PROCEDURES: None

BACKGROUND/RELATED STRATEGIC GOAL:

1. Interlocal Agreement Prepared By: St. Lucie County, revised by Martin County
2. Parties to the Agreement: Martin County and St. Lucie County
3. Purpose of the Agreement: Provide St. Lucie County an additional Landfill leachate disposal option
4. New/Renewal/Modified: New

5. Duration: Perpetual
6. Benefits to Martin County: Provide assistance to local government partner
7. Cost to Martin County: None

St. Lucie County owns a Class 1 Landfill and other solid waste facilities that generate Leachate. Martin County owns and operates wastewater treatment facilities that have the physical capacity and technical capacity to receive, treat and dispose of St. Lucie's Leachate. This will be an Interlocal Agreement between Martin County and St. Lucie County that grants St. Lucie the right to deliver up to 50,000 gallons of Leachate every day to Martin's Designated Facility, which is the Martin Downs Wastewater Re-Pump Facility. St. Lucie will be charged the same rates that Martin County's other customers pay for the disposal of comparable wastewater. The applicable rate currently is \$4.38 per thousand gallons of wastewater.

On December 18, 2018, the St. Lucie County Board of Commissioners approved an Interlocal Agreement with Martin County for the disposal of Solid Waste Leachate.
