PROCEDURES: Quasi-Judicial

BACKGROUND/RELATED STRATEGIC GOAL:

Request for the approval of the 9th PUD Amendment for the Banyan Bay PUD including a revised master and phasing plan and Phase 2C final site plan. The 251-acre property is an existing residential PUD located between South Kanner Highway and the South Fork of the St. Lucie River in Stuart. Main access to the property is by way of the existing signalized intersection at SW Kanner Highway (SR 76) and SE Pomeroy Street. Included with this application is a request for a Certificate of Public Facilities Reservation.

The approved PUD Master Plan allows for 305 dwelling units in five phases with an overall project completion deadline in 2027. The final site plan for Phase 1 was approved in 2005 and the Phase 1 plat was approved in 2008. Phase 1, which includes the main entrance, the Preserve Area Management Plan (PAMP) for the entire site and 74 detached single family homesites has been completed and Phase 2 A and 2B are under construction.

The proposed 9th PUD Amendment is solely limited to reducing the number of units and changing the product type in Phase 2C from 48 duplex units to 36 single family units, thereby reducing the total residential units in the development to 293. No changes to the approved Preserve Area Management Plan, drainage requirements, height or setback requirements are required or proposed. Water and wastewater services will continue to be supplied by Martin County Utilities.

Phase 2C consists of 36 residential units on approximately 12.93 acres. The phase is bordered by wetland preserves to the north and west and SW Kanner Highway, preserves and a FDOT drainage pond to the east. The lots average five thousand square feet with a two-story height limit.
