DISCLOSURE OF CONFLICTS OF INTEREST – Nothing to report

COMMENTS

1. **PUBLIC** – Nothing to report
2. **MEMBERS**
 - S. Tsafarides: The Building Dept / Code Enforcement has a new program to encourage neglected properties to come into compliance, and she will email the Building Official, Larry Massing, to see when this program will start.
 - S. Tsafarides: Code Enforcement caused the Decker house to come into compliance and it now looks a lot better
 - Discussion ensued over the Cassidy House, and how it needs to be addressed
 - S. Tsafarides: Chapter 18 for CRAs are currently waiting for approval up in Tallahassee, “and no one is more excited than Julie Priest and I.”
 - S. Tsafarides: [directed to PM J. Mills] What is the status of other CRAs?
 - J. Mills: Rio is next followed by Old Palm City, Hobe Sound, Port Salerno, and then Golden Gate.

3. STAFF – Updates provided by Joshua Mills, Project Manager, Martin County CRA
- Per George Dzama's presentation at our last NAC meeting, the question was asked about the design of temporary crosswalks along Dixie Hwy until the actual improvements project begins. The implementation of temporary crosswalks is highly unlikely as they pose a liability and also safety concerns.
 - [in regards to the new STA fence being built] The contractor being used for the new STA fence is widely used by the county for all of the STA's. The county inspects the contractors work and the contractor will not be paid unless his work is acceptable. The fence is not completed at this time.
 - Thank you to all who came out for the community BBQ and workshop helping with feedback on our bike and pedestrian trail. We had 32 people sign-in, Saadia made great cupcakes and MCSO with activities, DJ Booth, along with a great BBQ setup. This event was a great success, and a lot of lessons were learned to help make the next event even better.

PRESENTATIONS

Agenda Item: 19-0811, VACUUM HOUSE ALTERNATIVE COMPLIANCE

Leo Giangrande presented the Public Utilities alternative compliance for the vacuum house building as part of the septic-to-sewer project. He described the building details – roof, materials, elevation, setbacks, etc. – along with a comparable located in the North River Shores community.

- S. Tsafarides: What is the extent of the area that will be serviced by this building?
- L. Giangrande: He does not know the exact area that will be serviced by this building.
- M. Moore: When are they are going to get the project started?
- L. Giangrande: They previously had an anticipated start date; however, they are meeting the requirements set forth by county staff and that has moved the targeted start date. He mentioned they are getting close to having approved construction documents that can be sent out for competitive bid.
- L. Giangrande presented the proposed landscape plan.
- S. Tsafarides: Will the building be closer to Garden or Fairmont Street?
- L. Giangrande: The building will be located closer to Fairmont.
- S. Tsafarides: Is there the ability to add a community garden to the building?
- L. Giangrande: A community garden may be possible, but it should wait until after this project has been completed.
- J. Mills: We are already looking into this [community garden] as a part of the trail project.
- J. Vitale: Is there a firm start date or not?
- L. Giangrande: I do not know if there is a firm start date, but this project is a high priority.

- M. Torres: We would have to check with the school board about outreach within the schools.
