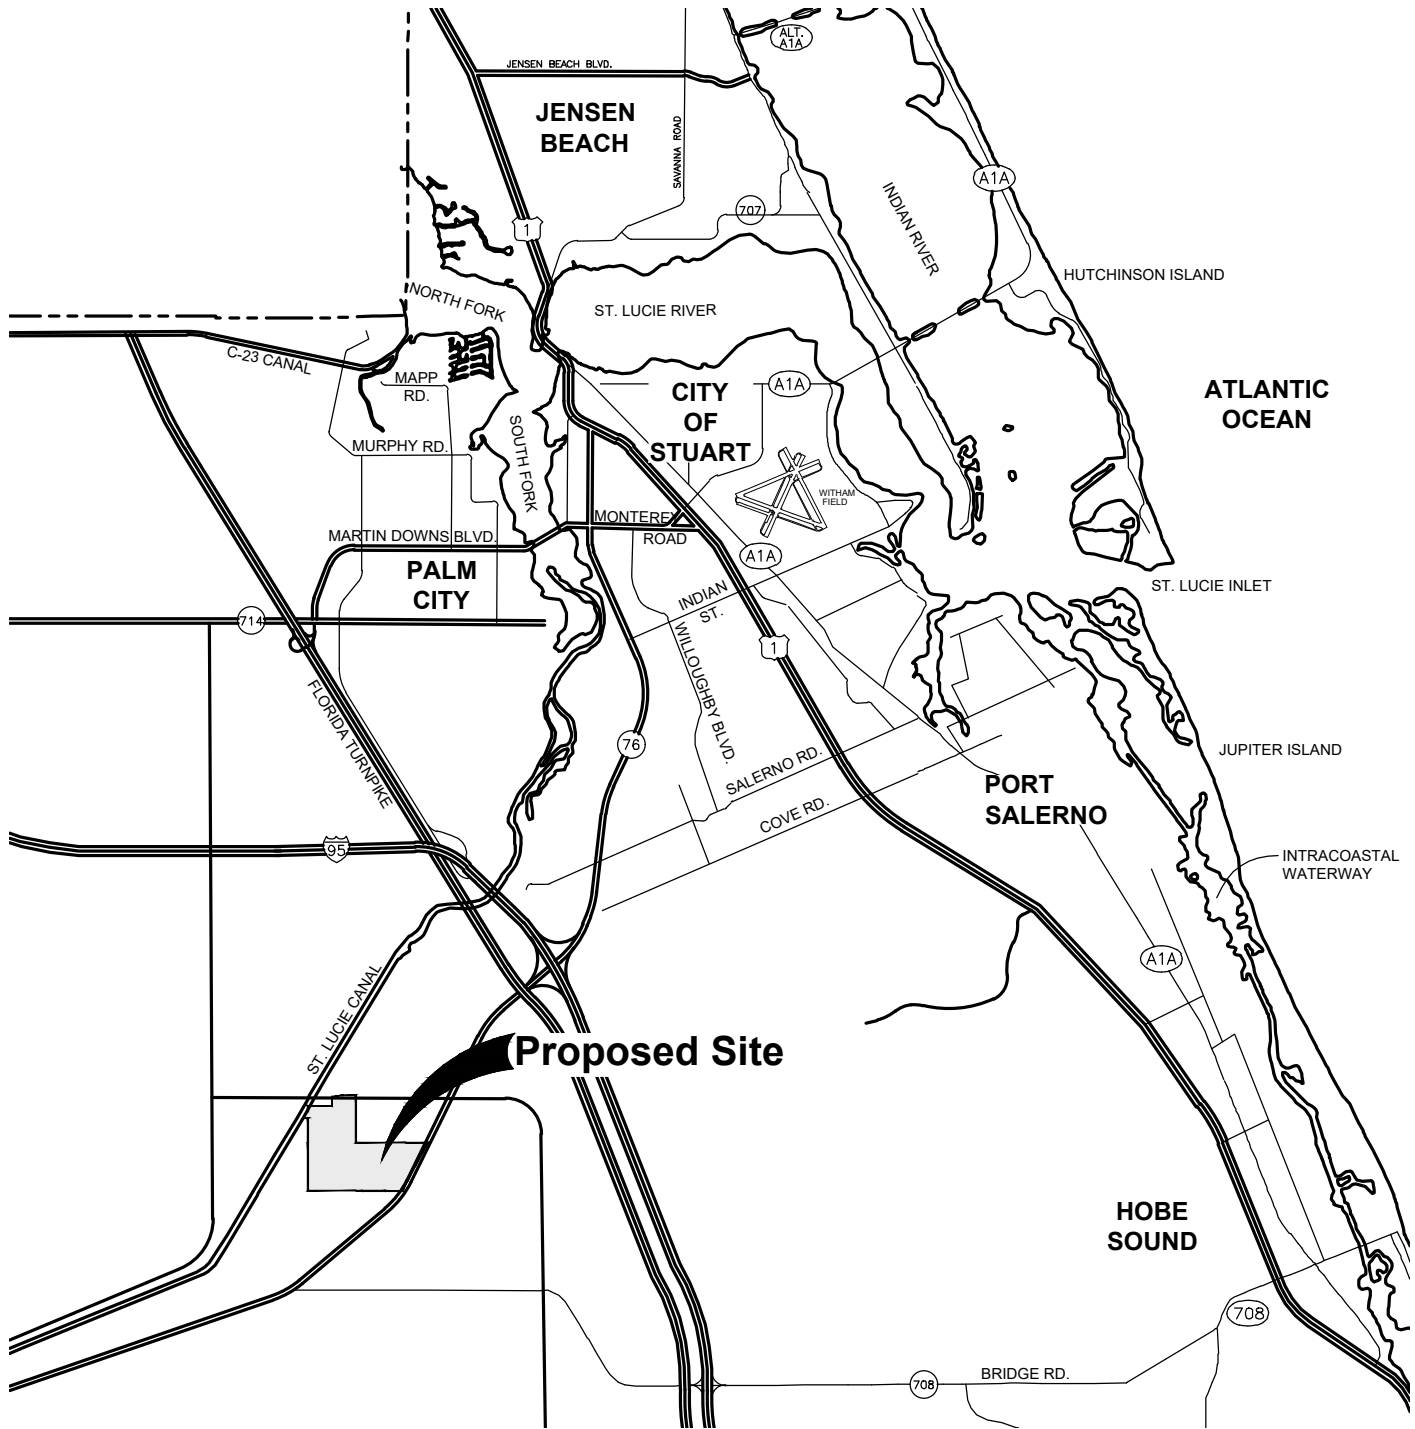

(6) Sheriff's Shooting Range, parcel number 07-38-40-000-000-00030-5.

(7) Parcel number 28-40-42-000-000-00020-5, parcel number 28-40-42-000-000-00040-1, parcel number 28-42-000-000-00011-0, and parcel number 21-40-42-004-000-00005-0 on S.E. Island Way.

(8) The 107-acre parcel of County owned land located on the north side of SW Citrus Boulevard, approximately 2,000 feet east of the Indiantown airport, parcel number 03-40-39-000-000-00011-0 and parcel number 34-39-39-000-000-00021-0.

(9) The Industrial land use category on the tract of real property described in the Warranty Deed recorded in OR Book 3124, Page 1023, Public Records of Martin County, Florida.

Subject: RE: Referred by Josh Holmes - St Lucie Canal ROW Easement, Martin County FLA (compacted)

Ms. Neill,

This is to confirm receipt of your email. I apologize for not responding any earlier. It must have been buried in all my other emails I get each day and was probably an oversight on my part.

Just want to inform you that the Corps does not release or terminate perpetual right-of-way easements or interests required for the operation and maintenance of our projects. The easements you are referring to are still in effect and required for the operation and maintenance of the Okeechobee Waterway Project. The Federal Government acquired these easements for project purposes and these easements grant the Government the perpetual right to enter upon, excavate, cut away, and remove any or all of the tract of land required at any time for the construction and maintenance of the Waterway. Any development on the easement area would interfere with the Government's rights granted in the easement.

I hope this answers your question and any concerns you may have.

v/r,

Bertha A. Miller

Subject: St Lucie Canal ROW Easement, Martin County FLA

Dear Josh,

I represent a group that owns land in Martin County along the St Lucie Canal, southeast of the Arundel Bridge on SW 96th St (CR-76A). Coordinates are: 27.085420, -80.302024.

We are moving forward with development of our land, and it has come to our attention that the ACOE owns a Right of Way Easement which extends inland across a portion of our property, from the canal up to SW 96th St. I am writing to confirm that the ACOE believes this ROW easement is currently in force and has not been released or otherwise

terminated by the Corps. Can you confirm these points? Also, can you advise whether the ACOE would be willing to fully release or otherwise terminate this ROW easement located on our property?

For your convenience in locating, I am attaching the following:

1. Relevant Pages (cover sheet and sheet 10) of the ACOE's Survey of the Okeechobee Waterway, St. Lucie Canal Portion. The portion of the ROW easement on our site is highlighted in yellow.
2. Copy of Judgment (FOR J 1_298)
3. Screenshot of Martin County's internal website showing applicability of Judgement to our Land
4. Copy of Plat Map from the 1930s - the portion of said ROW easement on our property is highlighted in red.

Thanks in advance, Josh, for clarifying the Corps' position. and please let me know if I can provide further information or assistance.

Best,

Nancy
