D. Completeness Sufficiency Review

Applications submitted for completeness/sufficiency review meetings held on Mondays, must be received by the Growth Management Department no later than 4 p.m. the previous Thursday or in the event of a holiday, 4 p.m. Wednesday. Applications received on Fridays will be scheduled for the following week.

E. Certification by Professionals

Section 10.5.F.6.h., Article 10, Development Review Procedures, Land Development Regulations (LDR), Martin County Code (MCC) provides the following:

When reviewing a development application that has been certified by a professional listed in F.S. § 403.0877, F.S., the County shall not request additional information from the applicant more than three times, unless the applicant waives the limitation in writing. If the applicant states in writing that the request for additional information is not authorized by ordinance, rule, statute, or other legal authority, the County, at the applicant's request, shall proceed to process the application for approval or denial. (125.022(1), Fla. Stat.)

☒ This box must be checked if the applicant waives the limitations.

F. APPLICANT or AGENT CERTIFICATION

I have read this application, and to the extent that I participated in the application, I have answered each item fully and accurately.

PROJECT NARRATIVE

**Paradise Lake PUD
PUD Agreement,
Master Plan and Final Site Plan Application
November 5, 2024
(revised 8.6.25)**

Existing Property Characteristics

The subject property is located south of SE 138th Street, between US-1 and I-95. The 72.4-acre site, which is outside the Primary Urban Service District and designated for Rural Density land use, extends south to the boundary of Jonathan Dickinson State Park. The property is primarily vacant except for an agricultural structure that has been used in support of the owner's enjoyment of the property as a family retreat. The property is surrounded on the east and west by similar uses that are separated from the proposed development area by heavily forested wetland and upland preserve areas.

The Paradise Lake Planned Unit Development Zoning Agreement (PUD) was originally approved by the Martin County Board of County Commissioners (BCC) on March 16, 2010. The approval included a Master Site Plan, which consisted of twelve lots on 72.40 acres. By way of this application, the existing PUD Zoning Agreement will be terminated and replaced in its entirety upon recordation of the proposed PUD Zoning Agreement.

As part of the public benefits associated with the original PUD Agreement, the owner agreed to record a perpetual flow-through drainage easement to Martin County over the eastern wetland to allow for offsite water to flow through their wetland as part of the Kitching Creek Central Flow Way Restoration Project. Special Condition 6 of the approved agreement states:

C. If the COUNTY begins work on the Restoration prior to the OWNER obtaining final site plan approval, the COUNTY shall be solely responsible for removing exotic vegetation within the Easement area and maintaining the Easement area free of exotic vegetation until the OWNER obtains final site plan approval. Upon final site plan approval, the OWNER shall have the responsibility for maintaining the Easement area free of exotic vegetation in perpetuity. The OWNER'S responsibility for maintaining the Easement area shall be included within the PAMP for the PUD. Approval of the PAMP is a prerequisite of final site plan approval.

Based on discussions with the County during a pre-application workshop in 2020, the County determined that the recorded easement was not needed for the restoration work. However, based on actual field conditions off-site stormwater still passes through the subject property as it moves south into Jonathan Dickinson State Park. By way of the final site plan application, the area within the recorded easement and all preserve areas on site will be enhanced by the removal of exotic vegetation and maintained by the Owner in perpetuity in accordance with the Preserve Area Management Plan. Therefore, the public benefit associated with the recorded easement is consistent with the original intent.

Proposed Project

The proposed project, which was originally approved for 12 lots on 72.40 acres, has been reduced to 11 lots in order to preserve specimen oak trees and native upland habitat that maintains a significant wildlife corridor between wetland preserves on site and the adjacent Jonathan Dickinson State Park.

The site plan includes approximately 1.1 acre of frontage on SE 138th Street that will be donated as public right-of-way. The proposed single-family lots are a minimum of one acre and will be served by individual wells and advanced on-site sewage treatment systems in accordance with state and local requirements. The single family lots are designed around a central lake and physically separated from adjacent properties by more than 50 acres of preserve area and native landscape areas.

PUBLIC BENEFITS

**Paradise Lake PUD
PUD Agreement,
Master Plan and Final Site Plan Application
November 5, 2024
(revised 10.14.25)
(revised 3.3.26)**

Existing Property Characteristics

The subject property is located south of SE 138th Street, between US-1 and I-95. The 70.99-acre site, which is outside the Primary Urban Service District and designated for Rural Density land use, extends south to the boundary of Jonathan Dickinson State Park. The property is primarily vacant except for an agricultural structure that has been used in support of the owner's enjoyment of the property as a family retreat. The property is surrounded on the east and west by similar uses that are separated from the proposed development area by heavily forested wetland and upland preserve areas.

The Paradise Lake Planned Unit Development Zoning Agreement (PUD) was originally approved by the Martin County Board of County Commissioners (BCC) on March 16, 2010. The approval included a Master Site Plan, which consisted of twelve lots on 72.40 acres. By way of this application, the existing PUD Zoning Agreement will be terminated and replaced in its entirety upon recordation of the proposed PUD Zoning Agreement.

As part of the public benefits associated with the original PUD Agreement, the owner agreed to record a perpetual flow-through drainage easement to Martin County over the eastern wetland to allow for offsite water to flow through their wetland as part of the Kitching Creek Central Flow Way Restoration Project. Special Condition 6 of the approved agreement states:

C. If the COUNTY begins work on the Restoration prior to the OWNER obtaining final site plan approval, the COUNTY shall be solely responsible for removing exotic vegetation within the Easement area and maintaining the Easement area free of exotic vegetation until the OWNER obtains final site plan approval. Upon final site plan approval, the OWNER shall have the responsibility for maintaining the Easement area free of exotic vegetation in perpetuity. The OWNER'S responsibility for maintaining the Easement area shall be included within the PAMP for the PUD. Approval of the PAMP is a prerequisite of final site plan approval.

Based on discussions with the County during a pre-application workshop in 2020, the County determined that the recorded easement was not needed for the restoration work. However, based on actual field conditions off-site stormwater still passes through the subject property as it moves south into Jonathan Dickinson State Park. By way of the final site plan application, the area within the recorded easement and all preserve areas on site will be enhanced by the removal of exotic vegetation and maintained by the Owner in perpetuity in accordance with the Preserve Area Management Plan. Therefore, the public benefit associated with the recorded easement is consistent with the original intent.

Proposed Project

The proposed project, which was originally approved for 12 lots on 72.40 acres, has been reduced to 11 lots on 70.99 ac. in order to preserve specimen oak trees and native upland habitat that maintains a significant wildlife corridor between wetland preserves on site and the adjacent Jonathan Dickinson State Park.

The proposed single-family lots are a minimum of one acre and will be served by individual wells and advanced on-site sewage treatment systems in accordance with state and local requirements. The single family lots are designed around a central lake and physically separated from adjacent properties by more than 50 acres of preserve area and native landscape areas.

Analysis of “By-Right” vs. PUD

<u>By-Right</u>	<u>Proposed PUD</u>
Front: 30 feet	35 feet
Side: 30 feet	35 feet
Rear: 30 feet	35 feet
Min. lot area: 2 acres	1 acre
Min. lot width: 175 feet	175 feet
Max. Height: 30 feet	35 feet
Min. open space/lot 50%	50%
Min. Wetland Preserve: 32.38 acres	32.38 acres
Min. Upland Preserve: 14.84 acres	17.38 acres
Native Tree Protection: 0 acre	0.57-acre
Max. lots/SF units: 8	11
Max. guesthouses: 8	0
Max. septic tanks: 16	11

Developer Benefits

As shown above, the PUD allows the development of eleven 1-acre lots versus eight 2-acre lots that would be allowed under “straight” zoning – see attached conceptual 2-acre Lot plan. The developer also benefits from a slight increase in height from 30 feet to 35 feet and slight decrease in the front setback from 30 feet to 25 feet.

Public Benefits

In addition to the public benefits provided by flow-through drainage easement, the following additional public benefits are provided by the design of the project:

- Increase in upland preserve area by 2.54 acres, from 14.84 acres to 17.38 acres;
- Increase in the side and rear building setbacks from 30 to 35 feet;
- The project provides 0.57 acres of native tree protection area that will be retained in existing native vegetation and planted with native trees;
- The applicant/owner agrees to prohibit guesthouses on the lots; and
- The applicant/owner agrees to donate \$1,000 per unit (\$11,000) to the Martin County Community Land Trust.
