PROCEDURES: None

BACKGROUND/RELATED STRATEGIC GOAL:

Agreement/Contract drafted by: Martin County Board of County Commissioners

Parties to the Agreement/Contract: Town of Ocean Breeze
Martin County Board of County Commissioners

Purpose of the Agreement/Contract: Authorizes the County to continue to provide the current level of mosquito control services within the Town's municipal limits

New/Renewal/Modification: New

Duration: Three (3) years, with a three (3) year renewal option

Benefits to Martin County: Comprehensive mosquito control services provided throughout all municipalities within the County reduce pestiferous and vector mosquitoes, benefitting the local economy and reducing potential for arbovirus transmission.

Cost to Martin County: No changes in cost to Martin County

In 1947, the Martin Anti-Mosquito District was abolished, and its duties transferred to the Martin County Board of County Commissioners. Mosquito populations arise from incorporated and unincorporated areas in Martin County and move between jurisdictional boundaries. The County has been providing mosquito control services within incorporated and unincorporated areas since this time, however there are no formal agreements in place regarding these services. This Agreement authorizes the County to continue mosquito control services within the Town's municipal limits upon receipt of written authorization from the property owner or property owner association. The Agreement is for three (3) years and authorizes the County Administrator and Town Mayor to execute a renewal for an additional three (3) years. On July 22, 2019, the Town of Ocean Breeze approved the Interlocal Agreement for Mosquito Control Services and authorized the execution of the Agreement.
