Pennock Preserve PUD, Phases 2 & 3 is an approved 94 lot single family residential development on 171.82 acres. The subject property is located in Southern Martin County along SE Island Way between Jonathan Dickinson State Park and the Palm Beach County line. The project is serviced by regional water and wastewater services provided by the City of Jupiter and ENCON respectively. As allowed by Section 4.913.B, Land Development Regulations, Martin County, the owner, Standard Pacific of Florida, a Florida General Partnership, and the Board of County Commissioners executed a Contract for Construction of the Required Improvements and Infrastructure in lieu of construction prior to the recordation of the plat. The owner has received timetable extensions as provided by the Land Development Regulations and State law. In the original Contract, the owner and the County agreed that the construction would be complete by February 17, 2019.

The current timetable of development provides for completion of the construction of the required improvements and infrastructure by May 3, 2024.

The owner has asked the Board to approve the First Amendment to the Contract for Construction of Required Improvements and Infrastructure to extend the completion of construction to May 3, 2024 (consistent with the approved development timetable). Staff has reviewed the proposed amendment and previously accepted the Engineer's Opinion of Probable Costs to complete the required improvements and infrastructure. Staff will ensure that the Performance Surety Bond being held as security will be extended in accordance with the timeframes established in the First Amendment.
