

ACTIVE CAPITAL PROJECTS 8/24/2026

Program Manager	Project Name	Description	Current Status
Joy Puerta	Golden Gate El Camino Bike/Ped Trail	The Golden Gate Community Redevelopment Plan calls for a system of pedestrian and bike trails. This multi-modal, linear park pathway will provide pedestrian and bicycle connections, increase safety, encourage walking and riding, and become a beautiful neighborhood asset utilizing existing county-owned property within the community.	Streetlights and pedestrian lighting all along the El Camino have been installed. Electrical work is complete and irrigation is close to completion.
Joy Puerta	Golden Gate Landscape Vision Pilot project	Each CRA area is distinct, and their identities are portrayed through architectural design, landscape design, community amenities and the residents and businesses that live there. The scope of these landscape improvements in the Golden Gate CRA will include the SE Dixie Highway medians, SE Bonita Street, SE Clayton Street, SE Delmar Street and SE Birch Avenue. This project will serve as a pilot project to incorporate a landscape vision in each CRA area according to the separate community redevelopment plans.	Construction design is now underway.
Joy Puerta	Golden Gate Multimodal Corridor and Drainage Resilience project	The Golden Gate Community Redevelopment Plan prioritizes infrastructure installation, improvement of public property and streetscape redevelopment. This would include paving, lighting, sidewalks, landscaping and traffic calming. These potential neighborhood improvements in Golden Gate include sidewalks/pathways, landscaping, on street parking, trees, lighting, traffic calming and unpaved roadways. Staff is exploring preliminary concepts for potential grant purposes.	An email was sent from the US Department of Transportation informing us that we did not receive a BUILD grant in this cycle. We will continue to move forward using the data already compiled, applying for other funds as appropriate and breaking the larger project into smaller components.
Jana Cox	Hobe Sound Dixie Highway Stormwater and Streetscape Redesign	The Martin County CRA vision for Hobe Sound includes the renewal of the AIA streetscape from SE Bridge Road to SE Saturn Street. This includes Old Post Office Alley and the connecting side streets. Project elements will include improved drainage and stormwater, beautification, redefined pedestrian spaces and parking. The Hobe Sound Neighborhood Advisory Committee also recommends additional economic development strategies like incentives to attract and retain businesses and commercial development; the provision of stormwater solutions for property redevelopment; and the addition of historic and creative placemaking elements to be significant in supporting the success of the corridor.	The Board of County Commissioners approved the design contract and the project is moving forward. A successful design kickoff meeting was held and initial survey work is complete.
Jana Cox	Hobe Sound Unpaved Roadways	In partnership with Public Works, the CRA will be focusing on paving the unpaved roadways in the Hobe Sound CRA. This is a Commissioner Priority. SE Elenor Ave. and SE Hammond St. have been completed. Next are SE Sagave Dr. and SE Haslom St. These are small streets off SE Pettway St., east of SE Dixie Hwy.	Unpaved roads SE Segave Drive and SE Haslom Street are at 100% design and will soon go out to bid.
Jana Cox	Jensen Beach Roadway & Parking Improvements - Church Street	Increased parking in the Jensen Beach CRA continues to be a priority for the community. This project focuses on building a complete street: undergrounding utilities, installing sidewalk, lighting and on street parking.	Design contract has been signed with Bowman Engineering and the Notice To Proceed was issued on May 11, 2026. Three initial designs were submitted and CRA staff is reviewing with Public Works.
Jana Cox	Jensen Beach Roadway & Parking Improvements – Maple Ave., JBB Crosswalk	This project emphasizes pedestrian safety, drainage solutions and additional on street parking for Maple Avenue and Jensen Beach Blvd.	This project has completed design and is out to bid.

ACTIVE CAPITAL PROJECTS 8/24/2026

Jordan Pastorius	Old Palm City SW Cornell Avenue Improvements	The second of the eight components that make up the vision of the Old Palm City CRA is Enhanced Neighborhood Street, Sidewalks and Bikeways. SW Cornell Avenue, identified as a Secondary Street in our LDRs, is an important road in the Old Palm City neighborhood, runs parallel to Mapp Road and connects Martin Highway and Martin Downs Blvd. This project seeks to widen sidewalks to accommodate safe passage for pedestrians and bicyclists and add street trees for traffic calming and beautification.	Design is at 90%. We are waiting on submittals for landscape, lighting, irrigation and electrical. CRA staff is working with Utilities, Public Works, Eco Systems and Engineering staff to align the improvement correctly with other county projects. While the Cornell Avenue Streetscape project is still a few years out, we're keeping the community informed.
Joy Puerta	Port Salerno Park Drive Improvements	Sewer installation, road paving, some drainage, tree and light pole removal, enlarging of cement pads and new signage will be completed. Public Works is designing and constructing the larger project with the CRA funding the Park Drive activities.	Phase 1 drainage and utility improvements are substantially complete. Phase 2 is the roadway work and it is currently out for bid.
Joy Puerta	Port Salerno New Monrovia Park Improvements	The Port Salerno community is interested in improving New Monrovia Park, specifically leveling the field area, removing, and replacing the basketball court, increasing the number of hoops, installing a shade structure over the playground and providing an accessible route and benches through the park that connects the Costella Williams Learning Center with all of the above.	The Notice to Proceed was issued on May 18, 2026. Construction has begun and is 70% complete.
Joy Puerta	Port Salerno New Monrovia Neighborhood Improvements	Improvements to the New Monrovia neighborhood will include the installation of additional sidewalks, traffic calming measures and street lighting.	The project is now at 100% design. CRA Staff is working with Martin County Utilities and Public Works departments to combine all of the construction plans for the projects happening there: Sewer installation; Neighborhood restoration (drainage/paving) and Amenities (sidewalk, lighting, landscaping) in order to construct once for the good of the neighborhood.
Joy Puerta	Port Salerno Unpaved Roadways	The community is interested in in looking at the feasibility of additional neighborhood connection from SE Field Street to SE 43 Avenue to SE Murray Street.	Design is now at 100% and construction planned for FY 2027.
Jordan Pastorius	Rio CR 707 Streetscape Enhancements	The Rio Community Redevelopment Plan calls for an attractive, pedestrian friendly CR 707. This project will complete that vision on Dixie Highway from the “S” curve to Langford Lane and from Rio Pine Lane to the railroad tracks with the installation of street trees, sidewalks, bike lanes, curbs, medians and landscaping where appropriate.	Marlin Engineering and Dover Kohl & Partners submitted the final report and opinion of cost for review.

ACTIVE CAPITAL PROJECTS 8/24/2026

Jordan Pastorius	Rio CRA Property and Civic Center Design	The CRA has acquired key properties on the CR-707 corridor. These properties along with county owned land will enable the continued redevelopment of the Town Center and the renovation/reconstruction of the Rio Civic Center building as an important part of the Rio Community Redevelopment Plan.	Marlin Engineering and Dover Kohl & Partners submitted the final report and opinion of cost for review.
Jordan Pastorius	Rio Dixie Highway Crosswalks	Pedestrian safety is a priority in the Rio CRA. Three crosswalks on Dixie Highway are being proposed so that residents and cyclists can more safely traverse 707.	The crosswalks have been reviewed by Martin County Traffic Engineering and the County Engineer. At this time, they have been deemed unwarranted as they do not meet the traffic standards set by FDOT. However, this will be revisited in the future once additional public and private development is constructed off of Dixie Highway.
Susan Kores	CRA Neighborhood Enhancements FY 2026	Each CRA area has its own Community Redevelopment Plan which directs the improvements to be completed in that area. In order to accomplish that vision, it is often necessary to have the ability to construct smaller projects that can substantially add to the quality of life, safety and aesthetics of an area. Examples of these projects could be additional lighting, landscaping, a crosswalk, street furniture, pole banners, entryway features, signage, sidewalk, curbing and pavers.	Hobe Sound – Banner Lake received 100 new lights and 13 new poles Rio – New, redesigned banners
Jana Cox	CRA Investment Program	The Agency has instituted the Investment Program as an additional strategy to continue the CRA’s successful redevelopment journey. The attraction of new businesses, retention of longstanding businesses, assistance to struggling businesses, and strong encouragement of private investment are all important and vital components of a robust, comprehensive redevelopment approach. A coordinated communications and marketing effort is now underway to inform CRA commercial property owners how they can take advantage of this successful economic development strategy.	Staff presented new language to the CRA Board at the July 27, 2026 meeting, instituting new rules for the sale of improved properties. The CRA Board voted unanimously to accept and include the new language into the contract moving forward.
Susan Kores	CRA Open Space Plans	Completing Open Space Plans for each CRA is required in the Martin County Comprehensive Plan, Chapter 18 Community Development Element, Policy 18.5A.1. We are to complete an open space plan that indicates the general location of desired open space and pedestrian and cyclist connectivity through the community shall be prepared for each CRA. We have contracted with the Treasure Coast Regional Planning Council and are currently working on the Port Salerno plan.	The Port Salerno Open Space Plan was adopted by the CRA Board on 4/27/26. The Golden Gate Open Space Plan will come before the CRA Board for adoption at the August 24th meeting. The task order for the Hobe Sound Open Space Plan has been signed and initial work has begun.
